

1Z0-771시험대비최신공부자료 & 1Z0-771높은통과율시험대비공부문제

🔑 Get the Optimal Oracle 1Z0-771 Exam PDF Questions — Qualify on Your First Shot!

Are you aiming to clear the Oracle 1Z0-771 exam questions on your very first try? Certification exams in 2025 are more difficult than ever, demanding extensive knowledge and practical experience. To increase your chances of achievement, you need reliable and latest learning tools. **HelloDumps** provides [Oracle 1Z0-771 dumps](#) and expert-reviewed study materials to help you study effectively. The top part? You can now enjoy an exclusive 35% deal on all study materials!

Why Choose HelloDumps for Your 1Z0-771 Exam Preparation?

✅ Authentic 1Z0-771 Exam Questions – Obtain an Advantage Over Others

HelloDumps offers actual exam-like questions, closely consistent with the latest 1Z0-771 composition, difficulty level, and syllabus of the Oracle APEX Cloud Developer Professional certification. Practicing these questions helps you understand the test structure and enhances your achievement.

🔑 Retrieve Oracle APEX Cloud Developer Professional Exam Questions 2025 Here: <https://hellodumps.com/1z0-771-dumps.html>

✅ Three User-Friendly Learning Formats

We provide study materials in various formats to suit different learning styles:

📄 **PDF Composition** – Study on any device, anytime, anywhere.

💻 **Desktop Preparation Test** – Simulates real exam conditions with customizable mock tests.

🌐 **Web-Based Drill Test** – No installation required—practice directly from your browser.

ExamPassdump는 유일하게 여러분이 원하는 Oracle인증 1Z0-771 시험관련자료를 해결해드릴 수 있는 사이트입니다. 여러분이 다른 사이트에서도 관련덤프자료를 보셨을 경우 페이지 아래를 보면 자료출처는 당연히 ExamPassdump 일 것입니다. ExamPassdump의 자료만의 제일 전면적이고 또 최신 업데이트일 것입니다.

Oracle 1Z0-771 시험요강:

주제	소개
주제 1	Creating Progressive Web Apps: This section assesses the skills of Web Developers in building Progressive Web Applications (PWAs). It includes enhancing application accessibility, implementing push notifications, and optimizing applications for seamless cross-device experiences.
주제 2	Managing Workflows and Tasks: This section evaluates the proficiency of Process Automation Specialists in workflow management. It covers customizing workflows, using approval processes, and handling unified task lists to streamline business processes within applications.
주제 3	Extending Application Capabilities: This section measures the skills of APEX Developers in enhancing application functionality. It includes sending automated emails, implementing plug-ins, and utilizing automation features to improve efficiency and extend capabilities.

주제 4	• Creating and Using Dynamic Actions and Plug-ins: This section tests the expertise of Developers in implementing dynamic actions. It covers configuring event-driven behaviors and integrating plug-ins to create responsive and interactive application features.
주제 5	• Adding Additional Pages to Your Application: This section assesses the skills of Application Developers in expanding application functionalities. It involves creating Oracle JET charts, calendars, trees, and maps to enhance data visualization and user interaction.
주제 6	• Managing Pages and Regions: This section measures the knowledge of UI Designers in structuring application layouts. It covers creating different types of pages and regions, managing page components within Page Designer, and ensuring an optimized user interface for applications.
주제 7	• Creating and Using Forms: This section evaluates the proficiency of Form Developers in designing user-friendly forms. It covers creating interactive grids, developing simple forms linked to reports, and implementing master-detail forms for effective data management.
주제 8	• Managing Application Data: This section evaluates the expertise of Data Engineers in handling application data. It covers using collections, managing REST-enabled SQL references, integrating REST Data Sources, and synchronizing data across different environments.
주제 9	• Creating Application Page Controls: This section tests the abilities of Frontend Developers in implementing interactive page elements. It includes creating page-level items, buttons, and controls that enhance navigation and user interaction within APEX applications.
주제 10	• Migrating Application Development Between Environments: This section measures the abilities of DevOps Engineers in managing application deployments. It includes exporting and importing application artifacts, performing remote deployments, and maintaining working copies to ensure smooth transitions between development environments.
주제 11	• Using Themes and Theme Styles: This section tests the abilities of UI Designers in applying visual themes to applications. It involves selecting and customizing themes, using Theme Roller for design adjustments, and creating template components for consistent branding.
주제 12	• Implementing Navigation in Your Application: This section assesses the skills of UX Designers in designing smooth application navigation. It includes configuring shared components, setting up search functionalities, and enhancing user experience with intuitive navigation structures.
주제 13	• Adding Computations, Processes, Validations, and Branches: This section measures the knowledge of Backend Developers in implementing application logic. It focuses on configuring computations, processes, validations, and page branches to automate workflows and ensure data integrity.
주제 14	• Leveraging Generative AI in Oracle APEX: This section tests the knowledge of AI Developers in integrating AI-powered features within APEX applications. It involves using APEX Assistant for code generation, creating AI-driven data models, and implementing AI-powered text generation using dynamic actions.

1Z0-771높은 통과율 시험대비 공부문제 & 1Z0-771퍼펙트 최신 덤프자료

ExamPassdump 의 Oracle인증 1Z0-771시험에 도전장을 던지셨나요? 현황에 만족하지 않고 열심히 하는 모습에 박수를 보내드립니다. Oracle인증 1Z0-771시험을 학원등록하지 않고 많은 공부자료 필요없이ExamPassdump 에서 제공해드리는 Oracle인증 1Z0-771덤프만으로도 가능합니다. 수많은 분들이 검증한Oracle인증 1Z0-771덤프는 시장에서 가장 최신버전입니다.가격도 친근하구요.

최신 Application Development 1Z0-771 무료샘플문제 (Q53-Q58):

질문 # 53

Which two tasks can be performed by using the Generate Text with AI Dynamic Action?

- A. Summarize or translate text
- B. Draft an email
- C. Invoke a Workflow
- D. Update the underlying database tables

정답: A,B

설명:

The "Generate Text with AI" Dynamic Action uses Generative AI to:

Draft an email: Creates text content like emails based on prompts.

Summarize or translate text: Processes existing text to summarize or translate it.

It does not update database tables or invoke workflows, as it's focused on text generation.

질문 # 54

Which two statements are true about the APEX_MAIL API?

- A. You can send emails using the APEX_MAIL package from an Oracle APEX application.
- B. You can receive emails using the APEX_MAIL package in an Oracle APEX application.
- C. The APEX_MAIL package supports sending emails only to Oracle database users.
- D. You can add files as attachments to your emails using the APEX_MAIL package.

정답: A,D

설명:

The APEX_MAIL API facilitates email functionality:

A . You can add files as attachments: Using APEX_MAIL.ADD_ATTACHMENT (e.g.,

APEX_MAIL.ADD_ATTACHMENT(p_mail_id, p_attachment, p_filename)), you can attach BLOBs (e.g., PDFs) to emails.

C . You can send emails: APEX_MAIL.SEND (e.g., APEX_MAIL.SEND(p_to => 'user@example.com', p_body => 'Hello')) sends emails from APEX, leveraging the configured mail server.

B . You can receive emails: False; APEX_MAIL is send-only; receiving requires custom integration (e.g., IMAP).

D . Only to Oracle database users: False; emails can go to any valid address, not just database users.

Pitfall: Ensure the mail queue is processed (APEX_MAIL.PUSH_QUEUE) for timely delivery.

질문 # 55

Which two statements are true about creating and using dynamic actions?

- A. You can execute JavaScript code by creating a dynamic action.
- B. After you create a dynamic action, you cannot add more true actions.
- C. If no client-side condition is defined, true actions will not fire.
- D. If a client-side condition is defined, the true action will fire when the condition is met.

정답: A,D

설명:

Dynamic Actions in APEX enable responsive behavior:

If a client-side condition is defined, the true action will fire when the condition is met: A condition (e.g., this.browserEvent === 'click') ensures the true action (e.g., Show, Hide) executes only when true, enhancing precision in event handling.

You can execute JavaScript code by creating a dynamic action: The "Execute JavaScript Code" action type allows custom scripts (e.g., alert('Clicked!')), extending functionality beyond declarative options.

Cannot add more true actions: False; multiple true actions can be added post-creation.

No condition, true actions won't fire: False; without a condition, true actions fire unconditionally on the event.

Dynamic Actions are a cornerstone of interactive UIs in APEX.

질문 # 56

You must use a Static Content region type to display messages about the employee of the month. Which text, when placed in this

region, will display the message correctly?

- A. Join me in congratulating: &P1_ENAME. as the new employee of the month!
- B. Join me in congratulating: P1_ENAME as the new employee of the month!
- C. Join me in congratulating & P1_ENAME. as the new employee of the month!
- D. Join me in congratulating V('P1_ENAME') as the new employee of the month!

정답: A

설명:

Static Content regions display fixed text with substitution:

B . &P1_ENAME.: The &ITEM_NAME. syntax substitutes the value of P1_ENAME at runtime (e.g., "Join me in congratulating: John as..."), correctly rendering the item's value. The dot ensures proper parsing.

A . P1_ENAME: Treated as literal text, not substituted.

C . V('P1_ENAME'): A PL/SQL function, invalid in static content; it's for server-side code.

D . & P1_ENAME.: Space before P1_ENAME breaks substitution syntax.

Pitfall: Ensure P1_ENAME is populated (e.g., via a page process) to avoid blank output.

질문 # 57

What do you achieve by performing the "Refresh Working Copy" task?

- A. Update the changes from one Working Copy to another.
- B. Merge the Working Copy changes with the Main application.
- C. Get the latest updates from the Main application.

정답: C

설명:

Working Copies in APEX allow safe experimentation:

C . Get the latest updates from the Main application: "Refresh Working Copy" (in App Builder > Working Copies) pulls changes from the Main application into the Working Copy, ensuring it reflects the latest state (e.g., new pages, fixes) without overwriting Working Copy changes.

A . Merge with Main: Merging is a separate "Merge Working Copy" task.

B . Update between Working Copies: Not supported; refreshing is Main-to-Working only.

Practical note: Use this to sync collaborative development efforts.

질문 # 58

.....

여러분은 Oracle 1Z0-771 인증시험을 패스함으로 IT업계관련 직업을 찾고자하는 분들에게는 아주 큰 가산점이 될수 있으며, 성당한 IT업계사업자와 한걸음 가까와 집니다.
