Relevant VMware 2V0-16.25 Questions & 2V0-16.25 Test Lab Questions

P.S. Free & New 2V0-16.25 dumps are available on Google Drive shared by PDFVCE: https://drive.google.com/open?id=1yuu80TreyITB3PxPq2gORpkSVfrdiaMY

The desktop VMware vSphere Foundation 9.0 Administrator (2V0-16.25) practice exam software helps its valued customer to be well aware of the pattern of the real 2V0-16.25 exam. You can try a free VMware vSphere Foundation 9.0 Administrator (2V0-16.25) demo too. This VMware vSphere Foundation 9.0 Administrator (2V0-16.25) practice test is customizable and you can adjust its time and VMware PDF Questions. PDFVCE helps you in doing self-assessment so that you reduce your chances of failure in the examination of VMware vSphere Foundation 9.0 Administrator (2V0-16.25) certification.

This version of the software is extremely useful. It may necessitate product license validation, but it does not necessitate an internet connection. If you have any issues, the PDFVCE is only an email away, and they will be happy to help you with any issues you may be having! This desktop VMware 2V0-16.25 practice test software is compatible with Windows computers. This makes studying for your test more convenient, as you can use your computer to track your progress with each VMware vSphere Foundation 9.0 Administrator (2V0-16.25) mock test. The software is also constantly updated, so you can be confident that you're using the most up-to-date version.

2V0-16.25 Test Lab Questions & New 2V0-16.25 Dumps Sheet

With the rapid development of economy, the demand of society for us is getting higher and higher. If you can have an international certification, then you will be more competitive in society. Our 2V0-16.25 exam materials have helped many people improve their competitive in their company or when they are looking for better jobs. Because our 2V0-16.25 Practice Questions are all the most advanced information and knowledge to equip you up as the most skilled person. Besides, you can get the certification as well.

VMware vSphere Foundation 9.0 Administrator Sample Questions (Q17-Q22):

NEW QUESTION # 17
An administrator is tasked with creating dashboards to track system performance metrics for both the IT department and executive leadership. The requirements for this task are:
* The IT team needs detailed, technical metrics across all of the infrastructure components in the environment.
* The executives need high-level summaries that highlight Key Performance Indicators (KPIs) across the environment in a single dashboard.
* The executives need to access the dashboard via a shared URL.
* The dashboards must be capable of being shared, and always display the latest data collected when the link is used.
What two steps should the administrator perform to meet these requirements? (Choose two.)

- A. Use Out-of-the-Box dashboards in VCF Operations to display detailed technical metrics.
- B. Create a Custom dashboard in VCF Operations to highlight Key Performance Indicators.
- C. Use Out-of-the-Box dashboards in VCF Automation to highlight Key Performance Indicators.
- D. Create a Custom dashboard in VCF Operations for Logs to display the Key Performance Indicators.

Answer: A,B

Explanation:
To satisfy both IT and executive requirements:
* IT team# Needsdetailed technical metrics, which are available throughOut-of-the-Box dashboards in VCF Operations. (A)
* Executives# Need acustom KPI-focused dashboard, with summaries and high-level visibility. This can be shared via aURL linkthat always shows the latest data. (B) Why others are incorrect:
* C. Custom dashboard in VCF Operations for Logs# Logs are not KPI-focused performance metrics.
* D. Out-of-the-Box dashboards in VCF Automation# VCF Automation is not designed for KPI reporting.
References:
VMware Cloud Foundation 9.0.2 -Dashboards and KPI Tracking
VMware Docs: [Custom and Out-of-the-Box Dashboards in vRealize Operations]

NEW QUESTION # 18
An administrator is following the concept of least privilege and must configure permissions in a vSphere environment granting members of the group corp\VM-Managers the following abilities:
* Power on/off virtual machines
* Open consoles
* Create snapshots
Which out-of-the-box role satisfies these access control requirements?

- A. Administrator
- B. Virtual Machine Console User
- C. Virtual Machine Power User
- D. Virtual Machine User

Answer: C

Explanation:
The requirement is to followleast privilegewhile granting specific VM operations:
* Power on/off virtual machines
* Open consoles
* Create snapshots
TheVirtual Machine Power Userrole is the correct out-of-the-box role, as it includes all these privileges without granting unnecessary administrative access.
Other roles:
* Administrator (A):Grants full environment control # too broad.
* Virtual Machine Console User (B):Limited to console access, cannot power on/off or snapshot.
* Virtual Machine User (C):Can interact with VMs but lacks snapshot privileges.

VMware vSphere 9.0 Documentation -Default Roles and Permissions
VMware KB 1033138 -Privileges for VM Roles

NEW QUESTION # 19
An administrator has licensed vSphere components in Connected mode and then switched to Disconnected mode to meet the company security restrictions, which cannot be violated.
What must the administrator do to ensure the VMware vSphere Foundation license remains valid?

- A. Manually exchange a registration and license file between the VCF Operations instance and the VCF Business Services console at least once every 180 days.
- B. Nothing. The license is perpetual.
- C. Provide an internet connection to VCF Operations, then download a new license file from the VCF Business Services console at least once every 180 days.
- D. Switch to Connected mode, validate that VCF Operations has downloaded a new license file from VCF Business

Services console, and then switch to Disconnected mode at least once every 365 days.

Answer: A

Explanation:
ForDisconnected mode licensingin vSphere Foundation:
* Administrators must manuallyexport a registration file, upload it to theVCF Business Services console, and thenimport the license fileback into VCF Operations.
* This process must be repeatedevery 180 daysto maintain license validity.
Other options:
* A. Switch to Connected mode once every 365 days# Incorrect; 180-day requirement.
* C. License is perpetual# Not correct; subscription-based license requires refresh.
* D. Provide internet connection every 180 days# Violates security restriction (Disconnected mode is required).
References:
VMware Cloud Foundation 9.0 -Connected and Disconnected Licensing Modes VMware Docs: [vSphere Foundation Licensing with VCF Business Services]

NEW QUESTION # 20
The operations team is tasked with the preparation of a weekly health status overview of a VMware vSphere Foundation (VVF) environment to senior management with the following requirements:
* It should be sent every Monday morning.
* It must include KPIs related to cluster health, storage usage, and virtual machine (VM) growth trends.
* Operational overhead should be minimized.
Which two actions must the administrator perform to satisfy these requirements? (Choose two.)

- A. Export the desired metrics from the Metrics Explorer to CSV.
- B. Create a custom View with the KPIs and add it to a new Report Template.
- C. Create a custom dashboard with the required KPIs.
- D. Configure the scheduler to send the report via e-mail weekly.
- E. Export the built-in Cluster Summary report via FTP.

Answer: B,D

Explanation:
VMware vSphere Foundation (VVF) integrates VMware Aria Operations (vRealize Operations) for intelligent operations management, enabling automated reporting to minimize operational overhead. To meet the requirements for a weekly health status overview including cluster health, storage usage, and VM growth trends, an administrator must first create a custom View in Aria Operations to define the specific KPIs (e.g., cluster availability, datastore capacity, and VM count trends over time). This View is then added to a new Report Template, which compiles the data into a structured report format like PDF or CSV. Next, the scheduler in Aria Operations is configured to generate and email the report every Monday morning, ensuring delivery without manual intervention. This approach leverages built-in automation for recurring tasks, reducing effort compared to ad-hoc exports or manual configurations.
Other options do not fully satisfy the requirements: Option A creates a dashboard for interactive visualization but not a scheduled report; Option C uses a built-in report with limited customization and no direct FTP export or scheduling; Option E involves manual CSV exports from Metrics Explorer, increasing overhead and lacking automation.

NEW QUESTION # 21
An administrator enables the VMware Cloud Foundation (VCF) Operations orchestrator Plug-in for VMware vSphere Web Client service on a VCF Operations orchestrator appliance.
How many vSphere instances can be integrated in the vSphere Client through the VCF Operations orchestrator plug-in?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: C

Explanation:

TheVCF Operations Orchestrator Plug-in for VMware vSphere Web Clientallows orchestration workflows directly in the vSphere Client.

* However,only one vSphere instance can be integratedat a time with the vSphere Client via this plug-in.
* This limitation ensures a consistent, single orchestration endpoint per vSphere Client environment.

Other options (8, 10, 15) apply to scaling of vCenter or data sources but not to the Orchestrator Plug-in integration.
References:
VMware Cloud Foundation 9.0.1 -Orchestrator Plug-in Integration Limits
VMware Docs: vRealize Orchestrator Plug-in for vSphere Web Client

NEW QUESTION # 22

......

Our company was built in 2008 since all our education experts have more than ten years' experience in 2V0-16.25 guide torrent. The most important characters we pay attention on are our quality and pass rate. We devote ourselves to improve passing rate constantly and service satisfaction degree of our 2V0-16.25 training guide. And now you can find the data provided from our loyal customers that our pass rate of 2V0-16.25 learning guide is more than 98%. You will successfully pass your 2V0-16.25 exam for sure.
