DumpsQuestion is obliged to give you 1 year of free update checks to ensure the validity and accuracy of the Infoblox NIOS-DDI-Expert exam dumps. We also offer you a 100% money-back guarantee, in the very rare case of failure or unsatisfactory results. This puts your mind at ease when you are Infoblox NIOS-DDI-Expert Exam preparing with us.

Due to continuous efforts of our experts, we have exactly targeted the content of the NIOS-DDI-Expert exam. You will pass the NIOS-DDI-Expert exam after 20 to 30 hours' learning with our NIOS-DDI-Expert study material. If you fail to pass the exam, we will give you a refund. Many users have witnessed the effectiveness of our NIOS-DDI-Expert Guide braindumps you surely will become one of them. Try it right now! And we will let you down.

Fast Download New NIOS-DDI-Expert Test Cost – The Best New Test Sample for NIOS-DDI-Expert - Reliable NIOS-DDI-Expert Interactive Questions

Here we want to give you a general idea of our NIOS-DDI-Expert exam questions. Our website is operated with our NIOS-DDI-Expert practice materials related with the exam. We promise you once you make your choice we can give you most reliable support and act as your best companion on your way to success. We not only offer NIOS-DDI-Expert free demos for your experimental overview of our practice materials, but being offered free updates for whole year long.

Infoblox Qualified NIOS DDI Expert - INE Sample Questions (Q35-Q40):

NEW QUESTION # 35

Which of the following transport protocols are supported by scheduled NIOS Grid Backup? (Select all that apply.)

- A. SCP
- B. HTTPS
- C. SFTP

- D. FTP

Answer: A,B,C,D

Explanation:

Comprehensive and Detailed In-Depth Explanation: NIOS Grid Backup allows scheduled exports of the configuration database (DNS, DHCP, Grid settings) to an external server. Supported protocols ensure flexibility and security.

* A (SFTP): Secure File Transfer Protocol (SSH-based) is supported for encrypted backups to remote servers (port 22). Widely used for secure transfers. Correct.

* B (SCP): Secure Copy Protocol (also SSH-based) is supported, offering a simple, secure file transfer option (port 22). Correct.

* C (FTP): File Transfer Protocol (unencrypted, port 21) is supported for legacy systems, though less secure. Correct.

* D (HTTPS): Web-based secure transfer (port 443) is supported, allowing backups to HTTP servers with SSL/TLS encryption. Correct.

* Setup: In Grid Manager (Grid > Grid Manager > Backup), you configure the protocol, server IP, and credentials.

* Practical Example: In an INE lab, you'd schedule a backup using SFTP to a remote server, test restoration, and troubleshoot connectivity issues, reinforcing Grid deployment skills.

* Note: All four are explicitly supported per NIOS documentation, making this a comprehensive list.

References: Infoblox NIOS Administrator Guide - Grid Backup; INE Course Objective: NIOS DDI Grid Deployment.

NEW QUESTION # 36

When configuring Authentication Policy, an administrator should always choose a group for "Assign users to this group if remote admin group cannot be found".

- A. False
- B. True

Answer: A

Explanation:

Comprehensive and Detailed In-Depth Explanation: The Authentication Policy in NIOS (Administration > Authentication) governs remote authentication (e.g., LDAP, RADIUS). The "Assign users to this group if remote admin group cannot be found" option is a fallback mechanism.

* Purpose: If a user's remote group (e.g., from AD) isn't mapped to an NIOS group, this setting assigns them to a default group with predefined permissions.

* Requirement: It's optional-not mandatory. Leaving it unset means unmatched users are denied access unless individually mapped, enhancing security in some cases.

* Why False: "Always" implies it's required, but NIOS allows flexibility. For strict environments, admins might skip this to prevent unauthorized access, relying on explicit mappings.

* Options Analysis:

* A: Suggests a mandatory setting, but documentation and UI show it's a choice. Incorrect.

* B: Correctly reflects that it's not always necessary-optimal based on policy. Correct.

* Practical Example: In an INE lab, you'd configure LDAP without a fallback group, test an unmapped user's denial, and troubleshoot authentication logs, reinforcing Grid security concepts. References:

Infoblox NIOS Administrator Guide - Authentication Policy; INE Course Objective: NIOS DDI Grid Deployment.

NEW QUESTION # 37

Which system provides database synchronization to the passive node of an HA pair Grid Member?

- A. The Active Node of the HA pair
- B. The Grid Master Candidate
- C. The DNS Primary
- D. The Grid Master

Answer: A

Explanation:

Comprehensive and Detailed In-Depth Explanation: In an Infoblox High Availability (HA) pair, the active node maintains the live database and services (DNS, DHCP, etc.), while the passive node remains on standby, ready to take over if needed. Database synchronization between the active and passive nodes is handled directly by the active node using the `bloxSync` mechanism over a

secure connection (typically SSL). The Grid Master oversees Grid-wide synchronization, but within an HA pair, the active node is responsible for keeping the passive node's database up-to-date. The Grid Master Candidate (GMC) and DNS Primary are unrelated to this specific HA pair sync process. This is a key troubleshooting point in the INE course. References: Infoblox NIOS Documentation - HA Configuration; INE Course Content: NIOS DDI Grid Troubleshooting.

NEW QUESTION # 38

What sends the email messages for Workflow Approval notifications in NIOS?

- A. NIOS Grid Master Candidate (GMC)
- B. NIOS Grid Master (GM) and the NIOS Grid Master Candidate (GMC)
- C. NIOS SuperAdmin
- D. **NIOS Grid Master (GM)**

Answer: D

Explanation:

Comprehensive and Detailed In-Depth Explanation: Workflow Approval notifications:

- * A: The Grid Master (GM) sends emails via its configured SMTP settings (Grid > Grid Properties > Email), as it manages Grid-wide tasks. Correct.
- * B: GMC is a standby, not active unless promoted-doesn't send emails. Incorrect.
- * C: Only GM sends, not both-GMC is passive. Incorrect.
- * D: SuperAdmin is a role, not a process-no sending capability. Incorrect.

* Practical Example: In an INE lab, configure SMTP on the GM, test approval emails, and troubleshoot delivery from GM logs. References: Infoblox NIOS Administrator Guide - Workflow Notifications; INE Course Objective: NIOS DDI Grid Deployment.

NEW QUESTION # 39

A customer reports difficulty joining a standalone High Availability (HA) pair. How should the customer diagnose the issue? Choose 2 answers

- A. **Use traffic capture on both nodes**
- B. Reset everything before trying to re-join
- C. Use traffic capture on the first node (the active node)
- D. **Use error messages recorded in syslog and debug log on both nodes**

Answer: A,D

Explanation:

Comprehensive and Detailed In-Depth Explanation: Joining a standalone HA pair to a Grid involves network, authentication, and sync issues. Best diagnostics:

- * A: Syslog (show log syslog) and debug logs (e.g., infoblox.log in support bundle) on both nodes reveal errors (e.g., "Join failed: invalid secret"). Essential for root cause. Correct.
- * C: Traffic capture (tcpdump via CLI) on both nodes checks VRRP, bloxSync, and network issues (e.g., blocked ports). Comprehensive view of communication. Correct.
- * B: Capturing only the active node misses passive node issues (e.g., firewall blocking sync). Incomplete. Incorrect.
- * D: Resetting erases logs and configs, hindering diagnosis-last resort, not initial step. Incorrect.

* Practical Example: In an INE lab, you'd check syslog for "sync failed," run tcpdump -i eth0 port 443 on both, and troubleshoot a blocked SSL port. References: Infoblox NIOS Administrator Guide - HA Troubleshooting; INE Course Content: NIOS DDI Grid Troubleshooting.

NEW QUESTION # 40

.....

With NIOS-DDI-Expert guide torrent, you can easily pass professional qualification exams of various industries, even if you are not a college graduate, and you have never come into contact with this professional knowledge. With NIOS-DDI-Expert exam torrent, you can also quickly get started, easily grasp the key points of the exam, and gain access to well-known companies. NIOS-DDI-

Expert Guide Torrent helps you to use the least time to get the maximum improvement. With our NIOS-DDI-Expert certification training, you pay for money, but you can get time and knowledge that money cannot buy.
