### Salesforce Certified Slack Administrator Sample Questions (Q86-Q91):

#### NEW QUESTION # 86

You're a Workspace Owner and App Manager for your company's Slack Enterprise Grid instance. The Human Resources (HR) team at your company wants to pilot a Wellness app for all employees in your workspace.

As an App Manager, what are the two key considerations you should understand before installing the app in Slack? (Select the TWO best answers.)

Is this app available in the Slack App Directory?

- A. Does the app have a valid business use case?
- **B. Does the app connect with your HR system?**
- **C. What are the external services or APIs the app is connecting to?**
- D. Does the app meet data security policies for your organization?

**Answer: B,C**

#### NEW QUESTION # 87

Large Inc is launching Enterprise Grid. They have decided to create a workspace for each line of business, and one workspace for social channels. Members are assigned to two workspaces but are allowed to join other workspaces if they want to.

What is the main benefit of this Grid design?

- A. There is no added benefit to this Grid design because the Workspace Admin and member experience is the same regardless of how many workspaces you create.
- **B. Workspace Administration efforts can be distributed to representatives from each line of business who know the needs of their business unit best.**
- C. Members experience less context switching when they are given the chance to access several workspaces.
- D. Workspace Administration is centralized and therefore presents less of an opportunity for breaches in org-wide policy and process decisions.

**Answer: B**

Explanation:

In Enterprise Grid, one major advantage of creating workspaces based on business units is the ability to delegate administrative responsibilities.

Slack documentation states:

"Distributing workspace administration to leaders who understand their teams' unique needs ensures that workspace management is efficient and more responsive." This approach provides autonomy to different lines of business without overburdening central IT or Slack admins and improves the relevance of each workspace's settings and channel structure.

(Reference: Slack Administration Study Guide - Enterprise Grid Best Practices for Workspace Architecture)

-

### NEW QUESTION # 88

You're a Support Agent on the admin team for your organization's Slack Enterprise Grid workspace.

You receive a service request from one of your employees to add 15 new members from a single external company to Slack in order to support a 12-month joint marketing partnership. The team requires multiple channels and members for external collaboration.

How should you respond to the service request?

- A. Advise the employee to set up a separate Slack workspace that is jointly owned by both organizations.
- **B. Advise the employee to initiate one or more Slack Connect channels to collaborate with the external organization. The external organization can set up a free Slack instance if they are not already using Slack.**
- C. Approve the employee's request, then invite the external users to your workspace as Multi-Channel Guests with a 12-month expiration date.
- D. Advise the employee to request the external users be added to your identity provider (IdP) so they can authenticate to your workspace with SAML single sign-on (SSO).

**Answer: B**

### NEW QUESTION # 89

Your organization would like to maintain their Bring Your Own Device (BYOD) policy on Slack's Enterprise Grid plan and have not yet decided on an Enterprise Mobility Management (EMM) provider.

As an IT manager you understand that Slack has a number of out-of-the-box features that can help manage how mobile devices are used without enabling EMM. Which two features are included in Slack's native mobile controls on the Enterprise Grid? (Select the TWO best answers.)

- A. identity provider (idP) group management for mobile devices.
- B. Remotely erase data in the case of stolen mobile devices.
- **C. Block file downloads and copying on mobile devices.**
- **D. Jailbreak or root detection for mobile devices.**
- E. Domain allow list to limit mobile access to corporate workspaces only

**Answer: C,D**

### NEW QUESTION # 90

Large Corp is shutting down its Marketing team based in Europe. Deprovisioning is supported through their IdP.

When Large Corp removes users from their IdP, what will happen to their Slack accounts?

- **A. Their accounts will be deactivated, they will be signed out on all of their devices, and their accounts will be removed from channels. However, only their messages and files in direct messages will be deleted.**
- B. Their Slack accounts will be deleted permanently, and all messages and files will be deleted, as well, for compliance reasons.
- C. Their accounts will be deactivated, they will be signed out on all of their devices, and their accounts will be removed from channels. However, their messages and files won't be deleted.
- D. Their accounts will be deactivated, but they won't be signed out of their devices. A session reset is also required.

**Answer: A**

### NEW QUESTION # 91

.....
