FCSS_EFW_AD-7.4 Latest Test Labs | FCSS_EFW_AD-7.4 Valid Test Simulator
The privacy protection of users is an eternal issue in the internet age. Many illegal websites will sell users' privacy to third parties, resulting in many buyers are reluctant to believe strange websites. But you don't need to worry about it at all when buying our FCSS_EFW_AD-7.4 study materials. We assure you that we will never sell users' information because it is damaging our own reputation. In addition, when you buy our FCSS_EFW_AD-7.4 Study Materials, our website will use professional technology to encrypt the privacy of every user to prevent hackers from stealing.

Fortinet FCSS_EFW_AD-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	• Security Profiles: This section of the exam measures the skills of Network Security Engineers and focuses on managing security inspection profiles, including SSL and SSH inspections. Candidates will learn to apply a combination of web filtering, application control, and Internet Service Database (ISDB) to enhance network security. The section also covers integrating Intrusion Prevention Systems (IPS) to monitor and mitigate threats within enterprise networks.
Topic 2	• Routing: This section of the exam measures the skills of Security Administrators and covers the implementation of advanced routing protocols to manage enterprise traffic effectively. Candidates will gain expertise in configuring Open Shortest Path First (OSPF) for dynamic routing and Border Gateway Protocol (BGP) to facilitate communication between different networks, ensuring efficient traffic flow across enterprise environments.

Topic 3	• System Configuration: This section of the exam measures the skills of Network Security Engineers and covers the implementation of the Fortinet Security Fabric, ensuring seamless integration across security solutions. It also includes configuring hardware acceleration on FortiGate devices to optimize performance. Candidates will learn to set up different operation modes for high-availability clusters and implement enterprise networks using VLANs and VDOMs. Additionally, it covers various use case scenarios that demonstrate how Fortinet solutions contribute to secure network environments.
Topic 4	• VPN: This section of the exam measures the skills of Network Security Engineers and covers the implementation of secure communication tunnels for enterprise environments. Candidates will learn to configure IPsec VPN with IKE version 2 to establish encrypted connections. The section also includes the implementation of ADVPN to enable on-demand VPN tunnels between different sites, ensuring secure and dynamic connectivity.
Topic 5	• Central Management: This section of the exam measures the skills of Security Administrators and focuses on implementing central management for Fortinet security solutions. It includes configuring and managing devices centrally to streamline network security operations. Candidates will understand how to maintain consistency in security policies and automate deployments for efficient management of large-scale enterprise environments.

Fortinet FCSS_EFW_AD-7.4 Valid Test Simulator & Valid FCSS_EFW_AD-7.4 Test Labs

We apply international recognition third party for payment for FCSS_EFW_AD-7.4 exam materials, therefore, if you choose us, your money safety will be guaranteed. The third party will guarantee your interests. Besides, FCSS_EFW_AD-7.4 exam materials of us is high-quality, they will help you pass the exam successfully. We also pass guarantee and money back guarantee if you fail to pass the exam. FCSS_EFW_AD-7.4 Exam Braindumps offer you free update for one year, and in the following year, you can know the latest information for the exam. The latest version for FCSS_EFW_AD-7.4 will be sent to your email automatically.

Fortinet FCSS - Enterprise Firewall 7.4 Administrator Sample Questions (Q28-Q33):

NEW QUESTION # 28
Examine the partial output from two web filter debug commands; then answer the question below:

```
# diagnose test application urlfilter 3
Domain | IP    DB Ver    T URL
34000000| 34000000   16.40224 P Bhttp://www.fgt99.com/
# get webfilter categories
g07 General Interest - Business:
   34 Finance and Banking
   37 Search Engines and Portals
   43 General Organizations
   49 Business
   50 Information and Computer Security
   51 Government and Legal Organizations
   52 Information Technology
```

Based on the above outputs, which is the FortiGuard web filter category for the web site www.fgt99.com?

- **A. Information technology.**
- B. Finance and banking
- C. General organization.
- D. Business.

Answer: A

NEW QUESTION # 29
Which of the following statements is true regarding a FortiGate configured as an explicit web proxy?

- A. FortiGate limits the number of simultaneous sessions per explicit web proxy user. This limit CANNOT be modified by the administrator.
- B. FortiGate limits the number of simultaneous sessions per explicit web proxy user. The limit CAN be modified by the administrator.
- C. FortiGate limits the number of workstations that authenticate using the same web proxy user credentials. This limit CANNOT be modified by the administrator.
- D. FortiGate limits the total number of simultaneous explicit web proxy users.

Answer: D

NEW QUESTION # 30
Refer to the exhibit, which shows a physical topology and a traffic log.

The administrator is checking on FortiAnalyzer traffic from the device with IP address 10.1.10.1, located behind the FortiGate ISFW device.
The firewall policy in on the ISFW device does not have UTM enabled and the administrator is surprised to see a log with the action Malware, as shown in the exhibit.
What are the two reasons FortiAnalyzer would display this log? (Choose two.)

- A. Security rating is enabled in ISFW.
- B. ISFW is not connected to FortiAnalyzer and must go through NGFW-1.
- C. ISFW is in a Security Fabric environment.
- D. The firewall policy in NGFW-1 has UTM enabled.

Answer: C,D

Explanation:
From the exhibit, ISFW is part of a Security Fabric environment with NGFW-1 as the Fabric Root.
In this architecture, FortiGate devices share security intelligence, including logs and detected threats.
ISFW is in a Security Fabric environment:
Security Fabric allows devices like ISFW to receive threat intelligence from NGFW-1, even if UTM is not enabled locally.
If NGFW-1 detects malware from IP 10.1.10.1 to 89.238.73.97, this information can be propagated to ISFW and FortiAnalyzer.
The firewall policy in NGFW-1 has UTM enabled:
Even though ISFW does not have UTM enabled, NGFW-1 (which sits between ISFW and the external network) does have UTM enabled and is scanning traffic. Since NGFW-1 detects malware in the session, it logs the event, which is then sent to FortiAnalyzer.

NEW QUESTION # 31
Which of the following steps are executed to get antivirus and IPS updates using the pull method?
(Choose three.)

- A. FortiGate registers its public IP address in FortiGuard.
- B. FortiGate starts sending rating queries to one of the servers in the list.
- C. FortiGate gets a list of server IP addresses that can be contacted.
- D. FortiGate contacts DNS to resolve update.fortiguard.net.
- E. FortiGate periodically queries for pending updates.

Answer: C,D,E

NEW QUESTION # 32

An administrator cannot connect to the GIU of a FortiGate unit with the IP address 10.0.1.254. The administrator runs the debug flow while attempting the connection using HTTP.

The output of the debug flow is shown in the exhibit.

```
# diagnose debug flow filter port 80
# diagnose debug flow trace start 5
# diagnose debug enable

id-20085 trace_id=5 msg="vd-root received a packet(proto-6,
10.0.1.10:57459->10.0.1.254:80) from port3. flag [S], seq 3190430861, ack
0, win 8192"
id-20085 trace_id=5 msg="allocate a new session-0000008c"
id-20085 trace_id=5 msg="iprope in check() check failed on policy 0, drop"
```

Based on the error displayed by the debug flow, which are valid reasons for this problem? (Choose two.)

- A. Redirection of HTTP to HTTPS administrative access is disabled.
- B. The packet is denied because of reverse path forwarding check.
- C. HTTP administrative access is disabled in the FortiGate interface with the IP address 10.0.1.254.
- D. HTTP administrative access is configured with a port number different than 80.

Answer: C,D

NEW QUESTION # 33

......

Learning is like rowing upstream; not to advance is to fall back. People are a progressive social group. If you don't progress and surpass yourself, you will lose many opportunities to realize your life value. Our FCSS_EFW_AD-7.4 study materials goal is to help users to challenge the impossible, to break the bottleneck of their own. A lot of people can't do a thing because they don't have the ability, the fact is, they don't understand the meaning of persistence, and soon give up. Our FCSS_EFW_AD-7.4 Study Materials will help you overcome your laziness and make you a persistent person. Change needs determination, so choose our product quickly!
