MB-700 exam includes questions related to designing and implementing solutions that meet business requirements, configuring and customizing Dynamics 365 Finance and Operations applications, and troubleshooting issues related to the applications. MB-700 Exam also covers topics related to integrating Dynamics 365 Finance and Operations applications with other applications and services.

## Microsoft Dynamics 365: Finance and Operations Apps Solution Architect Sample Questions (Q273-Q278):

### NEW QUESTION # 273

A company plans to build Power Apps apps as part of their digital transformation strategy.

App makers require access to individual environments to learn how to build apps through the Community Plan. Tenant users require access to an environment in which they can test apps as well as have database backup and restore capabilities.

You need to recommend appropriate environments for the company.

What should you recommend? To answer, drag the appropriate environments to the correct requirements.

Each environment may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

**Environments**

Default

Developer

Production

Sandbox

**Answer Area**

**Requirement**

Individual environments to learn how to build apps through the Community Plan.

An environment to test apps and have backup and restore capabilities.

**Environment**

Environment

Environment

Microsoft

**Answer:**

Explanation:

**Environments**

Default

Developer

Production

Sandbox

**Answer Area**

**Requirement**

Individual environments to learn how to build apps through the Community Plan.

An environment to test apps and have backup and restore capabilities.

**Environment**

Developer

Sandbox

Microsoft

Explanation:

Box 1: Developer

Developer

Developer environments are created by users who have the Developer Plan license. They're special environments intended only for use by the owner. Provisioning developer environments can be restricted to admins (see Block trial licenses commands). The developer environment will be available as long as you actively use the Power Apps Developer Plan.

Box 2: Sandbox

These are non-production environments, which offer features like copy and reset. Sandbox environments are used for development and testing, separate from production. Provisioning sandbox environments can be restricted to admins (because production environment creation can be blocked), but converting from a production to a sandbox environment can't be blocked.

#### NEW QUESTION # 274

A company is implementing Dynamics 365 Supply Chain Management.

The company has invested in new production equipment.

You need to plan for the production equipment to be regularly serviced.

What should you do? To answer, drag the appropriate functions to the correct requirements. Each function may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

**Answer:**

**Explanation:**

#### NEW QUESTION # 275

You are working as a functional consultant in a new Dynamics 365 for Finance and Operations environment.

Your organization conducts business within the United States, with offices in several states. The organization has legal entities defined for each state and must share common tables between entities.

Each legal entity has the following setup:

Users

Products

Customers

Tax authorities

Payment terms

Human Resources data

Site-specific stock ordering

You need to consolidate reports used for financial-consolidation reporting in a new legal entity.

What should you do?

- A. Specify the range of product for consolidation
- B. Define Human Resources data
- **C. Define the consolidation period**
- D. Create users

**Answer: C**

#### NEW QUESTION # 276

Your company has a Microsoft 365 subscription.

You need to prevent temporary employees from using the chat feature in Microsoft Teams.

Solution: You create an app permission policy and assign the policy to the users.  
Does this meet the goal?

- A. No
- B. Yes

**Answer: A**

Explanation:

An app permission policy in Microsoft Teams is used to control which apps are available to users. This policy allows you to block or allow certain apps, but it does not specifically control the chat feature within Teams. For controlling chat capabilities, a messaging policy would be more appropriate.

**NEW QUESTION # 277**

A company is implementing Dynamics 365 Supply Chain Management. The company is in the FastTrack program and has been assigned a FastTrack solution architect.

The company has a partner who provides a solution architect to consult with the company throughout the implementation lifecycle. You need to determine which solution architect role is responsible for specific aspects of the implementation.

Which role is responsible for each implementation task? To answer, drag the appropriate roles to the correct implementation tasks. Each role may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Roles

|                              |
|------------------------------|
| FastTrack solution architect |
| Partner solution architect   |

Answer Area

| Implementation task                               | Role |
|---|------|
| Assess whether best practices are being followed. |      |
| Design the solution.                              |      |
| Develop the solution.                             |      |

**Answer:**

Explanation:

Roles

|                              |
|------------------------------|
| FastTrack solution architect |
| Partner solution architect   |

Answer Area

| Implementation task                               | Role                         |
|---|------------------------------|
| Assess whether best practices are being followed. | FastTrack solution architect |
| Design the solution.                              | FastTrack solution architect |
| Develop the solution.                             | Partner solution architect   |

Explanation:

Roles

|                              |
|------------------------------|
| FastTrack solution architect |
| Partner solution architect   |

Answer Area

| Implementation task                               | Role                         |
|---|------------------------------|
| Assess whether best practices are being followed. | FastTrack solution architect |
| Design the solution.                              | FastTrack solution architect |
| Develop the solution.                             | Partner solution architect   |
