Salesforce Certified Administrator Sample Questions (Q131-Q136):

NEW QUESTION # 131

Ursa Major Solar offers amazing experiences for all of its employees. The Employee engagement committee wants to post updates while restricting other employees from posting.

What should the administrator create to meet this request?

- A. Chatter Stream
- B. Chatter Unlisted Group
- C. Chatter Recommendations.
- **D. Chatter Broadcast Group**

Answer: D

Explanation:

Explanation

Chatter broadcast group is a type of group that should be created to meet this request. Chatter broadcast group is a group where only group owners and managers can create posts, but anyone can comment on posts. This can be useful for sharing important updates or announcements with a large audience without cluttering the feed with other posts.

NEW QUESTION # 132

An administrator supporting a global team of salesforce users has been asked to configure company settings.

Choose 2 options

- A. Password Policy
- **B. Default Language**
- **C. Currency Locale**
- D. Login Hours

Answer: B,C

Explanation:

Explanation

Currency locale and default language are two of the company settings that an administrator can configure in Salesforce. Currency locale determines how currency amounts are formatted and displayed in reports and other places. Default language determines the language used for labels, buttons, tabs, and other elements in Salesforce. References:

NEW QUESTION # 133

The standard Lead Rating field has picklist values of Hot, Warm, and Cold. A list of new leads was importance without errors even though several records had the value of Unrated in the Rating field.

How were these records added without error?

- A. Field-level security was set to Visible for all profiles.
- B. The Add to All Record Types checkbox was selected.
- C. A global picklist value set was used to populate the picklist.
- **D. The Restricted picklist checkbox was unchecked.**

Answer: D

Explanation:

Explanation

A restricted picklist is a type of picklist that enforces the integrity of the picklist values by allowing only values defined in the picklist during data entry or import operations. If the restricted picklist checkbox is checked for a picklist field, then any records with values not defined in the picklist will cause errors during import operations. However, if the restricted picklist checkbox is unchecked for a picklist field, then any records with values not defined in the picklist will be imported without errors. References:

NEW QUESTION # 134

The administrator at Ursa Major Solar has created a custom report type and built a report for sales operation team. However, none of the user are able to access the report.

Which two options could cause this issue?

Choose 2 Answers

- A. The user's profile is missing view access.
- B. The org has reached its limit of custom report types.
- C. The custom report type is in development.
- D. The report is saved in a private folder

Answer: C,D

Explanation:

Explanation

There are two possible reasons why users are unable to access a report based on a custom report type created by an administrator. One is that the custom report type is in development mode, which means that it is not deployed and available for use by other users except for administrators and users with manage custom report types permission. The other is that the report is saved in a private folder, which means that it is visible only to its owner and not shared with other users or groups. References:
