NEW QUESTION # 78
Your company frequently hires from five to ten interns for short contract engagements and makes use of the same generically named Google Workspace accounts (e.g., user1@your-company.com, user2@your-company.com, user3@your-company.com). The manager of this program wants all email to these accounts routed to the manager's mailbox account also.
What should you do?

- A. Setup address forwarding in each account's GMail setting menu.
- B. Configure an Inbound Gateway route.
- C. Give the manager delegated access to the mailboxes.
- D. Set up recipient address mapping in GMail Advanced Settings.

Answer: D

Explanation:
* Access Admin Console:
* Sign in to the Google Admin console.
* Navigate to Gmail Settings:
* Go to "Apps" > "Google Workspace" > "Gmail."
* Set Up Recipient Address Mapping:
* In Gmail settings, click on "Routing."
* Under "Recipient address mapping," click on "Configure."
* Configure Address Mapping:
* Add the generic accounts (e.g., user1@your-company.com, user2@your-company.com).
* Map these addresses to the manager's mailbox account.
* Save and Apply:
* Save the configuration.

* Ensure the routing rules are applied correctly to forward emails to the manager's account.
* Test Configuration:
* Send test emails to the generic accounts to verify that they are forwarded correctly to the
* manager's mailbox.

NEW QUESTION # 79

A user named Alice is leaving your organization You need to transfer all of Alice's data from her Drive to Bob's Drive in the most simple and efficient manner possible What should you do?

- A. Use the Google Admin console to move the files from Alice's Drive to Bob's Drive
- B. Use the Google Drive API to programmatically transfer the files from Alice's Drive to Bob's Drive
- C. Instruct Alice to download all of her files from her Drive and upload them to Bob's Drive
- D. Use the Google Takeout service to export Alice's data to a zip file and instruct Bob to import the zip file into his Drive

Answer: A

Explanation:
To transfer all of Alice's data from her Drive to Bob's Drive in the most simple and efficient manner, follow these steps:
* Sign in to the Google Admin console: Use an account with super administrator privileges.
* Navigate to the Data Transfer tool:
* Go to Apps > Google Workspace > Drive and Docs.
* Click on "Transfer ownership."
* Initiate the transfer:
* Enter Alice's email address as the current owner.
* Enter Bob's email address as the new owner.
* Select the option to transfer all files and folders from Alice's Drive to Bob's Drive.
* Click on "Transfer files" to initiate the process.
* Verify the transfer:
* Once the transfer is complete, confirm that all files and folders are now owned by Bob and accessible in his Drive.

- A. Download the company-owned inventory template CSV file from the Admin panel enter the serial number of the devices and upload the
- B. completed file to the company-owned inventory in the admin panel D O Download the company-owned inventory template CSV file from the Admin panel, enter the device OSs. and asset tags, and upload the
- C. completed file to the company-owned inventory in the admin panel. C O Download the company-owned inventory template CSV file from the Admin panel enter the asset tags of the devices, and upload the
- D. completed file to the company-owned inventory in the admin panel B O Download the company-owned inventory template CSV file from the Admin panel enter the device OSs. and serial numbers and upload the

Answer: A

Explanation:
Access Admin Console: Log in to the Google Admin console using your administrator account.
Navigate to Devices: Go to Devices > Mobile and endpoints.
Download Inventory Template: Click on Manage company-owned inventory > Download template CSV.
Enter Device Details: Fill in the template with the serial numbers and other relevant information of the devices.
Upload Completed File: Once the CSV file is completed with all device details, upload it back to the Admin console under Manage company-owned inventory.
Verify and Save: Ensure that the uploaded data is correct and save the inventory. This keeps a record of all company-owned

devices.

NEW QUESTION # 81

Your company provides shared Chromebook workstations for employees to access sensitive company dat a. You must configure the devices to ensure no sensitive data is stored locally and that browsing data is cleared after each use. What should you do?

- A. Force ephemeral mode in Chrome. Disable offline access for sensitive Workspace apps like Docs, Sheets, and Drive.
- B. Force ephemeral mode in Chrome. Allow offline access for all Workspace apps with strict expiration times.
- C. Disable offline access for all Workspace apps. Enable incognito mode for Chrome browsing sessions.
- D. Enable the Manage Guest Session functionality, and set the maximum user session length.

Answer: A

Explanation:
Enabling ephemeral mode in Chrome ensures that all browsing data is cleared after each session, and nothing is stored locally on the Chromebook. Disabling offline access for sensitive Workspace apps, such as Docs, Sheets, and Drive, ensures that users cannot download or store sensitive data locally. This combination provides a secure environment, preventing the retention of any sensitive data on the device after use.
