Salesforce Accredited B2B Commerce Administrator Sample Questions (Q38-Q43):

NEW QUESTION # 38

What profile or permission set is needed for Buyers that need Account switching on the Storefront?

- **A. Account Switcher User**
- B. CommerceUser
- C. B2B Commerce Super User
- D. B2B commerce User

Answer: A

Explanation:

Explanation

According to the Account Switcher page, account switcher is a feature that allows buyers to switch between different accounts that they have access to on your B2B Commerce site. Account switcher can be used to support buyers who work for multiple companies or organizations that buy from you. The profile or permission set that is needed for buyers that need account switching on the storefront is Account Switcher User. Account Switcher User is a permission set that grants users the ability to switch between accounts on your site. To enable account switching for buyers, you need to assign them the Account Switcher User permission set and add them as contacts to the accounts that they can switch to. Therefore, option A is correct.

Options B, C, and D are false because they are not profiles or permission sets that are needed for buyers that need account switching on the storefront. B2B Commerce Super User is a profile that grants users full access to all B2B Commerce features and functionality. B2B Commerce User is a profile that grants users basic access to B2B Commerce features and functionality.

Commerce User is a user license type that allows users to access B2B Commerce sites as buyers or administrators. References: Account Switcher, Account Switcher Overview

- E. Platform Events

Answer: A,D

NEW QUESTION # 40

An Admin learns of two new requirements around International taxation and credit card payments. What two options are available for Investigating additional functionality for Salesforce B2B commerce in These areas ?

- **A. Drop ins**
- B. Salesforce Lab add-ons
- **C. AppExchange connectors**
- D. Open source APIs

Answer: A,C

Explanation:

Drop ins and AppExchange connectors are two options for investigating additional functionality for Salesforce B2B commerce in the areas of international taxation and credit card payments. Drop ins are prebuilt components that you can use to extend the functionality of your B2B commerce site without coding. AppExchange connectors are third-party applications that integrate with Salesforce and provide additional features and services. For example, you can use Avalara AvaTax Drop-in or Vertex Tax Connector for international taxation, and Stripe Payment Gateway or CyberSource Payment Gateway for credit card payments. NEW QUESTION # 41

How can a developer establish communication between components that are not in the same (Document Object Model) tree?

- A. Configure targets property.
- B. Use dispatch events.
- **C. Use publish-subscribe pattern.**

- D. Use @api decorators.

Answer: C

Explanation:

To establish communication between components that are not in the same DOM tree, the developer should use the publish-subscribe pattern. This pattern allows components to communicate across the DOM tree without depending on their position in the hierarchy. The developer can use the Lightning Message Service (LMS) to implement this pattern, which provides a standard and secure way to exchange messages across different components and namespaces.
