Explanation:

5. {step2amount=102}

Explanation:

Lets understand this solution step by step.

{amount=102}

2) Batch Step (Greater than 20)

Accept condition for this batch step is greater than 20. Note that input amount values for this batch step are 100 , 140 and 102 (last two values have been updated in batch step less than 50) As all values satisfy this condition out put of second logger is

Hence correct answer to this question is
