NEW QUESTION # 40
Showitoff is an organization specialization in the design and production of wall decorating materials for the domestic market.
During an ISO 45001 certification audit of the site, the auditor comes across an open, walled area just outside the maintenance department. It contains various scraps of wood and metal as well as serveral rusty components. Several heavy concrete beams are learning against a thin brick wall in which cracks are available. When asked about it, the OHS Manager states that he presumes that the materials come from maintenance work, so it is the Maintenance Manager's responsibility.
The auditor interview the Maintenance Manager in his department. He asks about the area outside and is told that it contains some excess material that the Manager likes to keep in case they come in handy at some stage.
The auditor points out that the wall appears to be unstable and could collapse at any moment. The Maintenance Manager is not aware of such a situation.
Wash-it-up is an organization that provides window cleaning services for the industrial sector. It has been certified to ISO 45001 for some time and has appointed a new OHS Manager. The auditor asks to see the most recent management review meeting minutes.
