You just need 20-30 hours for preparation and feel confident to face the PL-900 actual test.

Microsoft Power Platform Fundamentals Sample Questions (Q330-Q335):

NEW QUESTION # 330

A medical office has a model-driven app that uses Common Data Service.

You plan to create a screen that allows users to capture information about doctors. The screen must provide users the ability to enter or select the following information;

- * a place to enter doctor- profile data that is not part of the account table or the contact table.
- * a place to enter the doctor's specialty in the profile form.
- * a column for insurance with the ability to pick one of 10 different insurance companies.

You need to store the captured data in Common Data Service.

What should you use to store the data? To answer, drag the appropriate components to the correct requirements. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

□ Explanation:

□

NEW QUESTION # 331

A company creates a new instance of Microsoft Dataverse to store customer information.

Customer service agents require a simple, three-screen canvas app to interact with the Dataverse data.

You need to create the app.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

□

NEW QUESTION # 332

A software company plans to use Power Automate.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

□

Answer:

Explanation:

□

NEW QUESTION # 333

A company uses Power Platform.

You must ensure that users cannot share customer data with other users. You must also ensure that users cannot connect to data sources unless you grant the user explicit permissions to access a data source.

You need to recommend solutions to meet the company's security requirements.

Which two types of policies should you recommend? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. preset security policies
- B. Group Policy Objects
- C. environment-level policies
- D. Office cloud policies
- E. tenant-level policies

Answer: C,E
