SAP C-ACDET-2506 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Field Configuration: This domain evaluates the knowledge of an SAP Deployment Specialist and focuses on customizing and configuring business fields in the SAP system according to client-specific needs. This includes adjusting system settings for master data, transaction data, and other essential field-level controls to support business processes effectively. The section tests the candidate's ability to use configuration tools, apply SAP standard templates, and ensure that the field configurations align with the desired operational workflows of the business. It also touches upon validation, testing, and documenting the configuration changes made during the implementation.
Topic 2	<ul style="list-style-type: none">Project Overview, Roles and Responsibilities: This section of the exam measures the skills of an SAP Cloud Consultant and covers the fundamental understanding of SAP Activate methodology within the context of a cloud implementation project. Candidates are expected to be familiar with the project lifecycle, including phases such as Prepare, Explore, Realize, Deploy, and Run. This part also focuses on identifying key roles and responsibilities within a cloud project team, ensuring clarity in collaboration between consultants, clients, and SAP. It checks whether the consultant understands governance, stakeholder management, and the high-level structure of cloud deployment using SAP best practices.

Topic 3	<ul style="list-style-type: none"> • Deploy and Migration: This part of the exam assesses the expertise of an SAP Deployment Specialist and focuses on the final deployment of the configured solution and the data migration process. Candidates should demonstrate a solid grasp of how to move configurations from a testing environment into production while minimizing disruption. It also includes knowledge of tools and strategies used for data extraction.

Exam Vce C-ACDET-2506 Free, C-ACDET-2506 Reliable Exam Sample

Our C-ACDET-2506 exam questions are perfect, unique and the simplest for all exam candidates for varying academic backgrounds. This is the reason that our C-ACDET-2506 study guide assures you of a guaranteed success in the exam. The second you download our C-ACDET-2506 learning braindumps, then you will find that they are easy to be understood and enjoyable to practice with them. And there are three versions of the C-ACDET-2506 preparation engine for you to choose: the PDF, Software and APP online.

SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q37-Q42):

NEW QUESTION # 37

During which SAP Activate Methodology phase do you migrate the configuration to Production?

- **A. Deploy**
- B. Push
- C. Migrate
- D. Move

Answer: A

Explanation:

The Deploy phase is when final cutover activities take place, including migrating configurations and master data to production, running final system tests, and performing the go-live. The other options are not standard SAP Activate phases for Ariba.

NEW QUESTION # 38

You can choose multiple field configurations and migrate them to the production site by creating a package in your test site. Which of the following steps should be included? (Select 3 correct answers)

- **A. Make sure you update the string resource files in the production site before migrating the corresponding configurations from test to production site.**
- **B. The Flex Master Data (FMD) templates must be defined and their data should be loaded in the production site before migrating FMD custom fields.**
- **C. If you are migrating fields that are associated with enumerations, you should load those enumerations in the production site before migrating the fields.**
- D. Publish the form template within the test site in order to add the form fields in the package.
- E. Discard any other packages that appear in My Action Items.

Answer: A,B,C

Explanation:

When migrating field configurations in SAP Ariba, it's essential to prepare all dependent components to avoid migration errors.

* Enumerations (B): These must be imported into Production before migrating fields that reference them, since the fields depend on the enumerated values to validate configurations.

* String Resource Files (C): These contain translations and label customizations. They should be uploaded and updated in Production first to ensure that migrated fields have the proper localized text.

* Flex Master Data (E): Since fields referencing FMD templates rely on these data structures, the templates and their associated data must exist in Production before migrating the fields that depend on them. Discarding unrelated packages (A) or publishing form templates (D) is unrelated or unnecessary for field migration workflows; fields and forms are handled separately. SAP best practices

emphasize preparing all referenced master data and resource files to ensure smooth and error-free field migration.

NEW QUESTION # 39

Which of the following is NOT mentioned as a configuration type migrated by the Intelligent Configuration Manager?

- A. AMLExtension - AML customizations such as custom fields
- B. Template - project templates such as Contract templates
- C. DynamicForm - custom form templates (dForms)
- D. SupplierContact - contacts for the suppliers

Answer: D

NEW QUESTION # 40

Which Activate phase is tied to performing configurations in your SAP Ariba Strategic Sourcing suite solution?

- A. Setup
- B. Configure
- C. Realize
- D. Deploy

Answer: C

Explanation:

The Realize phase is where the core configuration activities happen. During Realize, the project team sets up system parameters, creates templates, defines master data fields, and configures business processes in the SAP Ariba Strategic Sourcing suite. This phase includes building, unit testing, and preparing the system for user acceptance testing. Deploy is focused on cutover and go-live, while Configure and Setup are not formal SAP Activate phases for Ariba.

NEW QUESTION # 41

Which syntax is used for writing custom Validity Conditions?

- A. Python
- B. Scheme
- C. XML
- D. Regular expression

Answer: B

NEW QUESTION # 42

.....

In order to facilitate the user's offline reading, the C-ACDET-2506 study braindumps can better use the time of debris to learn, especially to develop PDF mode for users. In this mode, users can know the C-ACDET-2506 prep guide inside the learning materials to download and print, easy to take notes on the paper, and weak link of their memory, and every user can be downloaded unlimited number of learning, greatly improve the efficiency of the users with our C-ACDET-2506 Exam Questions. Our C-ACDET-2506 prep guide can be very good to meet user demand in this respect, allow the user to read and write in a good environment continuously consolidate what they learned.
