### **Salesforce Certified Platform Sharing and Visibility Architect Sample Questions (Q21-Q26):**

#### **NEW QUESTION # 21**

Universal Containers (UC) has a team that analyzes customer orders looking for fraud. This team needs access to Invoice records

(custom object, Private organization-wide default). UC has complex rules to control users' access. The architect recommended using Apex managed sharing to meet these requirements.

Which recommendation should a developer consider when implementing the changes?

- A. Use "With Sharing" keyword to enforce Field-Level Security.
- **B. Use runAs system method to test different users accessing these records.**
- C. Use "Without Sharing" keyword to make sure record visibility will be considered.

**Answer: B**

#### NEW QUESTION # 22

Universal Containers uses the standard Case object to track various support requests sent to servicing agents. Currently, the Case object has more than 400 fields. Eight different types of case processes have been established, each with a unique combination of statuses. The Director of Customer Service wants to ensure that servicing agents see only the required information specific to the case type they are addressing.

Which option is recommended to implement this requirement?

- **A. Use Dynamic Forms with different field sections representing the relevant fields per case type, and control visibility of sections by Case Record Type value.**
- B. Use different Page Layouts per case type, each representing the relevant fields per case type.
- C. Use a custom LWC to override the View action of the Case object, and a Custom Metadata Type to define the relevant fields per case type.

**Answer: A**

#### NEW QUESTION # 23

A sales rep at Universal Containers was added to an opportunity team with Read/Write permissions.

Which action is she allowed to perform in the opportunity?

- **A. Update opportunity stage.**
- B. Replace opportunity owner.
- C. Add/remove members in the opportunity team.

**Answer: A**

#### NEW QUESTION # 24

Universal Containers has selected a small and diverse group of users to review inactive accounts. Given the Private sharing model, a public group was created and made available to this group of users. A sharing rule was created to make inactive accounts visible to the public group. However, some of these users are reporting they do not see any of the accounts that were shared with the public group.

What is the underlying issue for these users?

- A. The page layout assigned to these users is different than the Account owner.
- **B. The users are in profiles that have no access to the Account object.**
- C. The accounts are owned by users higher in the Role Hierarchy.

**Answer: B**

#### NEW QUESTION # 25

Sales operations at Universal Containers (UC) wants to create list views to filter opportunities for certain geographies.

How should UC hide list views that are not relevant to an individual user since there will be more than 50 list views?

- A. Share the list views with the appropriate queue.
- **B. Share the list views with the appropriate public group.**
- C. Share the list views with the appropriate individual users.
