

# Training Cisco 300-445 Pdf | Valid 300-445 Exam Bootcamp

You may previously think preparing for the 300-445 practice exam will be full of agony; actually, you can abandon the time-consuming thought from now on. Our 300-445 exam question can be obtained within 5 minutes after your purchase and full of high quality points for your references, and also remedy your previous faults and wrong thinking of knowledge needed in this exam. As a result, many customers get manifest improvement and lighten their load by using our 300-445 Latest Dumps. You won't regret your decision of choosing us. In contrast, they will inspire your potential. Besides, when conceive and design our 300-445 exam questions at the first beginning, we target the aim customers like you, a group of exam candidates preparing for the exam.

As sometimes new domains and topics are added to the ActualTestsIT Designing and Implementing Enterprise Network Assurance exam syllabus, you'll be able to get free updates of Cisco 300-445 dumps for 365 days that cover all the latest exam topics. We provide customers instant access to all Cisco Exams Dumps right after making the payment. Our customer support team is available 24/7 to assist you with all your issues regarding Cisco 300-445 Exam Preparation material.

## Try a Free Demo and Then Buy Cisco 300-445 Exam Dumps

ActualTestsIT provide you the product with high quality and reliability. You can free download online part of ActualTestsIT's providing practice questions and answers about the Cisco Certification 300-445 Exam as a try. After your trail I believe you will be very satisfied with our product. Such a good product which can help you pass the exam successfully, what are you waiting for? Please add it to your shopping cart.

## Cisco 300-445 Exam Syllabus Topics:

| Topic   | Details  |
|---------|--|
| Topic 1 | <ul style="list-style-type: none"><li>• <b>Data Analysis:</b> This domain encompasses diagnosing network issues like packet loss, congestion, routing, and jitter, plus end-device problems. It includes analyzing web application performance and identifying security threats such as DDoS attacks, DNS hijacking, and BGP hijacking.</li></ul>  |
| Topic 2 | <ul style="list-style-type: none"><li>• <b>Platforms and Architecture:</b> This domain covers understanding monitoring agent types and placement, active versus passive monitoring, and ThousandEyes WAN Insights. It addresses Cisco platform integrations, metric baselines, and selecting appropriate integration methods and assurance platforms based on business requirements.</li></ul> |

|         |  |
|---------|--|
| Topic 3 | <ul style="list-style-type: none"> <li>Insights and Alerts: This domain addresses configuring alert rules based on network conditions and end-user experience factors. It covers selecting metrics for stakeholders, validating alerts, and recommending network optimization for capacity planning.</li> </ul>  |
| Topic 4 | <ul style="list-style-type: none"> <li>Data Collection Implementation: This domain focuses on deploying enterprise and endpoint agents across infrastructure and end-user devices. It covers configuring network, DNS, voice, web, and endpoint tests using ThousandEyes and Meraki Insights, along with implementing synthetic web tests and authentication methods.</li> </ul> |

## Cisco Designing and Implementing Enterprise Network Assurance Sample Questions (Q121-Q126):

### NEW QUESTION # 121

Drag and Drop Question

An engineer is deploying a multitest template for end users. Requirements include establishing a single TCP session from the Cisco ThousandEyes Endpoint Agent to the target, testing secure authentication, and TCP path trace. Drag and drop the options from the bottom onto the boxes in the test configuration template.

### Answer Area

Global Settings

#### NETWORK

Perform network measurements

Protocol  

Probing Mode  

Path Trace in Session

IP Version

IPv4 Only
Prefer IPv6
Force IPv6

#### HTTP AUTHENTICATION

Scheme  

Username acme/user

SaaS - Scheduled - Network

Prefer SACK

SaaS - Scheduled - HTTP Server

Prefer TCP (ICMP) Fallback

NTLM

Answer:

Explanation:

## Answer Area

The screenshot shows the 'Global Settings' interface for a test configuration. On the left, there are two test entries: 'SaaS - Scheduled - Network' and 'SaaS - Scheduled - HTTP Server', with an '+ Add Test' button below them. The main configuration area is divided into sections: 'NETWORK' and 'HTTP AUTHENTICATION'. In the 'NETWORK' section, 'Perform network measurements' is checked, 'Protocol' is set to 'Prefer SACK', 'Probing Mode' is 'Prefer TCP (ICMP) Fallback', and 'Path Trace in Session' is checked. Under 'IP Version', 'IPv4 Only' is selected. In the 'HTTP AUTHENTICATION' section, the 'Scheme' is 'NTLM' and the 'Username' is 'acme/user'. A large 'actualtestsit.com' watermark is overlaid on the image.

### Explanation:

A SaaS Scheduled HTTP Server test provides the single TCP session from the ThousandEyes Endpoint Agent to the target application; pairing it with a SaaS Scheduled Network test adds corresponding network measurements.

Setting the Protocol to "Prefer SACK" (SSL) ensures the session is established using HTTPS.

"Prefer TCP (ICMP) Fallback" uses TCP as the probing method, which enables TCP-based path trace to the target.

Using NTLM as the HTTP authentication scheme verifies secure user authentication against the target application.

### NEW QUESTION # 122

How can collected data in network assurance be used to diagnose VPN gateway issues?

- A. By identifying latency spikes
- B. By monitoring real-time traffic
- C. By detecting connection failures
- D. By analyzing server logs

**Answer: C**

### Explanation:

Collected data can be used to diagnose VPN gateway issues by detecting connection failures and analyzing VPN tunnel performance in network assurance.

### NEW QUESTION # 123

Refer to the exhibit. An engineer configured a dynamic test to monitor Webex from 25 endpoint agents. After a week, the engineer noticed that the test was only running on 5 endpoint agents.

Which change must the engineer make in the test configuration to run the test on 25 endpoint agents?

Webex

Which agents should we send data from?  
All agents

Prioritize this test for the selected agents

Alerts  
0 of 8 alert rules selected Edit Alert Rules

How often should we run tests?  
1 minute

Maximum number of agents per test  
25

5 AGENTS ASSIGNED, 5 AGENTS RUNNING THE TEST

| Agent    | Tests Running |
|----------|---------------|
| boradulo | 7             |
| ivisocni | 5             |
| ...      | 5             |

- A. Increase "Maximum number of agents per test" to 50.
- B. Change "How often should we run tests" to 5-minute intervals.
- C. Enable "Prioritize this test for the selected agents".
- D. Change "Which agents should we send data from" to a label that matches 25 agents or more.

**Answer: D**

Explanation:

Dynamic tests do not run on all assigned agents. Instead, they select agents dynamically based on the agent label chosen in "Which agents should we send data from?".

Because the engineer selected a label that matches only 5 agents, the test runs on only 5 agents - even though 25 were assigned.

Selecting a label that includes 25 or more agents ensures the test runs on all intended machines.

### NEW QUESTION # 124

Which Thousand Eyes test is specifically designed to assess the performance of DNS servers?

- A. Web test
- B. Voice test
- C. Network test
- D. DNS test

**Answer: D**

Explanation:

The DNS test in Thousand Eyes is specifically designed to assess the performance of DNS servers, identifying issues such as latency and resolution times.

### NEW QUESTION # 125

Which security issue affecting network performance can be identified using collected data in network assurance?

- A. SQL injection attacks
- B. DNS resolution failure
- C. TCP handshake failures
- **D. DDoS attacks**

**Answer: D**

Explanation:

DDoS attacks are a security issue affecting network performance that can be identified using collected data in network assurance, enabling proactive threat mitigation.

### NEW QUESTION # 126

.....

Of course, a personal learning effect is not particularly outstanding, because a person is difficult to grasp the difficult point of the test, the latest trend in an examination to have no good updates at the same time, in order to solve this problem, our 300-445 study braindumps for the overwhelming majority of users provide a powerful platform for the users to share. Here, the all users of the 300-445 Exam Questions can through own ID number to log on to the platform and other users to share and exchange, can even on the platform and struggle with more people to become good friend, pep talk to each other, each other to solve their difficulties in study or life. The 300-445 prep guide provides user with not only a learning environment, but also create a learning atmosphere like home.
