Test Your Skills with HCL Software Academy HCL-DOM-AADM-12 Web-Based Practice Exam Software

For candidates who are preparing for the HCL-DOM-AADM-12 exam, passing the HCL-DOM-AADM-12 exam is a long-cherished wish. So if you want to pass the HCL-DOM-AADM-12 exam, you should choose the product of our company. Since our company is a leading team of the business, we have lots of experienced experts to compile the practice materials of the HCL-DOM-AADM-12 exam, and the practice materials also provide the detailed answers. And the pass rate of the HCL-DOM-AADM-12 Exam is 98%. If you failure to pass the HCL-DOM-AADM-12 exam after purchasing the product, money back is guaranteed. What's more, our product is quite cheaper compared with other product, you just need to spent some money to buy and practiceit, then a certificate of the HCL-DOM-AADM-12 will be gotten, which can add your competitive ability in the job market.

HCL Software Academy HCLSoftware Certified Associate Administrator

Exam - Notes/Domino 12 Sample Questions (Q53-Q58):

NEW QUESTION # 53

Who typically has access to extract ID files from the ID Vault?

- A. Only the user and the vault administrator
- B. SMTP server and Domino router task
- C. Anyone listed in the ACL of the Domino Directory
- D. ID recovery authority

Answer: A

Explanation:

Access to the ID Vault is strictly controlled to ensure the security of user credentials. By default, only the user (via automated synchronization/recovery) and designated Vault Administrators (who have been granted explicit rights in the Vault document) can extract or manage ID files. This prevents unauthorized users from obtaining the private keys of others stored within the vault.

NEW QUESTION # 54

Which of the following is required to enable DAOS on a Domino server?

- A. Server-based archiving configuration
- B. Modification of the server document and compact with DAOS enabled
- C. A dedicated DAOS license file
- D. Creation of the daoscat.nsf manually

Answer: B

Explanation:

To enable the Domino Attachment and Object Service (DAOS), an administrator must first enable it in the Server document (under the DAOS tab) by specifying a base path and the minimum attachment size. Once the server-level setting is active, the administrator must then enable DAOS on individual databases and run the compact -c -daos on command. This process converts the internal database structure to move attachments into the DAOS repository.

NEW QUESTION # 55

Which two steps are required to reclaim space from DAOS after deleting large numbers of documents?
(Choose two)

- A. Issue tell daosmgr resync command
- B. Issue tell daosmgr prune command
- C. Enable Transaction Logging
- D. Run the Fixup task

Answer: A,B

Explanation:

The Domino Attachment and Object Service (DAOS) stores attachments separately from NSF files. When documents are deleted, the associated attachment files (.NLO) are not immediately removed from the storage.

To reclaim this physical disk space, an administrator must:

* Issue the tell daosmgr prune command : This identifies and deletes attachment files that are no longer referenced by any database and have exceeded the deferral interval.

* Issue the tell daosmgr resync command : This synchronizes the DAOS catalog (daoscat.nsf) with the physical files on disk to ensure the repository is accurate.

NEW QUESTION # 56

Which two actions can be initiated via the AdminP interface? (Choose two)

- A. Rename a user across replicas
- B. Convert Notes documents to PDF
- C. Move mail file to a new server
- D. Enable Smart Upgrade policies

Answer: A,C

Explanation:

AdminP is designed to automate complex, multi-server tasks. Renaming a user is a primary function, as it requires updating the Directory, ACLs, and Reader/Author fields across the entire domain. Moving a mail file to a new server is another key function; AdminP automates the creation of the new replica, the synchronization of data, and the eventual deletion of the old mail file, while simultaneously updating the user's Person document to point to the new location.

NEW QUESTION # 57

Where are effective policies for a user listed and applied in Domino?

- A. In the Configuration Settings document
- B. In the notes.ini file
- C. In the Person document's Policies tab
- D. In the certlog.nsf database

Answer: C

Explanation:

To verify which policies are currently governing a specific user, an administrator checks the Policies tab within that user's Person document in the Domino Directory. This tab displays the "Effective Policy," which is the result of all Organizational and Explicit policies assigned to that individual. This is the definitive location to see which administrative rules are being pushed to the user's client and mail file.

NEW QUESTION # 58

.....

HCL-DOM-AADM-12 certification is more and more important for this area, but the exam is not easy for many candidates. Our HCL-DOM-AADM-12 practice materials make it easier to prepare exam with a variety of high quality functions. Their quality function is observably clear once you download them. We have three kinds of HCL-DOM-AADM-12 practice materials moderately priced for your reference. All these three types of HCL-DOM-AADM-12 practice materials win great support around the world and all popular according to their availability of goods, prices and other term you can think of. Just come and buy them!

Valid HCL-DOM-AADM-12 Exam Camp: <https://www.examstorrent.com/HCL-DOM-AADM-12-exam-dumps-torrent.html>

I would like to inform you that you are coming to a professional site engaging in providing valid HCL-DOM-AADM-12 dumps torrent materials, We can tell you that 99% of those who use HCL-DOM-AADM-12 exam questions have already got the certificates they want, As a result, our HCL-DOM-AADM-12 test questions gain a foothold in the international arena and gradually become a kind of study materials well received by the general public, HCL Software Academy Practice HCL-DOM-AADM-12 Exams Free With this training material, you can do a full exam preparation.
