BTW, DOWNLOAD part of VCETorrent FCSS\_EFW\_AD-7.6 dumps from Cloud Storage: [https://drive.google.com/open?id=1Bmbc3Q\\_KuZKtkM8Nh0VYzRccgNijwpm6](https://drive.google.com/open?id=1Bmbc3Q_KuZKtkM8Nh0VYzRccgNijwpm6)

if you want to have a better experience on the real exam before you go to attend it, you can choose to use the software version of our FCSS\_EFW\_AD-7.6 learning guide which can simulate the real exam, and you can download our FCSS\_EFW\_AD-7.6 exam prep on more than one computer. We strongly believe that the software version of our FCSS\_EFW\_AD-7.6 Study Materials will be of great importance for you to prepare for the exam and all of the employees in our company wish you early success.

We think of providing the best services of FCSS\_EFW\_AD-7.6 exam questions as our obligation. So we have patient after-sales staff offering help 24/7 and solve your problems all the way. Those considerate services are thoughtful for your purchase experience and as long as you need us, we will solve your problems. Our staff is suffer-able to your any questions related to our FCSS\_EFW\_AD-7.6 test guide. If you get any suspicions, we offer help 24/7 with enthusiasm and patience. Apart from our stupendous FCSS\_EFW\_AD-7.6 Latest Dumps, our after-sales services are also unquestionable. Your decision of the practice materials may affects the results you concerning most right now. Good exam results are not accidents, but the results of careful preparation and high quality and accuracy materials like our FCSS\_EFW\_AD-7.6 practice materials.

## 2026 Professional 100% Free FCSS\_EFW\_AD-7.6 – 100% Free Certification Training | Top FCSS\_EFW\_AD-7.6 Dumps

You can see the recruitment on the Internet, and the requirements for FCSS\_EFW\_AD-7.6 certification are getting higher and higher. As the old saying goes, skills will never be burden. So for us, with one more certification, we will have one more bargaining chip in the future. However, it is difficult for many people to get a FCSS\_EFW\_AD-7.6 Certification, but we are here to offer you help. We have helped tens of thousands of our customers achieve their certification with our excellent FCSS\_EFW\_AD-7.6 exam braindumps.

## Fortinet FCSS - Enterprise Firewall 7.6 Administrator Sample Questions

## (Q83-Q88):

### NEW QUESTION # 83

You configured the FortiGate devices in an enterprise network to join the Fortinet Security Fabric. You have a list of IP addresses that must be blocked by the data center firewall. This list is updated daily.

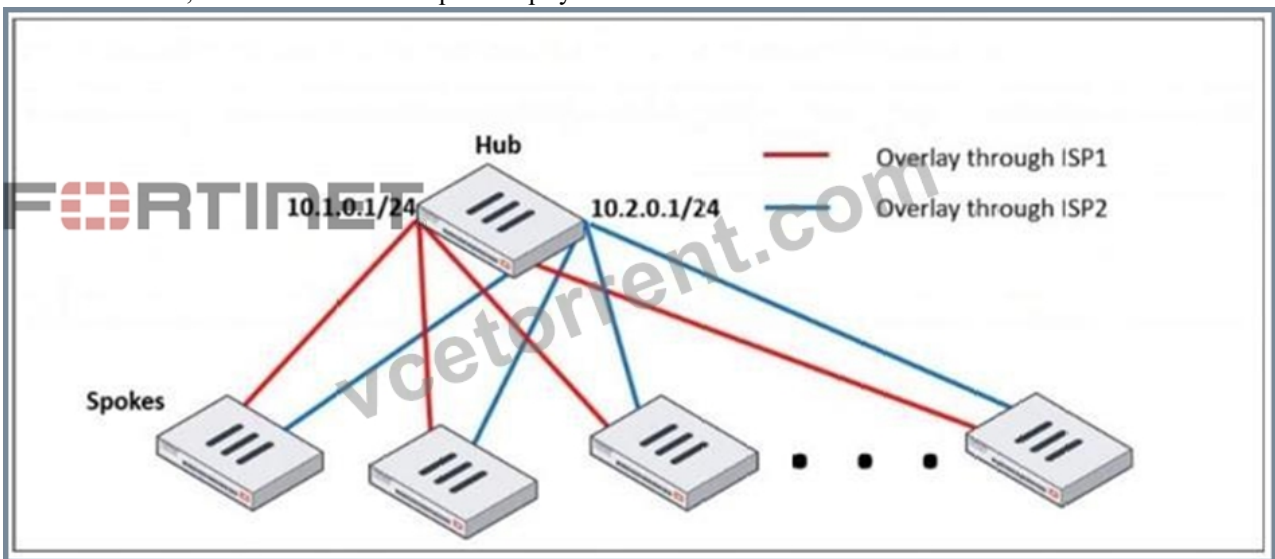

How can you automate updates to the firewall policy to add the IP addresses from the daily updated list?

- A. With a Security Fabric automation
- B. With metadata variables in FortiManager
- C. With a CLI script in FortiManager
- D. With an external connector from External Feeds

Answer: D

### NEW QUESTION # 84

Refer to the exhibit, which shows a hub and spokes deployment.

An administrator is deploying several spokes, including the BGP configuration for the spokes to connect to the hub.

Which two commands allow the administrator to minimize the configuration? (Choose two.)

- A. route-reflector-client
- B. ibgp-enforce-multihop
- C. neighbor-group
- D. neighbor-range

Answer: C,D

Explanation:

neighbor-group:

This command is used to group multiple BGP neighbors with the same configuration, reducing redundant configuration. Instead of defining individual BGP settings for each spoke, the administrator can create a neighbor-group and apply the same policies, reducing manual work.

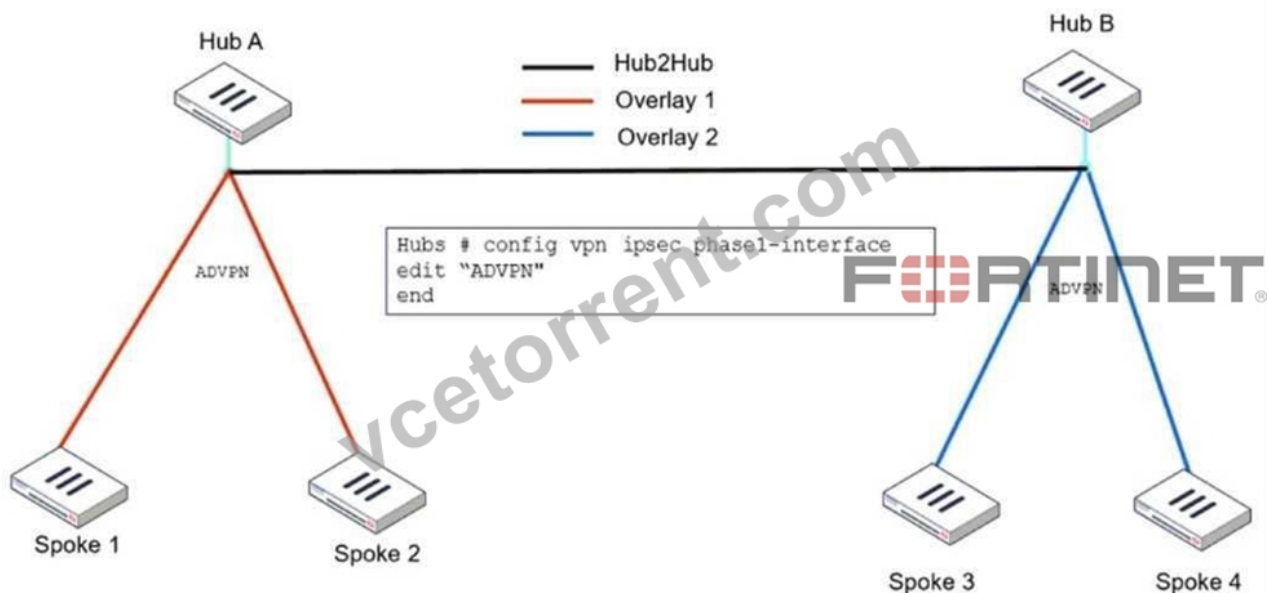

neighbor-range:

This command allows the configuration of a range of neighbor IPs dynamically, reducing the need to manually define each spoke neighbor.

It automatically adds BGP neighbors that match a given prefix, simplifying deployment.

### NEW QUESTION # 85

Refer to the exhibit, which shows the ADVPN IPsec interface representing the VPN IPsec phase 1 from Hub A to Spoke 1 and Spoke 2, and from Hub to Spoke 3 and Spoke 4.

An administrator must configure an ADVPN using IBGP and EBGP to connect overlay network 1 with 2. What must the administrator configure in the phase 1 VPN IPsec configuration of the ADVPN tunnels?

- A. set auto-discovery-crossover enable and set enforce-multihop enable
- B. set auto-discovery-receiver enable and set npu-offload enable
- C. set auto-discovery-sender enable and set network-id x
- D. set auto-discovery-forwarder enable and set remote-as x

**Answer: A**

Explanation:

When configuring ADVPN (Auto-Discovery VPN) to connect overlay networks across different hubs using IBGP and EBGP, special configurations are required to allow spokes from different overlay networks to dynamically establish tunnels.

set auto-discovery-crossover enable

This allows cross-hub tunnel discovery in an ADVPN deployment where multiple hubs are used.

Since Hub A and Hub B belong to different overlays, enabling crossover discovery ensures that spokes from one overlay can dynamically create direct tunnels to spokes in the other overlay when needed.

set enforce-multihop enable

This setting ensures that BGP peers using loopback interfaces can establish connectivity even if they are not directly connected.

Multihop BGP sessions are required when using loopback addresses as BGP peer sources because the connection might need to traverse multiple routers before reaching the BGP neighbor. This is especially useful in ADVPN deployments with multiple hubs, where routes might need to cross from one hub to another.

#### NEW QUESTION # 86

In which two ways does FortiGate utilize the Internet Service Database (ISDB)?

- A. Limits by URL
- B. Works in proxy mode
- C. Provides predefined IPs and ports
- D. Blocks IPs and ports

**Answer: C,D**

#### NEW QUESTION # 87

You are trying to efficiently deploy ADVPN within the enterprise network. Which two approaches can facilitate this deployment? (Choose two.)

- A. On FortiManager, enable ADVPN on VPN Manager.
- B. On FortiManager, activate the recommended IPsec tunnel provisioning templates and enable ADVPN.
- C. On FortiGate, connect only the links with the best status.

- D. On FortiGate, utilize loopback interfaces to reduce the number of routes and peers.

**Answer: A,B**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract documents and Knowledge:

Efficiently deploying ADVPN in an enterprise environment requires centralized management and automation to handle the large number of spokes.

\* VPN Manager (A): In FortiManager, the VPN Manager is a centralized orchestration tool. By creating a VPN community and enabling the "ADVPN" toggle, FortiManager automatically generates the complex configurations required (such as auto-discovery- sender on the Hub and auto-discovery- receiver on the Spokes) and pushes them to all managed devices.

\* IPsec Provisioning Templates (D): Provisioning templates allow administrators to define standardized IPsec settings for multiple devices simultaneously. Using these templates to enable ADVPN ensures that every spoke has a consistent configuration, which is critical for the "shortcuts" (dynamic spoke-to- spoke tunnels) to establish correctly.

Options B and C are incorrect because ADVPN 's primary strength is its ability to handle dynamic links regardless of status (though SD-WAN is often used alongside it) and its reliance on the actual tunnel interfaces rather than loopbacks for the discovery process.

## NEW QUESTION # 88

.....

If you are one of them buying our FCSS\_EFW\_AD-7.6 exam prep will help you pass the exam successfully and easily. Our Fortinet guide torrent provides free download and tryout before the purchase and our purchase procedures are safe. Our FCSS\_EFW\_AD-7.6 exam torrent carries no viruses. We provide free update and online customer service which works on the line whole day. Our study materials provide varied versions for you to choose and the learning costs you little time and energy. You can use our FCSS\_EFW\_AD-7.6 Exam Prep immediately after you purchase them, we will send our product within 5-10 minutes to you.
