

Pass Guaranteed Quiz OCPE - Category-7A-General-and-Household-Pest-Control - Pesticide Applicator Category 7A General and Household Pest Control Exam Perfect Certification Sample Questions

If you want to pass your Category-7A-General-and-Household-Pest-Control exam and get the Category-7A-General-and-Household-Pest-Control certification which is crucial for you successfully, I highly recommend that you should choose the Category-7A-General-and-Household-Pest-Control certification preparation materials from our company so that you can get a good understanding of the Category-7A-General-and-Household-Pest-Control Exam that you are going to prepare for. We believe that if you decide to buy the Category-7A-General-and-Household-Pest-Control exam materials from our company, you will pass your exam and get the Category-7A-General-and-Household-Pest-Control certification in a more relaxed way than other people.

With our Category-7A-General-and-Household-Pest-Control practice materials, and your persistence towards success, you can be optimistic about your Category-7A-General-and-Household-Pest-Control real dumps. Even you have bought our Category-7A-General-and-Household-Pest-Control learning braindumps, and we will send the new updates to you one year long. On one hand, all content can radically give you the best backup to make progress. On the other hand, our Category-7A-General-and-Household-Pest-Control Exam Questions are classy and can broaden your preview potentially. Their efficiency has far beyond your expectation!

Category-7A-General-and-Household-Pest-Control Valid Braindumps Book, Category-7A-General-and-Household-Pest-Control Authentic Exam Hub

When we are in some kind of learning web site, often feel dazzling, because web page design is not reasonable, put too much information all rush, it will appear desultorily. Believe it or not, we face the more intense society, and we should prompt our competitiveness and get a Category-7A-General-and-Household-Pest-Control certification to make our dreams come true. Although it is not an easy thing to achieve it, once you choose our Category-7A-General-and-Household-Pest-Control prepare torrent, we will send the new updates for one year long, which is new enough to deal with the exam for you and guide you through difficulties in your exam preparation.

OCPE Pesticide Applicator Category 7A General and Household Pest Control Exam Sample Questions (Q40-Q45):

NEW QUESTION # 40

Which of the following application instructions related to indoor use is correct?

- A. Use a high-pressure system for a spray application
- B. Do not spray bed linens or other materials that come in direct contact with people
- C. Apply as a broadcast treatment to floors or floor coverings

Answer: B

Explanation:

The TEMPRID SC label explicitly states that applicators should not spray bed linens or other materials that come in direct contact with people, such as mattresses, pillows, or clothing, to prevent human exposure to the pesticide. This is a critical safety instruction for indoor use in Category 7A applications.

Option A (broadcast treatment to floors) is incorrect, as TEMPRID is typically applied as a spot or crack-and-crevice treatment indoors, not a broadcast application, unless specified. Option C (high- pressure system) is incorrect, as high-pressure systems can disperse pests like bedbugs and are not recommended for indoor use; low-pressure, targeted applications are preferred.

NEW QUESTION # 41

Chemical resistant gloves should be worn:

- A. Only when applying a pesticide
- B. Only when mixing a pesticide
- C. When mixing or applying a pesticide

Answer: C

Explanation:

Chemical-resistant gloves are a critical piece of personal protective equipment (PPE) for pesticide applicators. The General Pest Management: Guide for Commercial Applicators - Category 7A (Chapter

3: Pesticide Safety) and NJDEP guidelines require gloves to be worn when mixing or applying a pesticide, as both activities pose a risk of dermal exposure, the most common cause of pesticide poisoning (see Question 18). Option A (only when applying) ignores the risk during mixing, and Option C (only when mixing) ignores the risk during application.

NEW QUESTION # 42

In an Integrated Pest Management program at a school:

- A. The superintendent of schools performs all liaison work
- B. Onsite supervisory personnel are required
- C. The commercial pesticide applicator is required to inform students and personnel of pesticide applications

Answer: C

Explanation:

Under the New Jersey School IPM Act (N.J.A.C. 7:30-13), commercial pesticide applicators in schools (Category 7A and 13) are required to inform students and personnel of pesticide applications, including providing advance notice and posting signs. This ensures safety and compliance with school IPM regulations. Option B (onsite supervisory personnel) is not a specific requirement for school applications. Option C (superintendent as liaison) is incorrect; the applicator or IPM coordinator typically handles notifications.

NEW QUESTION # 43

The IPM style of pest control includes:

- A. One-time reactive pesticide applications
- B. Pre-established pesticide applications according to a schedule
- C. A reduction of pesticide use

Answer: C

Explanation:

Integrated Pest Management (IPM) focuses on sustainable pest control by minimizing pesticide use and integrating multiple control methods (e.g., cultural, mechanical, biological). The General Pest Management: Guide for Commercial Applicators - Category 7A (Chapter 4: IPM) highlights that IPM aims for a reduction of pesticide use through prevention and non-chemical methods. Option A (pre-established applications) contradicts IPM's reactive, need-based approach. Option B (one-time reactive applications) may be part of IPM but does not capture its broader goal of reducing pesticide reliance.

NEW QUESTION # 44

Control of bedbugs is best achieved through:

- A. Integrated pest management practices
- B. A regimen of programmed pesticide application
- C. Use of residual insecticides

Answer: A

Explanation:

Bedbug control is most effective using Integrated Pest Management (IPM) practices, which combine multiple methods such as inspection, monitoring, heat treatments, vacuuming, and targeted pesticide use. The General Pest Management: Guide for Commercial Applicators - Category 7A (Chapter 7:

Bedbugs) emphasizes IPM due to bedbugs' resistance to many pesticides and their ability to hide in cracks and crevices. Option A (programmed pesticide application) is less effective and can lead to resistance. Option C (residual insecticides) is a component of control but not the best standalone method.

NEW QUESTION # 45

.....

Perhaps you do not understand. Anyway, what I want to tell you that our Category-7A-General-and-Household-Pest-Control exam questions can really help you pass the exam faster. Imagine how much chance you will get on your career path after obtaining an internationally certified Category-7A-General-and-Household-Pest-Control certificate! You will get a better job or get a big rise on the position as well as the salary. And we can claim that if you study with our Category-7A-General-and-Household-Pest-Control study materials for 20 to 30 hours, you will pass the exam with ease.
