Test Microsoft PL-600 Registration & PL-600 Cost Effective Dumps

Selecting the right method will save your time and money. If you are preparing for PL-600 exam with worries, maybe the professional exam software provided by IT experts from PracticeVCE will be your best choice. Our PracticeVCE aims at helping you successfully Pass PL-600 Exam. If you are unlucky to fail PL-600 exam, we will give you a full refund of the cost you purchased our dump to make up part of your loss. Please trust us, and wish you good luck to pass PL-600 exam.

Exam Overview

PL-600 exam follows the regular structure that the vendor has set for all other job-role-based tests. It contains around 40-60 questions presented in the formats like MCQ, case study, and performance-based. However, the vendor hasn't fixed the total number of items because it has made the exam follow the industry trends. The total duration of this test is 150 minutes. It should be noted that in order to be guaranteed to pass the exam, it is necessary to obtain a minimum of 70% scores of total marks. The good news is that the score remains valid for a lifetime.

The exam can be taken only in the English language but as it is conducted by Pearson VUE, it is available globally. Interested candidates have to do registration on Pearson's website and pay the enrolment fee, which is \$165 per attempt, to commence the exam journey. One must comprehend that the fee will be paid as an exam voucher and it can't be transferred or refunded.

It is important to remember that PL-600 Exam is due to get live on 17th March 2020. Until that date, it will only be available as a beta version.

Microsoft Power Platform Solution Architect Sample Questions (Q28-Q33):

NEW QUESTION # 28

A company sells antique books. The company stores data about book locations in an existing system by using the following database fields: Room, Shelf.

The company must import the data from the existing system into a Power Platform solution.

Existing data into must be modified to match the design of the new solution.

You need to recommend a solution to combine the room and shelf fields into a single column during the import process.

Which tool should you recommend?

- A. Power Platform dataflows
- B. Data Import Wizard
- C. Microsoft Excel Online
- D. import from CSV

Answer: A

Explanation:

Concatenation is for values in one column and using a delimiter. Column merging is only possible in DataFlows.

Topic 2, Relecloud

To start the case study

To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.

Background

Relecloud provides regional air service in North America. The company uses a variety of systems, apps, and services to manage the business. You are hired to design a new solution to manage passenger information, reservations, and maintenance.

Current environment

The company uses Microsoft Office 365.

The company has a custom app for managing and tracking passenger luggage. The app uses Microsoft Dataverse.

For flights longer than four hours, passengers receive a meal. Customers can select a meal when they make a reservation and can save the meal choices as a customer preference.

The company offers two types of meals: standard and vegetarian. Meal types can be temporarily unavailable. The airline is considering offering other meal types, such as gluten-free and low-sodium options.

The company uses paper-based reservation checklists to help ensure that all the steps for a reservation are complete.

The company uses vendors to service aircraft.

Environment

Ensure that employees can sign in to all Microsoft apps by using one set of credentials per employee.

Minimize the use of third-party products and custom development.

Reduce customer support call volumes by having the system automatically resolve common issues.

The security rule for agents must contain the privileges in the default Customer Service Representative security role.

Log issues as cases. The case form must show variable sections based on the case type. Include a custom entity named Seats and grant agents access to the entity.

Application use layout should be role specific.

Agents

You must standardize the format used by agents to enter customer phone numbers.

Agents need a solution to replace paper reservation checklists.

Agents need dashboards to show a current count of all reservations on the entity.

Agents need a way to track reservation issues.

Agents need a visual indicator in the interface to determine the reservation step to provide a seamless customer experience.

Agents need different versions of cancellation policies to send customers. One version must be controllable within the system.

Agents need to view which pieces of luggage match to each passenger, and then need to add the total on the passenger record.

IT

IT staff needs a mobile solution to see IT cases at the top of the menu since this is their primary focus.

IT staff needs a system that is easy to navigate to active cases.

IT specialists want to design Power BI reports. They need to understand the underlying table relationships of the system.

IT specialists need a solution that is visual rather than text-based so they can quickly complete their tasks.

Management

Management requires paginated reports for stakeholders.

Management wants to provide frequent flyers with better service when the flyers call.

Managers need to see all customer dashboards at the top of their menu on their mobile device.

Maintenance

Maintenance supervisors must not have access to Dynamics 365 Customer Service. The supervisors must be able to communicate with the contracts team about contracts.

Aircraft maintenance vendors must have only view and upload privileges to their invoices and receipts.

Contracts with maintenance companies must be stored in Dynamics 365 Customer Service.

NEW QUESTION # 30

You need to recommend a solution to meet user interface requirements.

What should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Solution
Visual representation of gauge readings with minimum and maximum tolerances.	<input type="checkbox"/> Create and embed a Power BI radial gauge. <input type="checkbox"/> Create and embed a custom visualization component. <input type="checkbox"/> Create and embed a standard Power Apps donut chart.
Add visibility to the manufacturing inspection records for onsite technicians.	<input type="checkbox"/> Configure mobile offline synchronization. <input type="checkbox"/> Add an inspection order to the work order form. <input type="checkbox"/> Modify the sitemap for Dynamics 365 Field Service.

Answer:

Explanation:

Requirement	Solution
Visual representation of gauge readings with minimum and maximum tolerances.	<input checked="" type="checkbox"/> Create and embed a Power BI radial gauge. <input type="checkbox"/> Create and embed a custom visualization component. <input type="checkbox"/> Create and embed a standard Power Apps donut chart.
Add visibility to the manufacturing inspection records for onsite technicians.	<input type="checkbox"/> Configure mobile offline synchronization. <input checked="" type="checkbox"/> Add an inspection order to the work order form. <input type="checkbox"/> Modify the sitemap for Dynamics 365 Field Service.
