Oracle Project Management Cloud 2025 Implementation Professional Sample Questions (Q81-Q86):

NEW QUESTION # 81

Your customer has different accounting and project accounting periods, and sometimes enters invoices with an invoice date in the open project accounting and closed accounting periods. Which two statements are true about how project accounting and accounting dates will be populated in such invoices? (Choose two.)

- A. Project accounting date is the last day of the open project accounting period.
- **B. Project accounting date is the first day of the first open project accounting period.**
- C. Project accounting date is the same as the original invoice date.
- **D. Accounting date is the same as the original invoice date.**
- E. Accounting date is the first day of the first open accounting period.

Answer: B,D

Explanation:

When an invoice is entered with an invoice date in the open project accounting and closed accounting periods, the accounting date is the same as the original invoice date, but the project accounting date is the first day of the first open project accounting period. This ensures that the invoice is accounted in the correct accounting period and recognized in the correct project accounting period.

NEW QUESTION # 82

You have been asked to set up one active person, who is not a team member in the project, as a quality manager for each quality task created under projects. However, when you try to assign the quality manager as Task Manager, you cannot find the person's name in the list of values. What is the reason for this problem?

(Choose the best answer.)

- **A. The "Require Task Managers to be Project Team Members" profile option is set to Yes.**
- B. The quality manager is not assigned with a supervisor.
- C. The quality manager belongs to a department that is not associated with the project.
- D. The "Require Task Managers to be Project Team Members" profile option is set to No.

Answer: A

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/fapfin/introducing-oracle-project-portfolio-management-cloud-services.html#FAPFM428138> Topic - Project Foundation Profile Options Profile Option Name - Task Managers Must Be Project Team Members Description - Specify whether task managers must be project team members.

Values - No (Default) / Yes

Setup Task Name - Require Task Managers to be Project Team Members

NEW QUESTION # 83

You are managing a project based on a Waterfall model. You define a project and a project plan in Oracle Project Portfolio Management with tasks and subtasks applicable to each of the phases of the project:

Initiation, Discovery, Design, Build, Test, and Deploy. As a project manager, you want to define deliverables for your project requirements that are elucidated during the Discovery phase of your project. You now want to understand how the inheritance between requirements, tasks, and deliverables works. Identify the two correct statements in this respect. (Choose two.)

- A. The association of a deliverable with a task is dependent on associating a requirement with a task.
- **B. You associate a deliverable with a task, independent of associating a requirement with a task.**

- C. A deliverable associated with a requirement is automatically associated with the tasks created for that requirement.
- D. A deliverable associated with a requirement is not automatically associated with the tasks created for that requirement.

Answer: B,D

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19b/oapem/define-project-deliverables.html#OAPEM1122079> Associate deliverables with one or many tasks or requirements at any level. Associate existing deliverables to tasks or requirements or create deliverables directly for tasks or requirements. You can delete a deliverable in New status if it is not associated with tasks or requirements.

Can deliverables for projects and tasks be inherited from associated requirements?

No. A deliverable associated with a requirement is not automatically associated with the tasks created for that requirement.

You associate a deliverable with a task, independent of associating a requirement with a task.

NEW QUESTION # 84

Your client is involved in automation control systems installation. Over the years, they have analyzed their total project spend on specific resource classes. They have identified that their cost spread distribution factor on a 10 spread point scale resembles: 0-4-10-11-14-13-10-4-0-0. Identify two ways to handle this kind of a spread on their budgets and forecasts. (Choose two)

- A. Use the predefined S-Curve spread with small deviations on the spread points.
- B. Create a new spread curve or edit an existing spread curve to exactly match the spread points and attach to a project template.
- C. Create a new spread curve or edit an existing spread curve to exactly match the spread points and attach to the resource class.
- D. Use the predefined Bell Curve spread with small deviations on the spread points.

Answer: B,C

Explanation:

To handle a custom spread on budgets and forecasts, you can either create a new spread curve or edit an existing one to match the desired spread points. Then, you can attach the spread curve to a project template or a resource class, depending on whether you want to apply it to all projects using that template or all transactions using that resource class. <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfm/define-project-budgets-and-forecasts.html#OAPFM2355819>

NEW QUESTION # 85

Your organization has a requirement to send notifications to the owners of the associated tasks when the status of a deliverable is set to Complete. You have been asked to evaluate generate public events for project deliverable status changes feature to manage this requirement.

Which two statements are true about this feature? (Choose two.)

- A. The public event is not generated when the priority of a deliverable changes.
- B. The public event is generated when the progress status for a deliverable changes.
- C. The public event is not generated when a deliverable is created or deleted.
- D. The public event is generated when a deliverable is created or deleted.

Answer: B,C

Explanation:

The generate public events for project deliverable status changes feature is a feature that allows you to send notifications or trigger actions when the progress status of a deliverable changes from one value to another.

For example, when the status of a deliverable is set to Complete, you can send a notification to the owners of the associated tasks or update the status of the tasks accordingly. Two statements that are true about this feature are:

* The public event is not generated when a deliverable is created or deleted. This feature only generates events when the progress status of a deliverable changes, not when a deliverable is added or removed from a project or task.

* The public event is generated when the progress status for a deliverable changes. This feature generates events when the progress status of a deliverable changes from one value to another, such as from Not Started to In Progress, or from In Progress to Complete. You can define rules and actions for each progress status change using Business Process Management (BPM) Worklist. The public event is also not generated when the priority of a deliverable changes, as this feature only generates events when the

progress status of a deliverable changes. Reference: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfm/manage-project-execution.html#OAPFM2356211>

NEW QUESTION # 86

.....

Our Oracle Project Management Cloud 2025 Implementation Professional torrent prep can apply to any learner whether students or working staff, novices or practitioners with years of experience. To simplify complex concepts and add examples, simulations, and diagrams to explain anything that might be difficult to understand, studies can easily navigate learning and become the master of learning. Our 1z0-1057-25 exam questions are committed to instill more important information with fewer questions and answers, so you can learn easily and efficiently in this process. In the meantime, our service allows users to use more convenient and more in line with the user's operating habits of 1z0-1057-25 Test Guide, so you will not feel tired and enjoy your study. With timing and practice exam features, studies can experience the atmosphere of the exam and so you can prepare for the next exam better.

Passing 1z0-1057-25 Score: <https://www.dumpstillvalid.com/1z0-1057-25-prep4sure-review.html>

Oracle 1z0-1057-25 Pass Rate And this is the most important, Our company takes on stronger commitments that our 1z0-1057-25 premium VCE file is safe and free of virus, Our professional experts not only have simplified the content and grasp the key points for our customers, but also recompiled the 1z0-1057-25 preparation materials into simple language so that all of our customers can understand easily no matter which countries they are from, Our Passing 1z0-1057-25 Score - Oracle Project Management Cloud 2025 Implementation Professional qualification test help improve your technical skills and more importantly, helping you build up confidence to fight for a bright future in tough working environment.

As a result, many customers get manifest improvement and lighten their load by using our 1z0-1057-25 latest dumps, Getting deeper for extra configurations, And this is the most important.

Our company takes on stronger commitments that our 1z0-1057-25 premium VCE file is safe and free of virus, Our professional experts not only have simplified the content and grasp the key points for our customers, but also recompiled the 1z0-1057-25 preparation materials into simple language so that all of our customers can understand easily no matter which countries they are from.
