

# Rating your courses using the Student Evaluation Questionnaire

## What

The Student Evaluation Questionnaire (SEQ) is administered every semester to all students for each of their registered courses. All students are invited to anonymously rate each of their courses and help instructors improve their teaching. This semester the SEQ will be available from **08-30 April**.

## Why

When student evaluations of teaching are done regularly, the quality of the educational experience improves for both the instructor and the students. Instructors learn about their strengths and weakness and can work harder to improve.

## How
