

## Huawei 'Seeds for the Future' program 2023

(Eight-day Program From 9th -16th October 2023 in Costa Rica)

**Seeds For the Future 2023 offers university students of all academic backgrounds, the opportunity to join an experience around technological innovation, Tech4Good's global competition, intercultural exchange, and a look into the dynamic global business in China!**

Seeds For the Future is a complete program, in which for 8 days participants will be able to:

- Receive entry-level and advanced courses on key technologies, including 5G, cloud computing and AI (Artificial Intelligence);
- Experience traditional and modern Chinese culture through virtual tours of Chinese scenic venues or fast-growing companies;
- Learn from Huawei experts, outside entrepreneurs, professors or scientists who will share perspectives on a wide range of topics, from cybersecurity to aerospace;
- Immerse yourself in an interactive and dynamic classroom where group discussion, debates, round tables will be organized to ensure intercultural exchanges with students from other countries;
- Participate in the Tech4Good group project to increase social entrepreneurship, develop problem-solving and leadership skills through teamwork, and deepen your sense of social responsibility.

Finally, students who successfully complete the Tech4Good group round will have the opportunity to be part of the global competition and use their own innovation to

compete with all other technological works created by students from all over the world. Winners can get our amazing prizes.

- Learn about Huawei's history and technology developments, including virtual tours of Huawei exhibit halls, campuses and stores.

- Officially join the alumni community where exclusive webinars, roundtable dialogue, celebration event, etc. will be held throughout the year to strengthen the sense of belonging.
