MEMORANDUM

To: All Staff and Students
From: Professor Clement Imbert (Emeritus), Acting Chairman - UTT
Date: March 31st 2019
Re: Allegations against UTT’s President

The University of Trinidad and Tobago (UTT) has noted that there have been unsubstantiated statements in the mass media and elsewhere about the President of the University concerning:

1. His academic qualifications, more specifically his PhD;
2. A claim of plagiarism against him;
3. Claims against him of facilitating and/or engaging in “false” authorship of academic papers;
4. A claim that he was not a Professor at a university prior to joining UTT.

The University wishes to state that:

1. An investigation was conducted resulting in the said academic qualification (PhD) being deemed authentic;
2. An investigation revealed that there is no evidence to support the specific claim of plagiarism;
3. There was no evidence to support the specific claims of “false” authorship of academic papers;
4. An investigation revealed that there is evidence that he was a Professor prior to joining UTT.

Professor Clement Imbert (Emeritus)
