H12-323_V2.0 valid practice exam online will be a nice choice.

Huawei HCIP-WLAN V2.0 Sample Questions (Q456-Q461):

NEW QUESTION # 456

After a device fails, engineers will collect fault information, which mainly includes basic fault information, operating status information, device log information, and intelligent diagnostic information. Which of the following are the main contents of the operating status information?

(Multiple choice)

- A. Fault phenomenon
- **B. Interface information**
- **C. System version**
- D. Equipment Configuration

Answer: B,C

NEW QUESTION # 457

During MAC authentication, to prevent illegal users from brute-forcing the user name and password of the terminal, the silent function of MAC authentication can be enabled. By default, if a user fails to authenticate 5 times within 60 seconds, the access device will discard the user's authentication request within the next 60 seconds.

- A. True
- **B. False**

Answer: B

NEW QUESTION # 458

An enterprise deploys a WLAN network using the WAC+FIT AP networking architecture. The AP that a terminal is trying to associate with has reached the upper limit of the number of access users of the AP, but has not reached the upper limit of the number of access users of the WAC.

In this case, the terminal can access the wireless network by associating with other APs.

- **A. True**
- B. False

Answer: A

NEW QUESTION # 459

A government needs to deploy a WLAN network. The link authentication uses open system authentication, but the security requirements are extremely high. When engineers select security strategies, which of the following should they use first?

- **A. WPA3-802.IX**
- B. WPA/WPA2-PPSK
- C. OWE
- D. Static WEP

Answer: A

NEW QUESTION # 460

AP6510DN is connected to AT815SN in a 6-point backhaul scenario; the backhaul distance is about 100m. Six AT815SNs are distributed in a range of 60 meters long and 60 meters wide; the equipment is installed at the same height and there is line of sight. When the uplink bandwidth requirement is 10 Mbps and there is no EIRP restriction, which of the following antennas can be selected? (Multiple choice)

- A. 5G_19dBi_H15 degrees_V15 degrees

- Answer: B,C**
