You can download and install it within a few minutes on Windows-based PCs only and start preparing for the Virginia Life, Annuities, and Health Insurance Examination Series 11-01 exam.

Virginia Insurance Virginia Life, Annuities, and Health Insurance Examination Series 11-01 Sample Questions (Q395-Q400):

NEW QUESTION # 395

Coverage under a cancelable health insurance policy may be terminated by:

- A. Either the insured or the insurer
- B. An arbitration committee
- C. The insured only
- D. The insurer only

Answer: A

Explanation:

Virginia Code § 38.2-3508 defines a cancelable health policy as one either party—the insured or insurer—can terminate before its term ends, with notice (e.g., 30 days). Option C reflects this mutual right. Option A (insurer only) and option B (insured only) are too restrictive; cancelable policies aren't unilateral. Option D (arbitration committee) isn't a standard mechanism; cancellation follows policy terms, not third-party rulings.

The study guide likely contrasts cancelable with non-cancelable policies, using examples like an insurer canceling for nonpayment or an insured canceling due to better rates, making C the correct scope.

NEW QUESTION # 396

All of the following statements about tax-sheltered annuities (TSAs) are true EXCEPT:

- A. The employee issues periodic personal checks to purchase the contract
- B. Only employees of certain tax-exempt organizations may participate
- C. The employee is normally the applicant, owner, and annuitant under the contract
- D. An employee's rights under the contract are nonforfeitable

Answer: A

Explanation:

Tax-sheltered annuities (403(b) plans) are funded by employer salary reduction agreements, not personal checks written directly to the insurer. Eligible participants are employees of nonprofit or educational institutions. Exact extract: "Contributions to tax-sheltered annuities are made by salary reduction agreements; employees of public schools and nonprofit organizations are eligible." Reference:

NEW QUESTION # 397

All of the following normally indicate the presence of insurable interest in the life of another person EXCEPT:

- A. Co-signing a mortgage with the other person
- B. Being married to the other person
- C. Being closely related to the other person by birth
- D. Maintaining a lasting friendship with the other person

Answer: D

Explanation:

Insurable interest exists when an individual stands to suffer a financial loss or hardship if another person dies or is injured. Insurable interest is typically present when one is closely related to the person (e.g., spouse, parent, or child) or has a financial relationship with them (e.g., co-signing a mortgage). While maintaining a lasting friendship may suggest emotional interest, it does not typically meet the financial criteria for insurable interest unless there is a direct financial loss involved.

NEW QUESTION # 398

(Which of the following is one characteristic of a SIMPLE IRA plan?)

- A. Employers must have a minimum of 500 employees to participate
- B. Employees are mandatory contributors

- C. Employees are vested after 10 years of service
- **D. Employers do not have filing requirements**

Answer: D

Explanation:

A SIMPLE IRA plan is designed for small employers and is known for ease of administration. One key characteristic is that employers generally do not have complex annual filing requirements, unlike many qualified retirement plans that require detailed reporting. Employees may choose whether or not to contribute through salary deferrals, so contributions are not mandatory. SIMPLE IRA plans have immediate vesting, meaning employees are 100% vested in both employer and employee contributions right away, not after years of service. Additionally, SIMPLE IRA plans are limited to employers with 100 or fewer employees, not 500. The simplicity and low administrative burden make these plans attractive to small businesses.

NEW QUESTION # 399

(All of the following statements about single premium whole life insurance policies are true EXCEPT:)

- A. A large part of the premium is used to set up the policy's reserve
- **B. An additional premium may be charged if inflation exceeds a stated rate**
- C. An immediate nonforfeiture value is created
- D. An immediate cash value is created

Answer: B

Explanation:

Single premium whole life insurance is funded with one lump-sum premium that immediately creates both cash value and nonforfeiture value. Because the entire premium is paid upfront, a significant portion is allocated to the policy reserve, making options A, B, and C correct.

Whole life insurance has fixed premiums by definition. Once the single premium is paid, no additional premiums are required, regardless of inflation or economic conditions. Therefore, option D is incorrect and is the correct "EXCEPT" answer.

Virginia exam materials emphasize that whole life policies provide guaranteed premiums, guaranteed death benefits, and guaranteed cash value growth, which distinguishes them from flexible or adjustable policies.

NEW QUESTION # 400

.....

More successful cases of passing the Virginia-Life-Annuities-and-Health-Insurance exam can be found and can prove our powerful strength.
