So if you do want to achieve your dream, buy our SAFe-SPC practice materials.

Scaled Agile SAFe-SPC Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Leading the Change: This section of the exam measures skills of the Change Leader and focuses on guiding transformation. It reviews how to lead by example, how to lead organizational change, and how to apply the SAFe implementation roadmap. Lesson 6 provides a simple view of the leadership behaviors needed to support enterprise level change.
Topic 2	<ul style="list-style-type: none">• Enhancing the Portfolio: This section of the exam measures skills of the Enterprise Architect and addresses the scaling of value delivery. It discusses launching additional ARTs and value streams, strengthening enterprise solution delivery, and improving portfolio operations. It also reviews Lean governance and the ongoing work of LPM implementation. Lesson 12 focuses on expanding organizational capability.
Topic 3	<ul style="list-style-type: none">• Thriving in the Digital Age and Business Agility: This section of the exam measures skills of the Agile Team Member and covers the foundations of thriving in a digital environment. It introduces how SAFe functions as an operating system for Business Agility and highlights the essential core competencies needed for modern enterprises. Lesson 1 guides learners on how organizations adapt, innovate, and remain competitive in fast changing markets.
Topic 4	<ul style="list-style-type: none">• Reaching the SAFe Tipping Point: This section of the exam measures skills of the Transformation Champion and addresses the earliest stages of change. It explains how to establish a clear vision for change and how to build a strong guiding coalition. Lesson 8 highlights the importance of commitment and sponsorship at the start of a transformation journey.
Topic 5	<ul style="list-style-type: none">• Exploring Lean Portfolio Management: This section of the exam measures skills of the Portfolio Manager and covers the structure of the SAFe portfolio. It explains how to connect the portfolio to enterprise strategy, maintain the portfolio vision, and manage this vision through epics. It also presents Lean budgets and guardrails and introduces the concept of portfolio flow. Lesson 5 shows how strategic alignment supports value delivery.

Topic 6	<ul style="list-style-type: none"> • Accelerating to Business Agility: This section of the exam measures skills of the Organizational Development Specialist and presents the key practices that accelerate Business Agility. It explains how to establish organizational agility and create a continuous learning culture. This final section helps learners understand how enterprises sustain improvement and adapt to future challenges.
Topic 7	<ul style="list-style-type: none"> • Establishing Team and Technical Agility: This section of the exam measures skills of the Agile Practitioner and introduces the characteristics of cross functional Agile teams. It explains the importance of built in quality and describes how Agile Release Trains are organized around the flow of value. Lesson 3 emphasizes the ability of teams to deliver reliable outcomes through technical discipline.

We have considerate services as long as you need us. Besides, to fail while trying hard is no dishonor. If you fail the exam with our SAFe-SPC Study Guide unfortunately, we will switch other versions or give your full money back assuming that you fail this time, and prove it with failure document. Do not underestimate your ability, we will be your strongest backup while you are trying with our SAFe-SPC actual tests.

Scaled Agile SAFe Practice Consultant SPC (6.0) Sample Questions (Q104-Q109):

NEW QUESTION # 104

When is the Solution Demo conducted?

- A. At the end of each Sprint.
- **B. At the end of each PI.**
- C. Mid-PI.
- D. On demand.

Answer: B

Explanation:

The Solution Demo is conducted at the end of each Program Increment (PI) and demonstrates the integrated work of multiple ARTs in a Solution Train. This ensures the solution increment meets requirements and allows for stakeholder feedback.

References:

SAFe 6.0 Website: Solution Demo

SPC 6.0 Guide: "The Solution Demo is held at the end of each PI to show integrated solution increments."

NEW QUESTION # 105

(Select 2) Why is Architectural Runway important?

- A. It provides the documentation on which Features and Capabilities are built.
- **B. It supports a stable velocity.**
- C. It allows for nontechnical changes
- **D. It iteratively evolves the architecture to meet changing needs.**

Answer: B,D

Explanation:

The Architectural Runway in SAFe consists of the existing code, components, and technical infrastructure necessary to support the implementation of prioritized, near-term Features without excessive redesign and delay. Its importance is twofold:

It supports a stable velocity (A): Teams need sufficient architectural runway to maintain a predictable velocity and reduce technical debt. As stated in SAFe, "Architectural Runway enables teams to build features quickly and efficiently, thus maintaining stable velocity." It iteratively evolves the architecture to meet changing needs (C): SAFe recommends an incremental and emergent

architectural approach. The runway is not static; it evolves to meet the emerging business and technical requirements, "just enough, just in time." Incorrect options:

B is incorrect-while documentation may be produced, the runway itself is not documentation but actual working infrastructure.

D is incorrect-runway specifically supports technical changes, not nontechnical ones.

References:

SAFe 6.0 Website: Architectural Runway

SPC 6.0 Guide: "The runway must be continually maintained and extended to provide the foundation for developing Features and Capabilities at a sustainable pace."

NEW QUESTION # 106

Who is the content authority for an Agile Team?

- A. The System Architect
- **B. The Product Owner**
- C. The Product Manager
- D. The Scrum Master/Team Coach

Answer: B

Explanation:

According to SAFe 6.0, "The Product Owner is the content authority for the team backlog. They are responsible for defining Stories and prioritizing the team backlog to streamline the execution of program priorities while maintaining the conceptual and technical integrity of the Features or components the team is responsible for." The Scrum Master/Team Coach facilitates team events and removes impediments, but does not own content decisions. Product Manager and System Architect provide input and guidance but are not the content authority at the team level.

References:

SAFe 6.0, "Product Owner" article

SPC 6.0 Practice Guide, "Establishing Team and Technical Agility" module

NEW QUESTION # 107

(Select 3) Which of the following have acceptance criteria?

- **A. Business Capabilities**
- B. Portfolio Enabler Epics
- C. Spikes
- **D. Enabler Features**
- **E. Program Epics**
- F. Strategic Themes

Answer: A,D,E

Explanation:

A). Business Capabilities: In SAFe, Capabilities (including Business Capabilities) are large solution behaviors that have acceptance criteria to ensure they are fully defined and testable.

D). Enabler Features: All Features, including Enabler Features, require acceptance criteria to clarify when the Feature is done.

F). Program Epics: Epics require acceptance criteria to define the conditions for completion and evaluation.

Portfolio Enabler Epics (B) have a higher-level definition and are not typically assigned granular acceptance criteria. Strategic Themes (C) and Spikes (E) do not have acceptance criteria; Spikes are research items.

References:

SAFe 6.0 Website: Features and Capabilities

SPC 6.0 Guide: "Each Feature, Capability, and Epic should have clear acceptance criteria."

NEW QUESTION # 108

Where are Capabilities managed?

- A. In the ART Kanban.
- B. In the Portfolio Kanban.

- C. In the Value Stream planning board.
- D. In the Value Stream Kanban.

Answer: D

NEW QUESTION # 109

.....

Once you purchase the SAFe-SPC exam dumps from BraindumpStudy you can use it in three forms Scaled Agile PDF Questions format, web-based software, and desktop Scaled Agile SAFe-SPC practice test. Candidates can use SAFe Practice Consultant SPC (6.0) pdf questions file on their mobiles, laptop tablets, or any other device.
