Oracle  
Managing Supply Chain Risk

- A. lack of accurate forecasts
- B. government policy changes
- C. necessary factory retooling
- D. exchange rate fluctuations

**Answer: A**

**Explanation:**  
Lack of forecast is an internal risk, the others are external risks. Internal and external risks is a known topic for the exam so see p 218-217 for more information

**NEW QUESTION # 95**  
Juan is a Spanish retailer who imports leather goods from Japan. Juan's primary supplier in Japan and the other retailers from Juan can either take a long-term contract, or they can lease the price of the goods to Juan's supplier's rate to the exchange rate. Which of the following would be the best option for Juan?

- A. Hire the supplier to their own currency
- B. Hire the supplier with geographical spread of supplier sales with supplier purchases
- C. Hire the supplier with Juan's currency
- D. Hire the supplier with the foreign supplier

**Answer: C**

**Explanation:**  
Juan's currency would reduce the risk to Juan. The cost of currency exchange rate fluctuations would then sit with the supplier. See p 23 for more information on currency risk.

**NEW QUESTION # 96**  
Which of the following statements are true about risk management? Select TWO.

- A. Risk management is a continuous process
- B. Risk management is an activity that is conducted by a business once a year
- C. Risk management is a process by which activities are either created or terminated
- D. The goal of risk management is to reduce risk to 0
- E. Risk management can only completely remove the financial and operational impact of purchase and supply activities

**Answer: A,E**

**Explanation:**  
The correct responses are 2 and 4. Risk management is a continuous process and a high company value the financial and operational impact of 1-5. There are direct costs from 3 of the supply chain. The other answers are wrong. If risk management is a continuous process, it is not something that is done once a year. The risk option is automatically discounted. Option 2 is also wrong as you cannot remove activities to 0, one option 3 is also wrong. Risk can be reduced and controlled, but

## Latest Oracle NetSuite Administrator Professional braindumps torrent & N16291GC10 pass test guaranteed

If passing the N16291GC10 certification exam in a short time is a goal of yours, we're here to help you get there on your first attempt by providing you with N16291GC10 real exam dumps you need to succeed. We have three formats of N16291GC10

updated questions. This is done so that every Oracle N16291GC10 exam applicant may find useful N16291GC10 study material here, regardless of how they want to learn.

## Oracle N16291GC10 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>• SuiteCloud Platform: This section of the exam measures skills of NetSuite Automation Developers and covers the use of SuiteFlow, SuiteScript, and SuiteTalk to automate and integrate business processes. It involves understanding the sequence of creating SuiteFlows, identifying running automations, and managing SuiteBundles. Candidates must also distinguish between managed and non-managed bundles, update existing ones, and apply REST or SOAP Web Services, ODBC, and CSV Import methods to manage NetSuite data effectively.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• Data Security: This section of the exam measures skills of Information Security Specialists and focuses on managing access and safeguarding sensitive data within NetSuite. It includes understanding how to secure the File Cabinet, configure login security, and set up Two-Factor Authentication or Single Sign-On. Candidates are evaluated on recognizing permissions with high access levels, mitigating data risks when employees exit the organization, and managing the security impact of changing field values on reports.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• SuiteAnalytics: This section of the exam measures skills of NetSuite Reporting Analysts and covers the ability to define and optimize advanced saved searches to achieve specific business results. It includes identifying which records to use as the basis for searches, comparing sharing methods for reports and searches, and selecting the most effective ways to monitor saved search performance. Candidates are also assessed on their understanding of dashboard publishing, customization, and the comparison of dashboard elements to meet user requirements.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• Working with NetSuite: This section of the exam measures skills of NetSuite Support Analysts and covers the day-to-day operational use and troubleshooting of NetSuite environments. It focuses on managing system alert notifications, preparing for new release testing, and diagnosing system issues based on provided scenarios. Candidates are also tested on their ability to track license usage, manage provisioning, and leverage the NetSuite Support Center role for problem resolution and system optimization.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• Setup and Administration: This section of the exam measures skills of NetSuite System Administrators and focuses on system configuration, environment management, and role-based security. It covers best practices for assigning custom roles, handling global permissions, and defining subsidiary-level access. Candidates are tested on the correct use of the Administrator role, user access configurations, multi-language settings, and environment management between Sandbox, Production, and Release Preview. Additionally, the section assesses knowledge of advanced CSV import options, troubleshooting import errors, and applying SuiteCloud Plus features.</li> </ul>
