First, our Cloud-Digital-Leader practice briandumps have varied versions as the PDF, software and APP online which can satify different needs of our customers. Secondly, the price is quite favourable.

Google Cloud Digital Leader Sample Questions (Q329-Q334):

NEW QUESTION # 329
Your customer is moving from AWS to Google Cloud. Data also needs to be moved. There is about 50TB of dat a. On AWS, the data resides in an S3 bucket. It is going to be moved to Cloud Storage. Data is also being continuously generated on S3 prior to the cutover. It is preferable that this is also periodically transferred. What is the best way to move the data?

- A. Use the Google Cloud console to drag and drop the files easily
- B. Use the gsutil command-line option
- C. Use a Transfer Appliance
- D. Use the Storage Transfer Service

Answer: D

Explanation:
Storage Transfer Service provides options that make data transfers and synchronization easier. We can also schedule one-time transfer operations or recurring transfer operations.

NEW QUESTION # 330
You have experimented with Google Cloud using your own credit card and expensed the costs to your company. Your company wants to streamline the billing process and charge the costs of your projects to their monthly invoice. What should you do?

- A. Set up BigQuery billing export and grant your financial department IAM access to query the data.
- B. Change the billing account of your projects to the billing account of your company.
- C. Grant the financial team the IAM role of #€Billing Account User#€ on the billing ac-count linked to your credit card.
- D. Create a ticket with Google Billing Support to ask them to send the invoice to your company.

Answer: B

Explanation:
To change the Cloud Billing account for a project, you need to be able to move a project from one Cloud Billing account to another. To accomplish this task, you need permissions adequate to unlink the project from the existing Cloud Billing account AND to link the project to the target Cloud Billing account. Roles with adequate permissions to perform this task: Project Owner or Project Billing Manager on the project, AND Billing Account Administrator or Billing Account User for the target Cloud Billing account Graphical user interface, text, application, email Description automatically generated

A Cloud Billing account is used to define who pays for a given set of resources, and it can be linked to one or more projects. Project usage is charged to the linked Cloud Billing account.

If you are a billing administrator on only one Cloud Billing account, new projects you create are automatically linked to your existing Cloud Billing account. If you create or have access to multiple Cloud Billing accounts, you can change the Cloud Billing account a project is billed to. This article describes how to change the Cloud Billing account for your project, as well as how to enable and disable billing for a project.

NEW QUESTION # 331
You are a program manager in a company and handling a project and you need to create a virtual machine on google cloud console that will be very simple to set up, by flipping a bit via command, API, or with developer console that gives you 30 seconds to shut down when you're preempted, allow you to save your work that also helps in the company budget upto 70-80% of less charges

than the regular VMs.

- A. Google Cloud VM Instances
- B. Bare Metal Solutions
- C. Preemptible Virtual Machines.
- D. None of the above.

Answer: C

Explanation:
Explanation
Preemptible VMs have all these features
Simple configuration
Create a preemptible instance simply by flipping a bit via command, API, or developer console.
Easy extensibility
Attach GPUs and local SSDs to preemptible instances for additional performance and savings.
Graceful shutdown
Compute Engine gives you 30 seconds to shut down when you're preempted, letting you save your work in progress for later.
Large scale computing
Spin up as many instances as you need and turn them off when you're done. You only pay for what you use.
Quickly reclaim capacity
Managed instance groups automatically recreate your instances when they're preempted (if capacity is available).
Fixed pricing
Preemptible VMs have fixed pricing up to 80% off regular instances. They show up on your bill separately so you'll see just how much you're saving.

NEW QUESTION # 332
The operating systems of some of your organization's virtual machines may have a security vulnerability.
How can your organization most effectively identify all virtual machines that do not have the latest security update?

- A. View the Security Command Center to identify virtual machines started more than 2 weeks ago
- B. View the Compliance Reports Manager to identify and download a recent SOC 1 audit
- C. View the Security Command Center to identify virtual machines running vulnerable disk images
- D. View the Compliance Reports Manager to identify and download a recent PCI audit

Answer: C

NEW QUESTION # 333
An organization wants to deploy new workloads to the cloud but must keep some systems on-premises for compliance reasons
Both environments must be managed centrally Which type of environment should the organization use1?

- A. Hybrid cloud environment
- B. Virtual machine environment
- C. Multi cloud environment
- D. Container environment

Answer: A
