If the Fortinet NSE6_FSM_AN-7.4 real exam content changes within three months of your purchase, we will provide you with free valid Fortinet NSE6_FSM_AN-7.4 Dumps updates. Additionally, you can test the specifications of our NSE6_FSM_AN-7.4 PDF questions file and Fortinet Campaign Certification NSE6_FSM_AN-7.4 practice test exams by trying free demos. Purchase this updated Fortinet

NSE6_FSM_AN-7.4 practice test material today with all these amazing offers.

Fortinet NSE 6 - FortiSIEM 7.4 Analyst Sample Questions (Q46-Q51):

NEW QUESTION # 46

Refer to the exhibit. What is this rule attempting to match?

Rule Subpattern

Name:

Filters:	Paren	Attribute	Operator	Value	Paren	Next	Row
<input type="checkbox"/>	<input type="checkbox"/>	Event Type	IN	EventTypes: VPN Logon Failure	<input type="checkbox"/>	<input checked="" type="checkbox"/> AND <input type="checkbox"/> OR	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	Source Country	NOT IN	GeoCountries: My Home	<input type="checkbox"/>	<input checked="" type="checkbox"/> AND <input type="checkbox"/> OR	<input type="checkbox"/>

Aggregate:	Paren	Attribute	Operator	Value	Paren	Next	Row
<input type="checkbox"/>	<input type="checkbox"/>	COUNT(Matched Events)	>=	3	<input type="checkbox"/>	<input checked="" type="checkbox"/> AND <input type="checkbox"/> OR	<input type="checkbox"/>

Group By:

Attribute	Row	Move
<input type="text" value="Source IP"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input type="text" value="User"/>	<input type="checkbox"/>	<input type="checkbox"/>

- A. Excessive VPN logon failures from a source inside the home country.
- B. Failed VPN logon attempts from three or more different outside countries.
- **C. Failed VPN logon events from a source outside the home country.**
- D. Failed VPN logon attempts from three or more different sources inside the home country.

Answer: C

Explanation:

The rule matches VPN logon failure events where the Source Country is not part of the GeoCountries group named My Home. The aggregate condition requires at least three matching events grouped by Source IP and User, identifying repeated failed VPN logon attempts from a source outside the home country.

NEW QUESTION # 47

Refer to the exhibit. Why are some of the fields highlighted in red?

Group By and Display Fields

Attribute	Order	Display As	Row	Move
Event Receive Time	DESC		<input type="checkbox"/>	<input type="checkbox"/>
Reporting IP			<input type="checkbox"/>	<input type="checkbox"/>
Event Type			<input type="checkbox"/>	<input type="checkbox"/>
Raw Event Log			<input type="checkbox"/>	<input type="checkbox"/>
COUNT(Matched Events)			<input type="checkbox"/>	<input type="checkbox"/>

- A. No Raw Event Log attribute information is available.
- B. The Event Receive Time attribute is a valid choice to sort by.
- **C. Multiple unique values cannot be grouped.**
- D. The attribute COUNT(Matched Events) is an invalid expression.

Answer: C

Explanation:

The highlighted fields represent attributes that contain multiple unique values and therefore cannot be used together in a grouped aggregation display in the current configuration.

NEW QUESTION # 48

In an automation policy, which two methods can you use to notify analysts when an incident is triggered? (Choose two.)

- A. Syslog
- B. Pop-up window
- C. FortiSIEM Case
- D. Email

Answer: C,D

Explanation:

In FortiSIEM automation policies, analysts can be notified of triggered incidents through FortiSIEM Case (which creates and assigns a case for follow-up) and Email notifications (which send alerts directly to recipients). These methods ensure prompt awareness and response to security events.

NEW QUESTION # 49

Refer to the exhibit. Which two things that happen when this automation policy triggers? (Choose two.)

Automation policy

Automation Policy

Name:

Severity: Low Medium High

Rules: ▼

Time Range: ▼

Affected Items: ▼

Affected Orgs: ▼

Action:

- Send Email/SMS/Webhook to the target users.
- Run Remediation/Script.
- Run Playbook on Incident Trigger.
- Invoke an Integration Policy. Run: no policy
- Create Case when an incident is created.
- Send SNMP message to the destination set in *Admin > Settings > Analytics*.
- Send XML file over HTTP(S) to the destination set in *Admin > Settings > Analytics*.
- Open Remedy ticket using the configuration set in *Admin > Settings > Analytics*.
- Invoke FortiAI and update Comments

Settings:

- Do not notify when an incident is cleared automatically.
- Do not notify when an incident is cleared manually.
- Do not notify when an incident is cleared by system.

Comments:

- A. A clear notification is sent to the SOC manager dashboard.
- B. An email is sent to the defined email.
- C. A remediation script is run.
- D. No notification or remediation is performed.

Answer: B,C

Explanation:

The automation policy has Send Email/SMS/Webhook to the target users enabled, so an email notification is sent. It also has Run Remediation/Script enabled, so the configured remediation script is executed when the policy triggers.

NEW QUESTION # 50

Refer to the exhibit.

Automation Policy

Automation Policy

Name: Automation

Severity: Low Medium High

Rules: Group:Network

Time Range: ANY

Affected Items: ANY

Affected Orgs: Rule:Aviation

Action: Send Email/SMS/Webhook to the target users. Run Remediation/Script. Invoke an Integration Policy. Run: no policy Create Case when an incident is created. Send SNMP message to the destination set in Admin > Settings > Analytics. Send XML file over HTTP(S) to the destination set in Admin > Settings > Analytics. Open Remedy ticket using the configuration set in Admin > Settings > Analytics. Invoke FortiAI and update Comments

Settings: Do not notify when an incident is cleared automatically. Do not notify when an incident is cleared manually. Do not notify when an incident is cleared by system.

Remediation/Script Options

Automation Policy > Define Script/Remediation

Type: Legacy Script Remediation Script

Script: Fortinet FortiOS - Block Source IP FortiOS via API

Protocol: HTTPS

Enforce On: Device:FortiGate50B,Device:FortiGate90D

Run On: Supervisor

VDOM:

< Save < Cancel

If a rule containing the automation policy shown in the exhibit triggers, what will happen?

- A. Associated source IP addresses will be blocked on devices in the Network CMDB group.
- B. Associated source IP addresses will be blocked on devices in the Aviation organization.
- C. Associated source IP addresses will be blocked on all FortiGate firewalls.
- D. Associated source IP addresses will be blocked on two FortiGate firewalls.

Answer: D

Explanation:

The automation policy is configured to run a remediation script named "Fortinet FortiOS - Block Source IP FortiOS via API". It specifies enforcement on two FortiGate devices: FortiGate508 and FortiGate90D. Therefore, associated source IP addresses will be blocked on those two FortiGate firewalls only.

NEW QUESTION # 51

.....

If you hope to get a job with opportunity of promotion, it will be the best choice chance for you to choose the NSE6_FSM_AN-7.4 study question from our company. Because our NSE6_FSM_AN-7.4 study materials have the enough ability to help you improve yourself and make you more excellent than other people. The NSE6_FSM_AN-7.4 Learning Materials from our company have helped a lot of people get the certification and achieve their dreams. And you also have the opportunity to contact with the NSE6_FSM_AN-7.4 test guide from our company.
