

# Test Huawei H19-301\_V3.0 Engine | H19-301\_V3.0 Study Test

P.S. Free & New H19-301\_V3.0 dumps are available on Google Drive shared by Prep4away: [https://drive.google.com/open?id=1-bESiGqb6s1fnpj\\_dbgrTKo7zNEMyQiU](https://drive.google.com/open?id=1-bESiGqb6s1fnpj_dbgrTKo7zNEMyQiU)

To suit customers' needs of the H19-301\_V3.0 preparation quiz, we make our H19-301\_V3.0 exam materials with customer-oriented tenets. Famous brand in the market with combination of considerate services and high quality and high efficiency H19-301\_V3.0 study questions. Without poor after-sales services or long waiting for arrival of products, they can be obtained within 5 minutes with well-built after-sales services.

The H19-301\_V3.0 Certification Exam is a must-have certification for professionals who want to build a successful career in the IP network industry. HCSA-Presales-IP Network Certification V3.0 certification demonstrates that the candidate has the necessary skills to design, plan, and implement IP networks using Huawei's technologies. It also helps professionals to stay up-to-date with the latest IP network technologies and trends.

## Outstanding H19-301\_V3.0 Learning Guide bring you veracious Exam Simulation - Prep4away

Prep4away is famous for high-quality reliable exam bootcamp materials recent years. Our valued customers enjoy the privilege: pass guaranteed; our H19-301\_V3.0 study guide materials find the best meaning in those candidates who have struggled hard to pass the H19-301\_V3.0 certification exams. We have special information resources about many international companies. We promise most Reliable H19-301\_V3.0 Exam Bootcamp materials are the latest version which are edited based on first-hand information. You can rest assured to purchase our H19-301\_V3.0 study guide materials.

## Huawei HCSA-Presales-IP Network Certification V3.0 Sample Questions (Q192-Q197):

### NEW QUESTION # 192

Which of the following statements is FALSE about Huawei's AI roaming technology?

- A. Roaming steering policies are inflexible.
- B. It ensures that different types of STAs can obtain the optimal roaming experience and increases the wireless speeds of roaming STAs by 30%.
- C. It supports differentiated steering based on STA profiles.
- D. It requires STAs to support 802.11V.

Answer: A

Explanation:

Huawei's AI roaming technology enhances wireless network performance by optimizing roaming behavior for client devices (STAs).

Key features include:

- \* Optimal roaming experience: Ensures seamless roaming for different types of STAs, improving wireless speeds by up to 30%.
- \* Flexible steering policies: Supports dynamic and differentiated steering based on STA profiles, making option B FALSE.
- \* 802.11V support: Requires STAs to support the 802.11V standard for efficient roaming.

The claim that roaming steering policies are inflexible is incorrect, as AI roaming leverages intelligent algorithms to adapt policies dynamically based on network conditions and device characteristics.

### NEW QUESTION # 193

Huawei hybrid cable not only can provide long-distance PoE++ power supply, but also can protect customer's investment. How many years of cabling replacement workload does Huawei hybrid cable save in one-time?

- A. 5 years
- B. 6-10 years
- C. 10-15 years
- D. 20 years

Answer: C

### NEW QUESTION # 194

How many types of applications can Huawei SD-WAN Application Identification Technology Center use to identify SA signature databases?

- A. 2000+
- B. 4000+
- C. 6000+
- D. 8000+

Answer: C

### NEW QUESTION # 195

MACsec (Media Access Control Security) is an important feature to ensure security and reliability. Which of the following features does MACsec provide?

- A. Data source authenticity verification
- B. Service data encryption
- C. Replay protection
- D. Data frame integrity check

Answer: A,B,C,D

Explanation:

MACsec (Media Access Control Security) is a Layer 2 security protocol that provides end-to-end encryption for Ethernet frames. It ensures confidentiality, integrity, and authenticity of data on wired networks.

A (Service data encryption): Encrypts Ethernet frames to protect against eavesdropping.

B (Data frame integrity check): Prevents data tampering and corruption.

C (Replay protection): Detects and prevents replay attacks by using unique sequence numbers.

D (Data source authenticity verification): Ensures that received data is from a legitimate source by using cryptographic authentication.

### NEW QUESTION # 196

Unlike managing a device through a console port, managing a device through Telnet does not require connecting to the device with a

cable. The only requirement is that the Telnet client has a reachable address and can communicate with the Telnet service port of the device. Which kind of address should the client have?

- A. VLAN
- **B. IP**
- C. MAC
- D. AS

**Answer: B**

Explanation:

\* **Understanding Telnet:** Telnet is a protocol used for remote management of network devices. Unlike console port management, which requires a physical connection, Telnet operates over the network.

\* **Address Requirement:** For Telnet communication to occur, the client must have an IP address. This is because Telnet relies on the TCP/IP protocol suite, and communication is established using IP addresses.

\* **Why Not Other Options?**

\* **VLAN:** A VLAN (Virtual Local Area Network) is a logical segmentation of a network but does not directly represent an address for communication.

\* **AS:** An Autonomous System (AS) is a collection of IP networks under a single administrative domain, not an address type.

\* **MAC:** A MAC address is a hardware identifier used at Layer 2 of the OSI model. While important for local network communication, it is not sufficient for Telnet, which operates at Layer 3.

\* **Conclusion:** The correct answer is IP, as it is the fundamental addressing scheme required for Telnet communication.

## NEW QUESTION # 197

.....

Prep4away is a website to improve the pass rate of Huawei certification H19-301\_V3.0 exam. Senior IT experts in the Prep4away constantly developed a variety of successful programs of passing Huawei certification H19-301\_V3.0 exam, so the results of their research can 100% guarantee you Huawei certification H19-301\_V3.0 exam for one time. Prep4away's training tools are very effective and many people who have passed a number of IT certification exams used the practice questions and answers provided by Prep4away. Some of them who have passed the Huawei Certification H19-301\_V3.0 Exam also use Prep4away's products. Selecting Prep4away means choosing a success
