- A. Data Relation Management
- B. Data Integration Management
- C. Data Source Management
- D. Data Model Management
- E. Data Object Management

Answer: B,C,D

NEW QUESTION # 41
What are some benefits of'? Note: There are 3 correct answe rs to this questio n.

- A. Visualizes different data sources
- B. Retrieves data and perform calculations
- C. Creates more in-depth process queries
- D. Creates easily process simulations
- E. Visualizes results in detailed charts

Answer: B,C,E

NEW QUESTION # 42
What are the key aspects of the standalone connector?Note: There are 3 correct answ-ers to this que-stion.

Answer:

Explanation:
A.C.E

NEW QUESTION # 43
How would you start capturing process documentation? Note: There are 3 correct answers to this question.

- A. Conducting process interviews
- B. Verifying customer data
- C. Creating process-related surveys
- D. Creating task descriptions
- E. Running workshops with process participants

Answer: A,C,E

Explanation:
Capturing process documentation in SAP Signavio involves gathering detailed information about how processes are executed. The SAP Signavio Process Manager Documentation provides guidance:
* Exact Extract:"To capture process documentation, organizations should:

* Run workshops with process participants to map out process steps and responsibilities.
* Create process-related surveys to collect input from stakeholders on process details.
* Conduct process interviews to gather in-depth insights from key process owners or performers." (SAP Signavio Process Manager User Guide, section on "Process Documentation Methods").
* Explanation:
* Option A (Running workshops with process participants):Workshops bring together stakeholders to collaboratively map processes, identify steps, and document roles, often using tools like SAP Signavio Process Manager for modeling.
* Option D (Creating process-related surveys):Surveys collect feedback from a broader group of process participants, capturing details about tasks, challenges, or variations that may not emerge in workshops.
* Option E (Conducting process interviews):Interviews with process owners or key performers provide detailed, qualitative insights into process execution, helping to refine documentation.
* Option B (Creating task descriptions)is incorrect as task descriptions are an output of documentation, not a method to start capturing it.
* Option C (Verifying customer data)is incorrect because customer data verification is related to data quality, not process documentation.
