ASIS Physical Security Professional Exam Sample Questions (Q108-Q113):

NEW QUESTION # 108
At a minimum, the Physical Protection System (PPS) procurement package consists of:

- A. Training requirements, instruction manuals, and maintenance instructions
- B. Product specs, budgets, and contact information
- C. Contract information and bidders' instructions, system specifications, and drawings
- D. Contractor reference requirements, functional specifications, and as-built drawings

Answer: C

Explanation:
A complete Physical Protection System (PPS) procurement package must include:
Contract terms and conditions
Instructions for bidders
Technical system specifications
Design drawings
This ensures that all vendors have a uniform understanding of the scope and requirements, leading to accurate and comparable proposals.
A, B, and D include valid elements, but only C includes all core components required at minimum.

NEW QUESTION # 109
The measures of effectiveness of entry control include throughput, false acceptance rate, and:

- A. False rejection rate
- B. System obsolescence
- C. Cost
- D. Activation delays

Answer: A

Explanation:
The effectiveness of entry control systems is typically measured by:
Throughput (speed of entry)
False Acceptance Rate (FAR) - unauthorized access
False Rejection Rate (FRR) - denial of access to authorized users
These metrics provide insight into both the security and user experience of the access control system.
A (Cost) is relevant to budgeting, not effectiveness.
B (Activation delays) may affect throughput but isn't a primary measure.
D (System obsolescence) relates to lifecycle, not effectiveness.

NEW QUESTION # 110
Successful implementation of any physical security construction project hinges largely on a well-defined and executed:

- A. Cost analysis
- B. Procurement contract
- C. Request for quotation
- D. Business impact analysis

Answer: B

Explanation:
A clearly defined and executed procurement contract is critical to successful implementation of a physical security construction project. It outlines scope, deliverables, timelines, cost structures, and responsibilities, ensuring all parties operate with aligned expectations and accountability.
A (RFQ) is a pricing request, not a contract.
B (BIA) informs continuity planning, not project execution.

D (Cost analysis) is useful but not foundational for execution.

NEW QUESTION # 111
The common practices in recruiting a jihadist are:

- A. indoctrination
- B. training and preparation for the terrorist act
- C. identifying individuals with appropriate ideology
- D. All of the above

Answer: D

NEW QUESTION # 112
What refers to the number of employees over which any individual can exercise direct supervision effectively?

- A. Span of control
- B. Corporate period
- C. Delegate control
- D. None of the above

Answer: A

Explanation:
Span of control refers to the number of subordinates or direct reports that a manager or supervisor can effectively oversee. A narrower span (fewer direct reports) typically allows for closer supervision, while a wider span may require more autonomy among subordinates.
In security management, span of control helps determine appropriate team structures and resource allocation, especially in large-scale operations.
