Reliable Exam D-PST-OE-23 Pass4sure & D-PST-OE-23 Test Engine

Our company is a professional certificate exam materials provider, therefore we have rich experiences in offering exam dumps. D-PST-OE-23 study materials are famous for high quality, and we have received many good feedbacks from our customers, and they think highly of our D-PST-OE-23 exam dumps. Moreover, we also pass guarantee and money back guarantee, and if you fail to pass the exam, we will give you refund and no other questions will be asked. D-PST-OE-23 Training Materials have free update for 365 days after purchasing, and the update version will be sent to you email automatically.

EMC Dell PowerStore Operate 2023 Exam Sample Questions (Q57-Q62):

NEW QUESTION # 57

A Storage Administrator is adding an appliance into an existing Dell PowerStore T cluster.

What is different about the management network configuration for the new appliance compared to configuring an initial appliance for the cluster?

- A. All the needed management IP addresses for the new appliance are auto-generated by the cluster
- B. Additional appliance does not require a cluster management IP address
- C. Additional appliance inherits all its management IPs from the existing appliance
- **D. All the needed management IP addresses for the new appliance must be pre-configured on the cluster**

Answer: D

Explanation:

Each appliance must have Management and Storage networks configured. Management networks connect the cluster to management services such as DNS, NTP, and vCenter. The management network also enables external clients to access the cluster. The Storage network connects the cluster to an existing storage network or establishes a new network within the cluster. It also enables external clients to access the storage in the cluster. Both the Management and Storage networks require at least three IP addresses

NEW QUESTION # 58

What features distinguish PowerStore's architecture? Select all that apply.

- A. Dual-active controller architecture
- B. Direct liquid cooling systems
- C. Built-in SAN optimization
- D. End-to-end NVMe support

Answer: A,D

NEW QUESTION # 59

A Storage Administrator wants to upgrade a two appliance Dell PowerStore cluster. Which Commit options need to be chosen to have all appliances upgraded in the last step?

- A. Cluster, Appliance
- B. Cluster, Cluster
- C. Appliance, Appliance
- D. Appliance, Cluster

Answer: D

Explanation:

Appliance

- Deletes old docker images and packages
- Moves to next appliance

Cluster

- All appliances upgraded
- Marks new version as current
- Deletes old package name in GUI

NEW QUESTION # 60

Which of the following components are integral to the PowerStore architecture? Select all that apply.

- A. Scale-out NAS clusters
- B. In-memory database
- C. Unified storage with active-active replication
- D. NVMe flash storage

Answer: C,D

NEW QUESTION # 61

What best practice should be followed for monitoring VMware storage resources on PowerStore?

- A. Monitoring only during business hours to reduce performance impact
- B. Relying solely on PowerStore's built-in monitoring tools
- C. Utilizing VMware vRealize Operations for comprehensive analytics and reporting
- D. Conducting manual checks on a monthly basis

Answer: C

NEW QUESTION # 62

.....

After you practice our study materials, you can master the examination point from the D-PST-OE-23 exam torrent. Then, you will have enough confidence to pass your exam. We can succeed so long as we make efforts for one thing. As for the safe environment and effective product, why don't you have a try for our D-PST-OE-23 Test Question, never let you down! Before your purchase, there is a free demo for you. You can know the quality of our D-PST-OE-23 guide question earlier.
