## Master The Open Group OGEA-103 Exam Topics

No study materials can boost so high efficiency and passing rate like our OGEA-103 exam reference when preparing the test

OGEA-103 certification. Our OGEA-103 exam practice questions provide the most reliable exam information resources and the most authorized expert verification. Our test bank includes all the possible questions and answers which may appear in the Real OGEA-103 Exam and the quintessence and summary of the exam papers in the past. You can pass the OGEA-103 exam with our OGEA-103 exam questions.

The OGEA-103 Exam is designed to test the candidate's understanding of the TOGAF framework, its components, and its application in real-world scenarios. OGEA-103 exam covers a range of topics, including the TOGAF Architecture Development Method (ADM), architectural content framework, enterprise continuum, architecture governance, and more. OGEA-103 Exam is conducted online and consists of multiple-choice questions.

## The Open Group TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam Sample Questions (Q16-Q21):

### NEW QUESTION # 16

Consider the following ADM phase objectives.

#

Objective

1

Determine whether an incremental approach is required, and if so identify Transition Architectures that will deliver continuous business value

2

Generate the initial complete version of the Architecture Roadmap, based upon the gap analysis and candidate Architecture Roadmap components from Phases B, C, and D

3

Finalize the Architecture Roadmap and the supporting Implementation and Migration Plan

4

Ensure that the business value and cost of work packages and Transition Architectures is understood by key stakeholders Which two are objectives of ADM Phase F?

- A. 1 & 3
- B. 1 & 2
- C. 3 & 4
- D. 2 & 3

**Answer: C**

Explanation:

Comprehensive and Detailed In-Depth Explanation from Expert in Enterprise Architecture, guiding in TOGAF and ArchiMate: ADM Phase F (Migration Planning) focuses on finalizing the Architecture Roadmap and Implementation and Migration Plan and ensuring they are viable, cost-effective, and clearly understood by decision-makers.

Phase F key objectives include:

- \* Finalizing the Architecture Roadmap
- \* Finalizing the Implementation and Migration Plan
- \* Ensuring costs, benefits, risks, and dependencies of work packages and Transition Architectures are understood
- \* Gaining approval for implementation sequencing and priorities

Why Option A is correct:

- \* Objective 3 directly states the finalization of the Architecture Roadmap and supporting Implementation and Migration Plan, which is a core Phase F responsibility.
- \* Objective 4 aligns with Phase F's requirement to ensure that business value, cost, and trade-offs are understood by stakeholders prior to implementation approval.

Why the other options are incorrect:

- \* Objective 1 belongs primarily to Phase E (Opportunities and Solutions), where incremental delivery and Transition Architectures are identified.
- \* Objective 2 also belongs to Phase E, where the initial complete Architecture Roadmap is generated from Phases B, C, and D outputs.

Authoritative TOGAF References:

- \* TOGAF ADM Phase F - Migration Planning
- \* TOGAF Architecture Roadmap and Implementation and Migration Plan

### NEW QUESTION # 17

Which of the following best describes the need for the ADM process to be governed?

- A. To permit the architecture domains to be integrated
- **B. To verify that the method is being applied correctly**
- C. To enable development of reference architectures
- D. To enable a fast response to market changes

**Answer: B**

Explanation:

Explanation

According to the TOGAF standard, the need for the ADM process to be governed is to ensure that the architecture development and implementation activities are conducted in a consistent, coherent, and compliant manner<sup>1</sup>. Governance provides the means to verify that the method is being applied correctly and effectively, and that the architecture deliverables and artifacts meet the quality and standards criteria<sup>1</sup>. Governance also enables the management of risks, issues, changes, and dependencies that may arise during the ADM process<sup>1</sup>.

Some of the benefits of governing the ADM process are<sup>2</sup>:

\*Improved alignment of the architecture with the business strategy and objectives

\*Enhanced stakeholder engagement and communication

\*Increased reuse and integration of architecture assets and resources

\*Reduced complexity and duplication of architecture efforts

\*Increased agility and adaptability of the architecture to changing needs and requirements

\*Improved compliance and auditability of the architecture outcomes and outputs

### NEW QUESTION # 18

Which phase of the ADM has the purpose to develop an Enterprise Architecture Capability?

- A. Phase A
- B. Phase B
- C. Phase G
- **D. Preliminary Phase**

**Answer: D**

Explanation:

According to the TOGAF Standard, 10th Edition, the Preliminary Phase of the Architecture Development Method (ADM) has the purpose to develop an Enterprise Architecture Capability<sup>1</sup>. An Enterprise Architecture Capability is the ability of the organization to perform the activities and tasks related to Enterprise Architecture, such as defining the scope, principles, vision, governance, and stakeholders of the architecture. The Preliminary Phase also establishes the architecture framework, the architecture repository, the architecture tools, and the architecture team<sup>1</sup>. The other options are not correct, as they have different purposes in the ADM. Phase G: Implementation Governance has the purpose to ensure that the implementation projects conform to the target architecture<sup>2</sup>.

Phase A: Architecture Vision has the purpose to define the scope, stakeholders, business drivers, and objectives of the architecture project<sup>3</sup>. Phase B:

Business Architecture has the purpose to describe the baseline and target business architecture, and to identify the gaps between them. References: 1: TOGAF Standard, 10th Edition, Part II: Architecture Development Method, Chapter 6: Preliminary Phase. 2: TOGAF Standard, 10th Edition, Part II: Architecture Development Method, Chapter 18: Phase G: Implementation Governance. 3: TOGAF Standard, 10th Edition, Part II:

Architecture Development Method, Chapter 12: Phase A: Architecture Vision. : TOGAF Standard, 10th Edition, Part II:

Architecture Development Method, Chapter 13: Phase B: Business Architecture.

### NEW QUESTION # 19

Which of the following best summarizes the purpose of Enterprise Architecture?

- A. Controlling the bigger changes.
- B. Governing the Stakeholders.
- **C. Guiding effective change.**
- D. Taking major improvement decisions.

**Answer: C**

Explanation:

Explanation

EA applies architecture principles and practices to analyze, design, plan, and implement enterprise analysis that supports digital transformation, IT growth, and the modernization of IT2. EA also helps organizations improve the efficiency, timeliness, and reliability of business information, as well as the alignment, agility, and adaptability of the architecture to the changing needs and requirements3. Therefore, the best summary of the purpose of EA is to guide effective change.

### NEW QUESTION # 20

Which section of the TOGAF template for Architecture Principles should describe the relationship to other principles?

- A. Name
- B. Statement
- C. Rationale
- **D. Implications**

**Answer: D**

Explanation:

The implications section of the TOGAF template for Architecture Principles should describe the relationship to other principles. Implications are statements that describe how a principle will impact other principles, as well as other aspects of the enterprise such as business processes, organizational structures, roles and responsibilities, standards, etc. Implications help to identify potential conflicts or synergies among principles and to assess their feasibility and applicability. Reference: The TOGAF Standard | The Open Group Website, Section 3.3.7 Architecture Principles.
