NEW QUESTION # 237

What is the most complete definition of the difference between the Install Policy button on the SmartConsole's tab, and the Install Policy within a specific policy?

- A. The local one does not install the Anti-Malware policy along with the Network policy.
- **B. The second one pre-select the installation for only the current policy and for the applicable gateways.**
- C. The Global one also saves and published the session before installation.
- D. The Global one can install multiple selected policies at the same time.

Answer: B

Explanation:

The difference between the Install Policy button on the SmartConsole's tab and the Install Policy within a specific policy is that the former installs all the policies that are selected in the Install Policy window, while the latter pre-selects the installation for only the current policy and for the applicable gateways⁵. The other options are not accurate differences. Installing Policies, [Check Point CCSA - R81: Practice Test & Explanation]
