## Accredited-Professional Reliable Test Sample

Living in such a world where competitiveness is a necessity that can distinguish you from others, every one of us is trying our best to improve ourselves in every way. It has been widely recognized that the Health-Cloud-Accredited-Professional Exam can better equip us with a newly gained personal skill, which is crucial to individual self-improvement in today's computer era. With the certified advantage admitted by the test Salesforce certification, you will have the competitive edge to get a favorable job in the global market.

Salesforce Health-Cloud-Accredited-Professional Exam is designed to test the knowledge and skills of professionals who work with the Salesforce Health Cloud platform. Salesforce Health Cloud Accredited Professional certification is ideal for those who want to demonstrate their expertise in implementing, configuring, and managing the Health Cloud platform for healthcare organizations. Health-Cloud-Accredited-Professional exam is designed to validate the ability of the professionals to use Health Cloud to its full potential, enabling them to provide better patient care and outcomes.

To obtain the Salesforce Health-Cloud-Accredited-Professional certification, individuals must pass a certification exam that tests their knowledge of the various features of the Health Cloud platform. Health-Cloud-Accredited-Professional exam is designed to test an individual's ability to configure and manage patient data, manage care plans, and understand the various features of the platform. Health-Cloud-Accredited-Professional Exam also tests an individual's knowledge of healthcare compliance and regulatory requirements.

Salesforce Health Cloud Accredited Professional is a certification exam designed for professionals who are interested in working with Salesforce Health Cloud. The Salesforce Health Cloud is a platform that helps healthcare providers to manage their patients' medical information in a secure and efficient way. It enables healthcare professionals to collaborate and communicate with each other, as well as with their patients, to provide the best possible care.

## Salesforce Health Cloud Accredited Professional Sample Questions (Q25-Q30):

### NEW QUESTION # 25

A Salesforce Admin wants to create tasks within a Care Plan that is related to a specific problem or goal.

Which three different locations in the Health Cloud console can be used to create tasks related to a specific problem or goal within a Care Plan? (Choose three.)

- A. Timeline Tab
- B. Care Team
- C. Patient List
- D. Care Plan page
- E. Household Tab

**Answer: B,C,D**

### NEW QUESTION # 26

Which two fields are required when creating a new care plan task?

- A. Due Date
- B. problem
- C. owner
- D. Goal
- E. Status

**Answer: C,E**

Explanation:

Owner (A) and Status are two fields that are required when creating a new care plan task. Problem (B), Goal (D), and Due Date (E) are optional fields when creating a new care plan task.

### NEW QUESTION # 27

Bloomington Caregivers needs to easily view all of the complex associations between patients, personal relationships, healthcare

practitioners, other people, and organizations in healthcare.

Which Health Cloud feature should a consultant leverage to meet this requirement?

- A. Care Team
- **B. Actionable Relationship Center**
- C. Enhanced Timeline
- D. Patient Card

**Answer: B**

Explanation:

The Actionable Relationship Center (ARC) in Salesforce Health Cloud provides a 360-degree view of complex associations between patients, their personal relationships, healthcare practitioners, and organizations. It visually represents these relationships in an interactive graph, helping care coordinators understand and manage these connections effectively.

Key Features of ARC:

Relationship Visualization: Displays all relevant relationships for a patient, including family members, caregivers, and healthcare providers.

Interactive Interface: Users can click on entities to view detailed information and take actions like assigning tasks or sending messages.

Customization: Supports the addition of custom relationship types tailored to the organization's needs.

Why Other Options Are Incorrect:

Care Team: Focuses on defining and managing members of the care team but does not provide a visual representation of all relationships.

Enhanced Timeline: Tracks patient interactions chronologically but does not map relationships.

Patient Card: Displays patient-specific information but lacks relationship visualization capabilities.

#### NEW QUESTION # 28

Which three of the following statements are true about Care Plan Templates? (Choose Three.)

- **A. When creating a care plan with a template you can unselect tasks so they will not be included.**
- **B. The sort order of the Task group by Fields can be changed under custom setting task group.**
- C. Care plan templates can only be used when creating a new care plan.
- **D. Care plan templates must include at least 1 problem, 1 goal and 1 task.**
- E. When creating a care plan with a template you can change the offsets of the tasks.

**Answer: A,B,D**

Explanation:

When creating a care plan with a template you can unselect tasks so they will not be included (A), the sort order of the Task group by Fields can be changed under custom setting task group (B), and care plan templates must include at least 1 problem, 1 goal and 1 task are true statements about Care Plan Templates. When creating a care plan with a template you can change the offsets of the tasks (D) is false, as you can only change the offsets of the tasks when creating a care plan without a template. Care plan templates can only be used when creating a new care plan (E) is false, as you can also use care plan templates when editing an existing care plan.

#### NEW QUESTION # 29

Which Three items can be a Life Science company track about a Care Programs using Program Management? (Choose Three. (Repeated question)

- A. The clinical indicators that need to be monitored in the care programs
- **B. The plans that enrollees have been engaged in as part of the care program**
- C. The budget & Expenses of the company's associate Care Program
- **D. The multiple marketing campaigns that enrollees are subjected to as part of the Care Program**
