New API-936 Study Materials & API-936 Questions Answers

The API-936 exam questions that Prep4away provide with you is compiled by professionals elaborately and boosts varied versions: PDF version, Soft version and APP version, which aimed to help you pass the API-936 exam by the method which is convenient for you. Our API-936 training braindump is not only cheaper than other dumps but also more effective. The high pass rate of our API-936 study materials has been approved by thousands of candidates, they recognized our website as only study tool to pass API-936 exam.

API-936 (Refractory Personnel) Exam is an internationally recognized certification program designed for professionals who work in the field of refractory installation and inspection. The API-936 Certification validates the knowledge and skillset of refractory personnel in the areas of installation, inspection, testing, and repair of refractory materials in high-temperature industrial settings. Refractory Personnel certification is issued by the American Petroleum Institute (API) and is widely accepted in the oil and gas industry.

API Refractory Personnel Sample Questions (Q47-Q52):

NEW QUESTION # 47

Materials having refractory properties which form a refractory body when bonded into a conglomerate mass by a matrix is called

- A. Refractory mass
- B. Cementitious concrete
- C. Refractory aggregate
- D. None of the above

Answer: C

NEW QUESTION # 48

As installed testing is the terminology for testing refractory that was sampled during installation in order to confirm that they meet specified.

- A. Chemical property standards
- **B. Physical property standards**
- C. Both as above
- D. None of the above

Answer: B

NEW QUESTION # 49

The effective diameter of metal fiber is

- **A. 0.3 - 0.6 mm**
- B. 0.4 - 0.8mm
- C. 0.2 - 0.3mm
- D. None of the above

Answer: A

NEW QUESTION # 50

Metallic anchor made from rod or bar and usually used for dual layer linings that are configured in

- **A. Y shape**
- B. All of the above
- C. V shape
- D. U shape

Answer: A

NEW QUESTION # 51

For the qualification of the applicator/installer, they shall demonstrate their ability to install the refractory:

- A. free of visible voids, laminations on the hot face or working surface only for gunned lining.
- B. free of visible voids, laminations on the hot face or working surface only of the refractory lining.
- **C. to meet the specified quality standards utilized for the installation of work.**
- D. by using the technique prescribed by the manufacturer no matter which material is used.

Answer: C

Explanation:

API 936 clearly states that applicators/installers must be qualified to demonstrate the ability to install refractory linings in accordance with the specified project quality standards. This includes using the correct methods, achieving proper material density, and avoiding defects like voids and laminations.

Reference: API Std 936, Section 4.2 - Installer Qualifications: "Installers shall demonstrate their ability to install the refractory system to meet the specified quality standards prior to beginning production work."
