NEW QUESTION # 104

What is the demand workbench used for?

Choose 2 answers

- A. Comparing demands with portfolios
- B. Approving ideas
- C. Comparing and prioritizing demands against other demands
- D. Approving demands

Answer: A,C

Explanation:

The demand workbench is a feature of ServiceNow Demand Management that allows you to view and assess business demands in a single place. You can use the demand workbench to compare demands with portfolios and see how they align with your strategic goals and objectives. You can also use the demand workbench to compare and prioritize demands against other demands based on their scores, risks, and benefits. You can find more information about the demand workbench in the Product Documentation for ServiceNow.

NEW QUESTION # 105

If an it_project_manager does not want to equally distribute hours across the resource plan time frame, what allocation spread should be used?

- A. Even.
- B. Any.
- C. Front Load.
- D. Back Load.

Answer: B

Explanation:

If an it_project_manager does not want to equally distribute hours across the resource plan time frame, the allocation spread should be set to Any. This option allows the it_project_manager to manually enter the hours for each month or quarter in the resource plan. The other options (Even, Back Load, and Front Load) automatically distribute the hours evenly, from the end, or from the start of the time frame, respectively. You can find more information about the allocation spread in the Product Documentation for ServiceNow.
