PRINCE2 Practitioner Exam Sample Questions (Q129-Q134):

NEW QUESTION # 129

Scenario

A photographer from Portraits Ltd, a professional photographic company, has taken on the role of Team Manager after taking some time to understand the requirements of the project. A contract for their services has been set up and is being monitored by the Purchasing Manager and a Work Package has been agreed. This contract specifies that the photographer must arrange a meeting with the Engineering Manager to establish a schedule for the photo sessions to minimize the impact on the Engineering staff. This meeting should have occurred by now.

The Engineering Manager was made aware of this requirement but when asked he reported that he has received no communication from the photographer. The Project Manager has tried to call the photographer and has had no response. The Project Manager believes there is a risk that Portraits Ltd are overbooking work and prioritizing other clients' work. If Portraits Ltd do not deliver on schedule the project will be delayed and the expected benefits will be reduced.

The contract is to be reviewed and Portraits Ltd reminded of their agreement.

The project is now in stage 2. The Project Manager has heard about the possibility of a competitor also producing a calendar to be delivered earlier than the target date for this project. There is a threat that the early release of a competitor's calendar may weaken the impact of the MNO Manufacturing Company calendar, thereby reducing the anticipated benefits of the Calendar project.

Which 2 statements should be recorded under the Proximity heading?

- A. Proximity categories for this project are: Imminent; Within the stage; Within the project; Beyond the project.
- **B. Imminent risks are those which may occur within two weeks.**
- C. The risk of staff leaving the organization will be categorized as beyond the project proximity.
- D. The risk of MFH having no outsourcing experience will be categorized as Stage 4 proximity.
- **E. Any risk with a proximity category of imminent will be estimated as having a very high impact.**

Answer: B,E

NEW QUESTION # 130

Which 2 statements should be recorded under the Major risks heading?

- **A. The initial estimates, taken from the feasibility study report, indicate that the project will take two years to complete, which means that the business problems would remain for this period.**
- B. Due to market conditions a suitable service provider may not be found, possibly leading to premature closure of the project.
- **C. Owing to employment contract changes staff may resist outsourcing, which would make it difficult to transfer staff to the selected service provider.**
- D. The management stages recommended by the consultants may not be appropriate, resulting in confusion in planning.
- E. MFH's operations may be reduced and the 1a-year contract may not achieve its estimated value of £80m, which would reduce the service provider's profit.

NEW QUESTION # 131

None of the reviewers have proof-reading skills.

- A. No action required.
- B. Ask the reviewers present at the meeting to conduct a proof-reading exercise and pass any comments to the author within 2 days.
- **C. Record an action to request that Project Assurance identify a proof-reader who can, within the next 2 days, complete the check for typographical errors.**
- D. Contact Project Assurance to find appropriate resources to come into the review.

Answer: C

NEW QUESTION # 132

Project Scenario - Health and Safety Training Project:

ABC Company is a well-established training company that uses a standard model to develop training materials and deliver courses to customers.

ABC Company has commissioned a project in response to recent changes in government legislation relating to health and safety on construction sites. The project will deliver "capability to provide health and safety training", including the materials needed for classroom-based training and e-learning. The expected benefits for construction companies include a reduction in lost days and legal costs due to accidents.

The e-learning course will be developed by a specialist external consultancy. The materials for classroom-based training will be delivered by ABC Company's development team. All course materials will be piloted before they are used. ABC Company will deliver training to its customers and also hopes to sell the course materials to other training companies as part of their operational business. ABC Company will use their own sales and marketing departments to promote the courses.

The legislation requires construction companies to comply with the new legislation within two years. The course materials and trainers have to be accredited by a government agency before courses can be delivered.

ABC Company is planning to deliver pilot courses within five months of starting the project.

The ABC Company standard development model for new courses recommends the following stages:

Stage 1	Initiation stage
Stage 2	Classroom-based training materials Marketing materials Training venue specifications Accredited classroom-based course
Stage 3	E-learning course Amended course booking procedures Marketed courses Planned pilot courses Updated corporate quality procedures Accredited e-learning course Accredited trainers
Stage 4	Delivered pilot courses Finalized materials Project product: Capability to provide health and safety training

End of the Project scenario.

Additional Information:

The Chief Executive Officer (CEO) founded the company five years ago. Under her leadership, ABC Company has grown quickly into a successful training company. It delivers a range of accredited professional training.

The Finance Director is also a founder member of ABC Company and is responsible for authorizing budgets for the Operations and Development Teams. She authorizes all large contracts personally.

The Purchasing Manager reports to the Finance Director and is responsible for managing and monitoring supplier contracts.

The Operations Director is responsible for the delivery of all training and for the training development budget. His department organizes courses, venues and trainers. They work with the Product and the Sales teams to provide a comprehensive training schedule. ABC Company's IT manager reports to the Operations Director.

The Business Development Director has recently been appointed to identify new training needs and propose new products. She will work with the Operations Director to ensure a cost-conscious approach and that appropriate development technologies are used for the health and safety course.

The Training Development Manager reports to the Business Development Director and is responsible for developing training materials and gaining accreditation, in accordance with the standard course development model. Course developers in his team have skills in a range of development technologies and are allocated to projects as needed.

The Training Delivery Manager, who reports to the Operations Director, is responsible for ensuring that internal and external trainers deliver ABC Company training courses to the required standard. He also checks course materials to ensure they are fit for purpose and of the required quality.

The Central Services Director has responsibility for corporate communications, facilities management and configuration management. He recently led a project to consolidate all company quality systems into one quality management system and set up a corporate quality department, now managed by the Corporate Quality Manager.

The Corporate Document Manager reports to the Central Services Director. She helped establish the company's document management system and now operates it across the business. She manages a team of administrators and contracts staff when workload is high.

The Sales Director joined ABC Company two months ago and is keen to establish himself by suggesting new markets for the courses and material. All account managers and the marketing team report to him. They promote existing training courses to other training companies and existing customers.

End of the additional information.

The executive identified that there would be a benefit to the construction companies as their working time lost due to accidents would be reduced. This was included as a benefit to ABC Company in the business case for the Health and Safety Training Project. Is this appropriate, and why?

- A. No, because ABC Company will not achieve their benefits if construction companies do not book the courses.
- B. Yes, because both tangible and intangible benefits should be included in the business case.
- **C. Yes, because the benefits to the customer are an essential part of business justification for a project.**
- D. No, because it is the customer's benefits that should be used to justify the project business case.

Answer: C

NEW QUESTION # 133

After preparing the stage 3 plan, the project manager left the company. The project board has decided that, as the stage plan has been agreed, it will not appoint a project manager for stage 3. The team managers will report directly to the project board and will prepare highlight reports instead of checkpoint reports.

Is this an appropriate tailoring of the roles in the 'managing a stage boundary' process?

- A. No, because the team managers should not share the responsibilities of the project manager.
- B. No, because the reporting in the 'controlling a stage' process should not be changed.
- C. Yes, because the team managers should have the information required to prepare highlight reports.
- D. Yes, because work may be delegated to those with the necessary skills, such as a team manager.
