Reliable UiAAAv1 Exam Simulations, UiAAAv1 Valid Study Questions

UiPath UiAAAv1 exam questions are the best because these are so realistic! It feels just like taking a real UiPath UiAAAv1 exam, but without the stress! Our UiPath UiAAAv1 Practice Test software is the answer if you want to score higher on your real UiPath UiAAAv1 certification exam and achieve your academic goals.

UiPath Agentic Automation Associate Sample Questions (Q52-Q57):

NEW QUESTION # 52

Scenario: A Citrix Administrator maintains a Citrix Virtual Apps and Desktops Site with a number of network print servers being used for all users. Currently, the print servers use native Windows drivers. No client printers are being used. New company guidelines require a reduction in the number of native drivers being used within the Site infrastructure. Which step can the administrator take to meet the new company guidelines?

- A. Install the Universal Print Server on all print servers in the Site and leave the default Universal printer driver usage policy setting.
- **B. Install the Universal Print Server on all print servers in the Site and update the Universal printer driver usage policy setting.**
- C. Configure the Citrix Universal Generic Printer and update the Auto-create generic universal printer policy setting.
- D. Enable the Citrix Universal Print Driver (EMF) driver and leave the default Universal printer driver usage policy setting.

Answer: B

Explanation:

By installing the Citrix Universal Print Server and configuring the Universal printer driver usage policy, print servers can use the Citrix Universal Print Driver instead of multiple native Windows drivers. This reduces the number of drivers in the environment while ensuring centralized network printing remains functional.

NEW QUESTION # 53

Scenario: A Citrix Administrator maintains a Citrix Virtual Apps and Desktops Site with a large number of Windows users running various locally attached client printers. No network printers are being used. The administrator has enabled the HDX printer mapping policy to 'Auto-create all client printers', which has resulted in a large number of drivers being loaded onto the Virtual Delivery Agent (VDA) machines. New standards are requiring the administrator to limit these Windows drivers on the VDA machines. Which printing feature can the administrator enable to meet the new standards?

- A. The Auto-create PDF universal printer policy
- B. The Citrix Universal Print Server
- C. The Citrix Universal Printer Driver
- D. The Auto-create local (non-network) client printers only policy

Answer: C

Explanation:

Enabling the Citrix Universal Printer Driver allows client printers to be auto-created without requiring individual printer drivers to be installed on the VDA machines. This standardizes printing, reduces driver sprawl, and meets compliance requirements by minimizing the number of Windows drivers on the VDAs.

NEW QUESTION # 54

Which of the following is NOT a feature of Citrix StoreFront?

- A. Workspace Control
- B. Auto-Launch Desktop
- C. Store Favorites (Subscriptions)
- D. Auto Client Reconnect

Answer: D

Explanation:

Auto Client Reconnect is a feature of the Citrix client (Citrix Workspace app), not StoreFront.

StoreFront provides features such as auto-launch desktop, workspace control, and favorites (subscriptions) for resource access and management.

NEW QUESTION # 55

Which machine catalog supports the deployment of image updates using Citrix Studio?

- A. Manual provisioning
- B. Citrix Provisioning
- C. Remote PC Access
- D. Machine Creation Services

Answer: D

Explanation:

Machine Creation Services (MCS) integrates with Citrix Studio to manage and deploy image updates. When the master image is updated, MCS can roll out those changes to all machines in the catalog, making it the catalog type that supports image updates directly from Studio.

NEW QUESTION # 56

Scenario: A Citrix Administrator is working on a published application. The network is connected for 100 seconds but is interrupted

and applications become unusable. The session then automatically resumes, and the administrator is able to continue working on the application at the same progress point as before the interruption.

Which policy is enabled in this scenario?

- **A. Session Reliability**
- B. Load Management
- C. Auto client reconnect
- D. ICA Keep Alive

Answer: A

NEW QUESTION # 57

.....

Our UiAAAv1 guide torrent is compiled by experts and approved by the experienced professionals. They are revised and updated according to the change of the syllabus and the latest development situation in the theory and practice. The language is easy to be understood to make any learners have no learning obstacles and our UiAAAv1 study questions are suitable for any learners. Our UiAAAv1 study questions are linked tightly with the exam papers in the past and conform to the popular trend in the industry. Our product convey you more important information with less amount of the questions and answers. Thus we can be sure that our UiAAAv1 guide torrent are of high quality and can help you pass the exam with high probability.
