Reliable GH-100 Exam Syllabus - Testking GH-100 Exam Questions

Our GH-100 study materials can have such a high pass rate, and it is the result of step by step that all members uphold the concept of customer first. If you use a trial version of GH-100 training prep, you can find that our study materials have such a high passing rate and so many users support it. After using the trial version, we believe that you will be willing to choose GH-100 Exam Questions.

Microsoft GitHub Administration Sample Questions (Q27-Q32):

NEW QUESTION # 27
Which events from the audit log are exposed by the GraphQL API? Each answer presents a complete solution. (Choose three.)

- A. changes in permissions
- B. promoting users to administrators
- C. pushes to repositories
- D. changes to permissions of a GitHub App
- E. cloning of repositories

Answer: A,B,D

Explanation:
The GraphQL Audit Log API surfaces entries whenever repository or organization permissions are changed ("Changes permissions").
It records when users are elevated to administrative roles ("Promotes users to admin").
It logs alterations to a GitHub App's granted permissions ("Changes permissions of a GitHub App").

NEW QUESTION # 28
Which of the following GitHub token types supports fine-grained repository permissions AND is recommended for CI/CD automation?

- A. Device Tokens
- B. GitHub App Installation Access Tokens
- C. Personal Access Tokens (PATs)
- D. OAuth tokens

Answer: B

Explanation:
GitHub App Installation Access Tokens are privileged to the exact permissions you grant the App - down to individual repositories - and rotate automatically, making them the recommended choice for CI/CD automation workflows that demand least-privilege, fine-grained access.

NEW QUESTION # 29
Which of the following accurately contrasts a GitHub App and a GitHub Action?

- A. GitHub Actions are limited to reading repository content only
- B. GitHub Apps run only on GitHub-provided virtual machines, while GitHub Actions run only on customer-hosted machines
- C. GitHub Apps can only be used inside .github/workflows
- D. GitHub Actions can only be used to respond to events within a single repository while GitHub Apps can respond to events from multiple repositories

Answer: D

Explanation:
GitHub Actions workflows are defined and triggered within a single repository's context, whereas GitHub Apps are installed at the organization or user level and can subscribe to events across multiple repositories.

NEW QUESTION # 30
In a GitHub repository using Dependabot, which of the following best describes the purpose of the .github/dependabot.yml file?

- A. It configures scheduling, package ecosystems, and target directories for update checks.
- B. It encrypts dependency versions before storing them in the repo.
- C. It lists commit SHAs to exclude from automatic pull requests.
- D. It enables GitHub to scan for secrets in dependency files.

Answer: A

Explanation:
The .github/dependabot.yml file defines Dependabot's package-ecosystem, the directories to inspect, and the update schedule (daily/weekly/monthly), controlling when and where Dependabot checks for new versions.

NEW QUESTION # 31
How does metered billing work in GitHub Enterprise Cloud with Enterprise Managed Users (EMU)?

- A. Billing is based on the number of users created in Azure AD
- B. Billing is based on owners and members of GitHub organizations
- C. Billing is based on total users in the enterprise that are not dormant
- D. Billing is based on number of total users in the enterprise

Answer: D

Explanation:
Billing for GitHub Enterprise Cloud under metered (usage-based) billing is calculated by the total number of Enterprise Managed

Users (and other license-consuming accounts) in your enterprise - each EMU consumes a seat and contributes to the monthly bill.

NEW QUESTION # 32

......

The greatest product or service in the world comes from the talents in the organization. Talents have given life to work and have driven companies to move forward. Paying attention to talent development has become the core strategy for today's corporate development. Perhaps you will need our GH-100 Learning Materials.
