And don't worry about how to pass the test, Prep4pass certification training will be with you.

SAP Certified Associate - Managing SAP S/4HANA Cloud Public Edition Projects Sample Questions (Q79-Q84):

NEW QUESTION # 79

In the SAP Activate run phase the new system is monitored, maintained, and optimized to ensure it runs smoothly and efficiently. Which change management activity can only be realized in the run phase of the cloud implementation?

- A. Measurement of actual user adoption metrics
- B. Conduction of a pulse check
- C. Development of the user adoption strategy
- D. Mapping of SAP roles to employees

Answer: A

Explanation:

The Run phase of the SAP Activate methodology focuses on operating, monitoring, and optimizing the SAP S/4HANA Cloud Public Edition system post-go-live. Certain change management activities are unique to this phase due to their reliance on live system usage.

* Option A: Mapping of SAP roles to employees Incorrect. Role mapping occurs in the Explore or Realize phases, when business roles are aligned with employee responsibilities. The SAP S/4HANA Cloud Security Guide states, "Role mapping is completed pre-go-live to ensure users have appropriate access upon system activation."

* Option B: Development of the user adoption strategy Incorrect. The user adoption strategy is developed in the Prepare or Explore phases to guide change management efforts. The SAP S/4HANA Cloud OCM Guide notes, "The user adoption strategy is defined early in the project to drive effective change management throughout the implementation."

* Option C: Measurement of actual user adoption metrics Correct. Measuring actual user adoption metrics, such as system usage or process adherence, can only occur in the Run phase when the system is live and users are actively engaging with it. The SAP Activate Methodology Guide explains, "In the Run phase, change management includes measuring actual user adoption metrics to assess the effectiveness of adoption efforts and identify areas for improvement."

* Option D: Conduction of a pulse check Incorrect. Pulse checks, which gauge stakeholder sentiment, can be conducted in multiple phases, including Prepare and Explore, to monitor change readiness. The SAP OCM Guide clarifies, "Pulse checks are performed throughout the project lifecycle to assess stakeholder engagement, not exclusively in the Run phase." Extract from Official Documentation:

* SAP Activate Methodology Guide (SAP Community, <https://community.sap.com>): "The Run phase includes unique change management activities such as measuring actual user adoption metrics, which rely on live system data to evaluate the success of adoption initiatives."

* SAP S/4HANA Cloud OCM Guide (SAP Help Portal, <https://help.sap.com>): "Measuring user adoption metrics is a Run phase activity that assesses how effectively users are engaging with the SAP S/4HANA Cloud system, enabling targeted optimization efforts."

Additional Context:

Measuring user adoption metrics in the Run phase provides actionable insights into system usage, helping organizations refine training, address resistance, and maximize ROI. This activity is unique to the post-go-live environment, distinguishing it from planning or preparatory change management tasks.

:

SAP Help Portal: SAP S/4HANA Cloud OCM Guide (<https://help.sap.com>).

SAP Community: SAP Activate Methodology Guide (<https://community.sap.com>).

SAP S/4HANA Cloud Security Guide: Details role mapping.

SAP S/4HANA Cloud Study Guide: Explains Run phase activities.

NEW QUESTION # 80

Which solution is designed to help customers understand their environmental, social, and governance (ESG) data?

- A. SAP Responsible Design and Production
- B. SAP Sustainability Footprint Management
- C. SAP Green Token
- D. SAP Sustainability Control Tower

Answer: D

NEW QUESTION # 81

Which of the following tools are considered enablers for digital transformation? Note: There are 3 correct answers to this question.

- A. SAP Product Availability Matrix
- B. SAP Signavio Process Navigator
- C. SAP Activate Community
- D. Software Logistics Toolset
- E. SAP Roadmap Viewer

Answer: A,B,E

Explanation:

Digital transformation with SAP S/4HANA Cloud Public Edition requires tools that enable organizations to plan, implement, and optimize their solutions effectively, supporting the shift to intelligent, cloud-based processes.

* Option A: SAP Activate CommunityIncorrect. The SAP Activate Community is a collaboration platform for sharing knowledge, not a tool for digital transformation. The SAP Activate Methodology Guide states, "The SAP Activate Community facilitates knowledge exchange, but it is not a direct enabler of digital transformation."

* Option B: SAP Roadmap ViewerCorrect. The SAP Roadmap Viewer provides visibility into the SAP Activate roadmap, helping customers plan their transformation. The SAP S/4HANA Cloud Implementation Guide explains, "The SAP Roadmap Viewer is an enabler for digital transformation, offering a clear view of the SAP Activate roadmap to guide implementation planning."

* Option C: SAP Product Availability MatrixCorrect. The SAP Product Availability Matrix (PAM) details product features and compatibility, aiding transformation planning. The SAP Product Availability Matrix Guide notes, "The SAP Product Availability Matrix supports digital transformation by providing detailed information on product capabilities, ensuring informed solution selection."

* Option D: Software Logistics ToolsetIncorrect. The Software Logistics Toolset is used for system administration tasks like upgrades, not transformation enablement. The SAP S/4HANA Cloud Study Guide clarifies, "The Software Logistics Toolset supports technical operations, not digital transformation planning or execution."

* Option E: SAP Signavio Process NavigatorCorrect. SAP Signavio Process Navigator enables process modeling and validation, a key aspect of transformation. The SAP Signavio Documentation confirms,

"SAP Signavio Process Navigator is a digital transformation enabler, providing process models and best practices to align business processes with SAP S/4HANA Cloud." Extract from Official Documentation:

* SAP S/4HANA Cloud Implementation Guide (SAP Help Portal, <https://help.sap.com>): "Tools like the SAP Roadmap Viewer, SAP Product Availability Matrix, and SAP Signavio Process Navigator are enablers for digital transformation, supporting planning, process alignment, and solution selection."

* SAP Signavio Documentation (SAP Community, <https://community.sap.com>): "SAP Signavio Process Navigator, along with the SAP Roadmap Viewer and Product Availability Matrix, facilitates digital transformation by providing critical resources for process optimization and implementation planning." Additional Context:

These tools support digital transformation by providing strategic planning (Roadmap Viewer), solution compatibility (PAM), and process alignment (Signavio), ensuring organizations can leverage SAP S/4HANA Cloud's capabilities to achieve intelligent enterprise goals.

SAP Help Portal: SAP S/4HANA Cloud Implementation Guide (<https://help.sap.com>).

SAP Community: SAP Signavio Documentation (<https://community.sap.com>).

SAP Product Availability Matrix Guide: Details product information.

SAP Activate Methodology: Outlines transformation enablers.

NEW QUESTION # 82

Which type of testing should be done after a release upgrade has occurred?

- A. User Acceptance tests
- B. Integration tests
- C. Regression tests
- D. String tests

Answer: C

NEW QUESTION # 83

After you completed the Explore Phase Quality Gate you notice that the Fit to Standard workshops have been carried out without the input of the finance experts of the Australian office of the customer. The Australian office is scheduled to go live in a later implementation phase. What should you do? Note: There are 2 correct answers to this question.

- A. Review the scope items to ensure their functionality is available and appropriate for use by Australian users.
- B. Put the project on hold and run all required Fit to Standard workshops with Australian users.
- C. Get approval from Australian key users on any of the configuration items that cannot be changed after system provisioning.
- D. Proceed with the as-is plan because the Australian office of the customer is scheduled for a later implementation phase.

Answer: A,C

Explanation:

The Explore phase, including Fit-to-Standard workshops, is critical for validating the solution fit for SAP S/4HANA Cloud Public Edition. Missing input from a key office, such as the Australian finance experts, requires careful handling, especially if they are part of a later implementation phase.

* Option A: Put the project on hold and run all required Fit to Standard workshops with Australian users. Incorrect. Halting the project is unnecessary and disrupts the timeline, as the Australian office is scheduled for a later phase. The SAP Activate Methodology Guide advises, "For phased implementations, input from later-phase stakeholders can be gathered post-Explore, provided critical configurations are validated."

* Option B: Proceed with the as-is plan because the Australian office of the customer is scheduled for a later implementation phase. Incorrect. Proceeding without any action risks misaligned configurations that may be locked post-provisioning, impacting the Australian office. The SAP S/4HANA Cloud Implementation Guide warns, "Ignoring key stakeholder input in early phases can lead to costly rework if non-changeable configurations are misaligned."

* Option C: Get approval from Australian key users on any of the configuration items that cannot be changed after system provisioning. Correct. Configurations like group currency or Fiscal Year Variant are locked after provisioning, so securing approval from Australian users ensures alignment.

The SAP Central Business Configuration Guide states, "For configurations that cannot be changed post-provisioning, such as group currency, approval from all relevant stakeholders, including future-phase users, is critical before finalizing."

* Option D: Review the scope items to ensure their functionality is available and appropriate for use by Australian users. Correct. Reviewing scope items ensures that the selected processes meet the needs of the Australian office, preventing gaps in later phases. The SAP S/4HANA Cloud Study Guide notes, "Scope item validation should consider all planned implementation phases to ensure functionality is appropriate for all regions or offices." Extract from Official Documentation:

* SAP Central Business Configuration Guide (SAP Help Portal, <https://help.sap.com>): "Non-changeable configuration items, such as group currency and Fiscal Year Variant, require approval from all relevant stakeholders, including those in later implementation phases, to avoid misalignment."

* SAP S/4HANA Cloud Implementation Guide: "For multi-phase implementations, scope items should be reviewed to ensure functionality meets the needs of all regions, and non-changeable configurations must be validated with future-phase stakeholders."

Additional Context:

In phased implementations, balancing progress with inclusivity is key. Engaging Australian users for critical configurations and scope validation ensures a scalable solution without delaying the project, aligning with SAP's agile and iterative approach.

:

SAP Help Portal: SAP Central Business Configuration Guide (<https://help.sap.com>).

SAP S/4HANA Cloud Implementation Guide: Details phased implementations.

SAP Activate Methodology Guide: Outlines Explore phase best practices.

SAP S/4HANA Cloud Study Guide: Explains scope and configuration validation.

NEW QUESTION # 84

.....

Many people want to be the competent people which can excel in the job in some area and be skillful in applying the knowledge to the practical working in some industry. But the thing is not so easy for them they need many efforts to achieve their goals. Passing the test C_S4PM_2504 certification can make them become that kind of people and if you are one of them buying our C_S4PM_2504 Study Materials will help you pass the test smoothly with few efforts needed. Our C_S4PM_2504 exam questions are valuable and useful and if you buy our product will provide first-rate service to you to make you satisfied.
