

# HPE7-A07 Valid Study Questions - HPE7-A07 New Dumps Files

What's more, part of that PassLeaderVCE HPE7-A07 dumps now are free: [https://drive.google.com/open?id=107ormysEVhtJHn9p7g97j\\_q2ve397WT6](https://drive.google.com/open?id=107ormysEVhtJHn9p7g97j_q2ve397WT6)

PassLeaderVCE is a reliable and professional leader in developing and delivering authorized IT exam training for all the IT candidates. We promise to give the most valid HPE7-A07 exam dumps to all of our clients and make the HP HPE7-A07 exam training material highly beneficial for you. Before you buy our HPE7-A07 exam torrent, you can free download the HPE7-A07 Exam Demo to have a try. If you buy it, you will receive an email attached with HPE7-A07 exam dumps instantly, then, you can start your study and prepare for HPE7-A07 exam test. You will get a high score with the help of our HP HPE7-A07 practice training.

## HP HPE7-A07 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Security: This topic evaluates the ability of a senior HP RF network engineer to design and troubleshoot security implementations, focusing on wireless SSID with EAP-TLS and GBP. It ensures the network is secure from unauthorized access and threats.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Troubleshooting: This topic of the HP HPE7-A07 exam assesses skills of a senior HP RF network engineer in troubleshooting. It also assesses the ability to remediate issues in campus networks. It is vital for ensuring network reliability and minimizing downtime in critical environments.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• Network Resiliency and Virtualization: This section of the Aruba Certified Campus Access Mobility Expert Written exam assesses the expertise of a senior HP RF network engineer in designing and troubleshooting mechanisms for resiliency, redundancy, and fault tolerance. It is crucial for maintaining uninterrupted network services.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>• Switching: Senior HP RF network engineers must demonstrate proficiency in implementing and troubleshooting Layer 2</li><li>• 3 switching, including broadcast domains and interconnection technologies. This ensures seamless and efficient data flow across network segments.</li></ul>
Topic 5	<ul style="list-style-type: none"><li>• Network Stack: This topic of the HP HPE7-A07 Exam evaluates the ability of a senior HP RF network engineer to analyze and troubleshoot network solutions based on customer issues. Mastery of this ensures effective problem resolution in complex network environments.</li></ul>

## HPE7-A07 New Dumps Files & Reliable HPE7-A07 Dumps Free

The meaning of qualifying examinations is, in some ways, to prove the candidate's ability to obtain qualifications that show your ability in various fields of expertise. If you choose our HPE7-A07 learning dumps, you can create more unlimited value in the limited study time, learn more knowledge, and take the exam that you can take. Through qualifying examinations, this is our HPE7-A07 Real Questions and the common goal of every user, we are trustworthy helpers, so please don't miss such a good opportunity. The acquisition of HP qualification certificates can better meet the needs of users' career development, so as to bring more promotion space for users. This is what we need to realize.

### HP Aruba Certified Campus Access Mobility Expert Written Exam Sample Questions (Q93-Q98):

#### NEW QUESTION # 93

A customer wan a gateway connected to a device on gigabitethernet0/0/3 configures an Asset ID TLV on the device for inventory management.

Exhibit.

The customer mentions me Asset ID is not shown What is causing the issue?

- A. Unknown TLVs cannot be displayed.
- B. LLDP-MED needs to be enabled.
- C. MTU size is too small.
- D. LLDP TX is not enabled.

**Answer: A**

Explanation:

The issue is that unknown TLVs (Type Length Values) cannot be displayed. LLDP (Link Layer Discovery Protocol) is used to share device information with network neighbors, but if a TLV is not recognized by the LLDP implementation on the gateway, it won't be displayed or processed. Hence, the Asset ID TLV set on the device for inventory management is not showing up because it is unrecognized or unsupported by the gateway's LLDP.

#### NEW QUESTION # 94

Your customer recently decided to build a new wireless network based on AOS-10. The following legacy settings still exist:

\* The DHCP server still sends option 60 "ArubaInstantAP" and option 43 including the IP address of the AirWave server in the ZTP VLAN.

\* The DNS server has an entry for "aruba-airwave" pointing to the AirWave server.

The customer purchased new AP-655 access points and HPE Aruba Networking Central subscriptions.

Each AP is assigned to the "ACX-Group" in the Device Pre-provisioning section of Central, and the external firewall allows HTTPS traffic between APs and the Internet.

What will happen when the new factory default APs are connected to the customer's network for the first time?

- A. The new APs will contact the IP address of AirWave from DHCP option 43
- B. The new APs will contact the IP address of AirWave learned from the DNS entry "aruba-airwave"
- C. The new APs will contact the cloud and get the "ACX-Group" configuration in HPE Aruba Networking Central
- D. The new APs will contact the cloud and will be pointed to the IP address of AirWave

**Answer: C**

#### NEW QUESTION # 95

Exhibit.

After configuring VRRP between sw-1 and SW-2. you notice that both switches are showing as active. What could be the reason for this issue?

- A. VRRP preemptive mode is disabled.
- B. SW-1 can reach SW-2 on VLAN 10.
- C. SW-2 has no priority configurations for VRRP 1.
- D. Both switches are configured as VRRP 'primary.'

**Answer: D**

Explanation:

In VRRP (Virtual Router Redundancy Protocol), only one switch should be the primary (master) for a given virtual IP address, with the other switches being backups. If both switches are showing as active, it suggests a misconfiguration where both are set to act as the primary for the same VRRP group. The exhibits provided indicate that both switches believe they are the active or primary for the VRRP group, which is an incorrect configuration.

#### NEW QUESTION # 96

In a campus topology using VSX with two aggregation switches and downlinks to access switches, which LAG interface configuration at the aggregation layer is correct based on the parameters below?

- \* ZTP VLAN 1001
- \* access switch MGMT VLAN 2002
- \* access switch MGMT VLAN is tagged
- \* connectivity to the access switch should be maintained before and after the ZTP operation is complete

- A. ☐
- B. ☐
- C. ☐
- D. ☐

**Answer: A**

#### NEW QUESTION # 97

Exhibit.

A network administrator attempts to improve multicast traffic flow and performs some packet captures for validation. What can the network administrator conclude from the results?

- A. The capture taken after optimization does not show a packet length because Multicast Transmission Optimization was configured.
- B. The type flow remains consistent because Dynamic Multicast Optimization (DMO) was configured.
- C. The data rate increased from 6 Mbps to 300 Mops because Dynamic Multicast Optimization (DMO) was configured.
- D. The data rate increased from 6 Mops to 300 Mops because Broadcast Multicast optimization (BCMCO) was configured.

**Answer: C**

Explanation:

Dynamic Multicast Optimization (DMO) is a feature that enhances the delivery of multicast traffic by optimizing the data rate. The before and after optimization images show a significant increase in the data rate, which is a typical result of DMO being configured, as it allows multicast traffic to be transmitted at higher data rates by converting multicast streams into unicast streams for the clients that need them.

#### NEW QUESTION # 98

.....

There are a lot of leading experts and professors in different field in our company. As a result, they have gained an in-depth understanding of the fundamental elements that combine to produce world class HPE7-A07 practice materials for all customers. So we can promise that our HPE7-A07 study materials will be the best study materials in the world. Our HPE7-A07 Exam Questions have a high quality. If you decide to buy our HPE7-A07 study materials, we can make sure that you will have the opportunity to enjoy the HPE7-A07 study guide from team of experts.
