Firefox, Chrome, IE, Opera, Safari, and all the major browsers support this SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management (C-S4EWM-2023) practice exam.

SAP C-S4EWM-2023 Exam Syllabus Topics:

Topic	Details
Topic 1	• Cross Topics (Labor Management, Exception Handling, Batches, Serial Numbers): This topic includes setting up labor management and exception handling, and working with additional product information.
Topic 2	• Process and Layout Oriented Storage Control: It covers creating customizing settings and using Process and Layout-Oriented Storage Control.
Topic 3	• Outbound Processes (Wave Management, Cross-docking, Production Integration): This topic covers combining outbound deliveries using wave management, packing and kitting in outbound processes, and staging products for production.
Topic 4	• System Integration, Master Data and Delivery Document Customizing: This focuses on setting up system integration, distributing master data, and customizing delivery documents.
Topic 5	• Managing Clean Core: It covers evaluating and applying clean core principles to ERP to maximize business process agility, reduce adaptation efforts, and accelerate innovation.
Topic 6	• Warehouse Processing, Warehouse Task and Order Creation, Strategies: This topic includes defining warehouse process types and setting up determination, as well as defining putaway and picking strategies.
Topic 7	• Inbound Processes (Value Added Services, Cross-docking, Quality Management): This topic includes executing inbound processes with value added services (VAS) or deconsolidation, and setting up deliveries for cross-docking (CD) or quality inspection (QIE).

Topic 8	• Warehouse Management (Monitor - Cockpit): This topic involves monitoring warehouse activities using the Warehouse Management Monitor, Warehouse Cockpit, and analytical apps.
Topic 9	• Shipping and Receiving: It focuses on configuring Yard Management, SAP Dock Appointment Scheduling, and using the Shipping Cockpit.

C-S4EWM-2023 Exam Answers | C-S4EWM-2023 Minimum Pass Score

Studying with us will help you build the future you actually want to see. By giving you both the skills and exposure of your area of work, our C-S4EWM-2023 study guides, C-S4EWM-2023 dump and practice questions and answers will help you pass C-S4EWM-2023 Certification without any problem. Our very special C-S4EWM-2023 products which include C-S4EWM-2023 practice test questions and answers encourage you to think higher and build a flourishing career in the every growing industry.

SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management Sample Questions (Q39-Q44):

NEW QUESTION # 39
What are the key fields used to define a delivery document in SAP Extended Warehouse Management customizing? Note: There are 2 correct answers to this question.

- A. Item type
- B. Document category
- C. Item category
- D. Document type

Answer: B,D

Explanation:
Comprehensive and Detailed In-Depth Explanation:
A delivery document in EWM is defined by its document type and category. Option A ("Document type") is correct as it specifies the delivery's purpose (e.g., "INB" for inbound), configured in SPRO: SCM Extended Warehouse Management > Delivery Processing > Document Types. Option D ("Document category") is correct because it classifies the document (e.g., "F" for inbound, "O" for outbound), linking it to ERP. Item category (B) and item type (C) are relevant for items within the delivery, not the document header definition.

NEW QUESTION # 40
You define new SAP Extended Warehouse Management (SAP EWM) delivery document types for inbound delivery processes. Which additional customizing step is required in SAP EWM?

- A. Define a document category for the inbound process.
- B. Define a delivery item type for the inbound process.
- C. Map an SAP ERP document type to the delivery document type
- D. Create a new system profile for the field control.

Answer: C

Explanation:
When defining new delivery document types for inbound processes in SAP EWM, an essential customizing step is:
* C. Map an SAP ERP document type to the delivery document type:
* This ensures that the delivery document type in SAP ERP is correctly linked to the corresponding delivery document type in SAP EWM.
* Mapping is critical for seamless integration and data consistency between ERP and EWM systems.
Incorrect Options:
* A: System profiles for field control do not need to be newly created for delivery document types.

* B: Document categories are predefined and do not need customization.
* D: Delivery item types are relevant but not directly required for document type definition.
References:
* SAP Help Portal: Delivery Document Type Customization
* SAP EWM Documentation: ERP-EWM Integration for Inbound Deliveries

NEW QUESTION # 41

What is defined with the preparation time in the warehouse order creation rule?

- A. The time required by the resource until it reaches the storage type
- B. The time required by the wave for the creation process
- C. The time required by an employee to prepare the processing of the warehouse order
- D. The time required by the system for the picking strategy

Answer: C

Explanation:
Preparation Time in Warehouse Order Creation Rule
* Employee Preparation Time (D): Reflects the time required for workers to get ready for processing the warehouse order, such as collecting tools or moving to the work area.
Excluded Options
* A (Resource Reach Time): Preparation time does not directly account for the time taken to reach storage types.
* B (System Picking Time): Picking strategy time is separate from preparation time.
* C (Wave Creation Time): Wave processing time is managed independently.
SAP S/4HANA Cloud Private Edition Reference
* Check Warehouse Order Creation Rules and Parameters in SAP EWM documentation.

NEW QUESTION # 42

With decentralized EWM, you can skip certain document categories. Which document category combination is still mandatory?

- A. A production material request and a stock transfer
- B. A posting change request and a posting change
- C. An outbound delivery request and an outbound delivery order
- D. An outbound delivery order and an outbound delivery

Answer: D

Explanation:
Comprehensive and Detailed In-Depth Explanation:
In decentralized EWM, some document categories can be bypassed, but option A ("An outbound delivery order and an outbound delivery") is mandatory because the outbound delivery order (ODO) is created in EWM from an ERP outbound delivery request, and the outbound delivery is completed after processing, configured in SPRO: SCM Extended Warehouse Management > Goods Issue Process > Outbound Delivery. Other combinations (B, C, D) can be optional or situational.

NEW QUESTION # 43

Which of the following are characteristics of tailored measurement services? Note: There are 2 correct answers to this question.

- A. They can be displayed in the graphical warehouse layout.
- B. They are based on calculated measurement services.
- C. They use basic measurement services for the key figures.
- D. They can be used for the SAP Business Warehouse.

Answer: B,C

NEW QUESTION # 44

......

As is known to us, our company is professional brand established for compiling the C-S4EWM-2023 exam materials for all candidates. The C-S4EWM-2023 guide files from our company are designed by a lot of experts and professors of our company in the field. We can promise that the C-S4EWM-2023 certification preparation materials of our company have the absolute authority in the study materials market. We believe that the study materials designed by our company will be the most suitable choice for you. You can totally depend on the C-S4EWM-2023 Guide files of our company when you are preparing for the exam.
