- Right-click the project, select Properties, set the Synchronize Database on Build property to **True**, and then select **OK**.
- Right-click the project and build the project.

NEW QUESTION # 251

A company uses Dynamics 365 Finance. The company creates an asset library.

You need to upload assets for a solution to the asset library.

Which asset types should you use? To answer, drag the appropriate asset types to the correct activities. Each asset type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Asset type	Answer Area	Activity	Asset type
GER configuration		Upload a logo of various sizes to be used in other environments.	
Localized financial report		Upload an electronic report to be used for a free text invoice in Dynamics 365 Finance.	
Marketing asset		Upload a region-specific solution developed for a ledger account in the form of an ISV.	
Retail SDK			

Answer:

Explanation:

Asset type

- GER configuration
- Localized financial report
- Marketing asset
- Retail SDK

Answer Area

Activity

- Upload a logo of various sizes to be used in other environments.
- Upload an electronic report to be used for a free text invoice in Dynamics 365 Finance.
- Upload a region-specific solution developed for a ledger account in the form of an ISV.

Asset type

- Marketing asset
- GER configuration
- Localized financial report

Explanation:

Asset type

- GER configuration
- Localized financial report
- Marketing asset
- Retail SDK

Answer Area

Activity

- Upload a logo of various sizes to be used in other environments.
- Upload an electronic report to be used for a free text invoice in Dynamics 365 Finance.
- Upload a region-specific solution developed for a ledger account in the form of an ISV.

Asset type

- Marketing asset
- GER configuration
- Localized financial report

NEW QUESTION # 252

You are a Dynamics 365 Finance developer.

You launch the Performance Timer tool to troubleshoot performance issues with a business process.

You need to view the results from the tool.

What does the tool present? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Performance Timer tool link	Data
Forms	<ul style="list-style-type: none"> The number of open forms and the rate at which they are opened and closed (per second). The total number of forms and the rate at which they are opened and closed (per second). The number of open forms and the rate at which they are opened and closed (per minute). The total number of forms and the rate at which they are opened and closed (per minute).
Services Session Provider	<ul style="list-style-type: none"> The number of open forms and the rate at which they are opened and closed (per second). The total number of forms and the rate at which they are opened and closed (per second). The number of open forms and the rate at which they are opened and closed (per minute). The total number of forms and the rate at which they are opened and closed (per minute).

Answer:

Explanation:

Performance Timer tool link	Data
Forms	<ul style="list-style-type: none"> The number of open forms and the rate at which they are opened and closed (per second). The total number of forms and the rate at which they are opened and closed (per second). The number of open forms and the rate at which they are opened and closed (per minute). The total number of forms and the rate at which they are opened and closed (per minute).
Services Session Provider	<ul style="list-style-type: none"> The number of open forms and the rate at which they are opened and closed (per second). The total number of forms and the rate at which they are opened and closed (per second). The number of open forms and the rate at which they are opened and closed (per minute). The total number of forms and the rate at which they are opened and closed (per minute).

Explanation

Performance Timer tool link	Data
Forms	<ul style="list-style-type: none"> The number of open forms and the rate at which they are opened and closed (per second). The total number of forms and the rate at which they are opened and closed (per second). The number of open forms and the rate at which they are opened and closed (per minute). The total number of forms and the rate at which they are opened and closed (per minute).
Services Session Provider	<ul style="list-style-type: none"> The number of open forms and the rate at which they are opened and closed (per second). The total number of forms and the rate at which they are opened and closed (per second). The number of open forms and the rate at which they are opened and closed (per minute). The total number of forms and the rate at which they are opened and closed (per minute).

Box 1: The number of open forms and ..(per second)

Forms - Forms will show how many forms are currently open, plus the rate at which they opened and closed (per second), and a set of counters, such as the total amount of created or closed forms.

Box 2: The number of open forms and ..(per second)

This should really be: Services Session provider - This is the total number of sessions created.
