質問 # 142

Scenario

A central government department, the Ministry of Food Hygiene (MFH), faces increasing pressure to cut costs, better manage suppliers' performance and reduce the confusion caused by inadequate internal controls, outdated standards and outdated technology. External consultants were employed to conduct a feasibility study to identify options to address the problems, and the likely costs and benefits. The following options were considered:

Do nothing.

Re-engineer selected business functions.

Outsource selected business functions.

The feasibility study concluded that there was a case for outsourcing the MFH Information Technology Division and the Facilities Division (maintenance of buildings and grounds). The recommendations were:

One service provider should be contracted to provide the services currently provided by the Information Technology Division and the Facilities Division.

A 10-year service contract should be agreed with the selected service provider.

The feasibility study developed high-level designs of the current organization, processes, systems and operating models, plus an outline Business Case for the required project. The external consultants also made the following recommendations for the management of the project:

Use PRINCE2.

Set up the project with 4 management stages:

Stage 1. Standard PRINCE2 initiation activities.

Stage 2. Create detailed designs (future organization, processes, systems and operating models) and the service level agreement between MFH and the future service provider.

Stage 3. Request and evaluate proposals, select service provider and agree contract.

Stage 4. Transfer equipment and staff, transfer responsibility for service provision and run trial period.

Initial estimates indicated that the project would cost (GBP)2.5m and take two years to complete.

MFH senior management agreed that there was a case for outsourcing, and accepted the recommendations as a basis for the project. There is an expected saving of (GBP)20m over 10 years.

The Outsourcing project has completed the Starting up a Project process and is now in the initiation stage. Because of the strategic

importance of the project, the MFH Chief Executive Officer has taken the role of Executive. A PRINCE2-experienced Project Manager has been appointed from within MFH. Staff within the business functions being outsourced will work with the external consultants who conducted the feasibility study to define the detailed designs.

Which 2 statements should be recorded under the Expected dis-benefits heading?

- A. MFH will lose direct control over the outsourced business functions.
- B. An investment of (GBP)2.5m is required.
- C. The project will take two years to deliver.
- D. Staff may lose the opportunity to work in Information Technology.
- E. Staff morale will be negatively affected.

正解: A、C

質問 # 143

Which 2 alternative actions apply to the proposed user assurance for this project?

- A. Retain because selecting only one of them may cause unnecessary conflict.
- B. Remove because neither of these individuals are from the business functions to be outsourced.
- C. Retain because their divisions will be the major users of the outsourced services and they can provide the user perspective on the impact of any proposed changes.
- D. Retain because they are both very positive about outsourcing the selected business functions.
- E. Retain because they are able to help identify stakeholders and their communication requirements.
