Reliable EX-Con-101 Exam Testking, EX-Con-101 Latest Torrent

To get the EX-Con-101 certification takes a certain amount of time and energy. Even for some exam like EX-Con-101, the difficulty coefficient is high, the passing rate is extremely low, even for us to grasp the limited time to efficient learning. So how can you improve your learning efficiency? Here, I would like to introduce you to a very useful product, our EX-Con-101 practice materials, through the information and data provided by it, you will be able to pass the EX-Con-101 qualifying examination quickly and efficiently as the pass rate is high as 99% to 100%.

Salesforce Certified Experience Cloud Consultant Sample Questions (Q145-Q150):

NEW QUESTION # 145

Ursa Major Solar would like its Experience Cloud site's guest users to benefit from the suggestions that come from autocomplete on search terms.

How should the administrator configure this?

- A. Use the Developer Console to add code to allow for autocomplete functionality.
- **B. In the Search component property editor, open the Autocomplete section and click desired objects to appear in autocomplete. Select "publicly available".**
- C. In Salesforce Setup, type "support settings" in the quickfind box. Under the Autocomplete header, select the objects to appear in autocomplete for guest users.
- D. In the Hero component property editor, open the Search Results section and click desired objects to appear in autocomplete. Select "publicly available".

Answer: B

Explanation:

To enable autocomplete for guest users, the administrator should use the Search component property editor, open the Autocomplete section, and click desired objects to appear in autocomplete. Select "publicly available". Autocomplete is a feature that suggests search terms based on what users type in the search box.

The Search component property editor is a tool that allows you to customize the settings and behavior of the Search component on your Experience Cloud site. By selecting "publicly available", you can make autocomplete suggestions visible to guest users who are not logged in.

NEW QUESTION # 146

Ursa Major Solar is utilizing audience targeting for specific components in its portal.

Which two considerations regarding audience targeting are true? Calculator Choose 2 answers

- **A. You can't assign audiences to the components in the template header and footer sections.**
- **B. You can't assign record-based criteria to a component or branding set.**
- C. Available domains are created in the Administration workspace and associated with a community through a custom URL.
- D. You can only have three audiences.

Answer: A,B

Explanation:

Audience targeting allows you to display different content to different audiences based on criteria such as profile, location, domain, or user. However, there are some limitations of audience targeting, such as:

* You can't assign audiences to the components in the template header and footer sections. These sections are shared across all pages in your site and can't be customized for different audiences.

* You can't assign record-based criteria to a component or branding set. Record-based criteria are only available for page variations and navigation menu items.

NEW QUESTION # 147

An Experience site is built in an Unlimited org. Some of the pages within the site are exposed to guest users.

How many page views are allowed per month?

- A. 1 million
- **B. 5 million**
- C. 500,000
- D. 100,000

Answer: B

Explanation:

The page view limit for an Experience site depends on the org edition and the license type of the site users. For an Unlimited org, the page view limit is 5 million per month for guest users, and unlimited for authenticated users. A page view is counted when a user

requests a page that is served by the site.

NEW QUESTION # 148

DreamHouse Realty (DR) has active participation of home owners and prospective buyers in its Experience Cloud site that uses Chatter. Recently, DR observed a significant number of comments being marked as spam.

OR's Salesforce and Security teams did further analysis and identified the posts made by the spammers.

OR's Management team has decided to remove all the spammers' posts and comments from the Experience Cloud site.

What should the Experience Cloud consultant recommend to remove them?

- A. Experience Cloud site managers, moderators, and admins work together to remove all the spammers' posts and comments manually.
- B. Enable Experience Cloud Einstein features to remove all the spammers' posts and comments as a background action.
- C. Submit a high-priority case with Salesforce Support to remove all of the spammers' posts and comments. The site will be under maintenance state until resolution.
- **D. Utilize the Insights reports by creating and using a custom action to remove all the spammers' posts and comments.**

Answer: D

Explanation:

To remove all the spammers' posts and comments from the Experience Cloud site, DR should utilize the Insights reports by creating and using a custom action to remove them. Insights reports are reports that show the activity and engagement metrics on DR's site, such as page views, likes, comments, flags, and moderation actions. DR can use Insights reports to identify the spammers' posts and comments based on the flagging reasons or other criteria. DR can also create a custom action that allows DR to remove multiple posts or comments at once from the Insights reports.

NEW QUESTION # 149

No More Homelessness (NMH) is about to create a public site for volunteers where they will be able to sign up for volunteering opportunities at local events. Each registration will result in a record being created for a custom Event Registration object.

Which three considerations should NMH keep in mind for records created by guest users?

Choose 3 answers

- A. Default owner does not need Read/Write access to view the records created by guest users.
- **B. Queues cannot be assigned as owners of records created by guest users.**
- C. When possible, one should create and assign queues as owners of records created by guest users.
- **D. Any active user in an org can be assigned as the default owner of records created by guest users.**
- **E. Setting the default owner for records created by guests is an option in Experience Cloud sites.**

Answer: B,D,E

Explanation:

For records created by guest users, NMH should keep in mind that queues cannot be assigned as owners, setting the default owner is an option in Experience Cloud sites, and any active user in an org can be assigned as the default owner. A queue is a location where records can be routed to await processing by a group of users. However, queues cannot be assigned as owners of records created by guest users because guest users do not have access to queues. Setting the default owner for records created by guests is an option in Experience Cloud sites that allows NMH to specify who will own the records created by guest users on their public site. Any active user in an org can be assigned as the default owner of records created by guest users, as long as they have the appropriate permissions and access to the object.

NEW QUESTION # 150

.....

If you are the first time to prepare the EX-Con-101 exam, it is better to choose a type of good study materials. After all, you cannot understand the test syllabus in the whole round. It is important to predicate the tendency of the EX-Con-101 study materials if you want to easily pass the exam. Now, all complicate tasks have been done by our experts. They have rich experience in predicating the EX-Con-101 exam. Then you are advised to purchase the study materials on our websites. Also, you can begin to prepare the EX-Con-101 Exam. You are advised to finish all exercises of our EX-Con-101 study materials. In fact, you do not need other reference books. Our study materials will offer you the most professional guidance. In addition, our EX-Con-101 study materials
