Case #34410
Designing Cisco Data Center Infrastructure

질문 #110
A network engineer is using a Cisco UCS environment connected to a Fibre Channel storage array. The storage array is connected to a Cisco 3000 switch. The Cisco 3000 switch is connected to a Cisco 3000 Series SAN switch. What must be added to increase storage density? The interface must not exceed the SAN interface from the list of available devices (i.e. after connecting this, most of the SAN traffic must be shaped from the Cisco UCS blades to a specific group of the storage interfaces)? Which two features must be deployed to meet these requirements? (Choose two.)

- A static IP address
- A virtual IP address
- Dynamic port pooling
- QoS (Layer 2) virtualization
- L2 and L3 trunking

정답: A, C

질문 #111
An engineer must configure an interface for managing and administering a Cisco Nexus device. The interface must support the operational of the data and control planes (switch, support IPv4 and IPv6 addressing, and L2/L3 switching) and support its own VRF instance. Which interface should be used to meet these requirements?

- A interface VLAN
- S-Physical interface
- C management interface
- G-bridge

정답: C

질문 # 37

Which FIDIC Book (edition 2017) should be considered first by an Employer that is an experienced employer who knows exactly what they want from a design & engineering perspective?

- A. Silver Book
- B. Yellow or Silver Book
- C. Red Book
- D. Yellow Book

정답: C

설명:

The FIDIC Red Book (2017 edition) is traditionally used for construction contracts where the Employer provides the design, and the Contractor primarily executes the construction works. This form is suitable for Employers who have detailed and well-defined design and engineering requirements and want to retain control over the design.

* The Red Book is ideal for experienced Employers who have a clear and fixed design and require the Contractor to build accordingly.

* The Yellow Book is typically used where the Contractor is responsible for both design and construction (design & build). It suits Employers who want to delegate design responsibility to the Contractor.

* The Silver Book is used for turnkey or EPC contracts where the Contractor takes full responsibility for design, procurement, construction, and commissioning, suitable for Employers seeking minimal involvement in design and execution details.

* Hence, for an Employer who knows exactly what they want from a design and engineering perspective and wants to maintain control, the Red Book is the first and most appropriate choice.

질문 # 38

Which of the following obligations are relevant to the Engineer's roles with regards to insurance? [2017 Edition] (2 correct answers apply) Choose all of the correct answers (multiple possibilities).

- A. The Engineer shall receive a copy of the evidence(s) demonstrating Contractor's payment of the necessary insurance premiums.
- B. The Engineer shall immediately suspend all construction activities at the Site, in case the Contractor failed to take out any necessary insurance.
- C. The Engineer should continuously monitor that the Contractor's insurance policies are kept valid, and extensions are duly arranged, when necessary.
- D. The Engineer is entitled to take out an insurance on behalf of the Contractor, in case the Contractor fails to extend the validity of a specific insurance.

정답: A,C

설명:

Comprehensive and Detailed Explanation:

Option A is correct: The Engineer is entitled to receive evidence that the Contractor has paid for the necessary insurance policies.

Option C is correct: The Engineer has the role of monitoring the validity of these insurances and ensuring that renewals or extensions are arranged in a timely manner.

Option B is incorrect; the Engineer does not have the authority to take out insurance on behalf of the Contractor.

Option D is incorrect; suspension of construction activities is not automatically the Engineer's role for insurance lapses but may require instructions from the Employer.

질문 # 39

What does discharge confirm under the FIDIC Red Book (edition 1999)?

- A. It confirms full and final settlement of all money due to the Contractor.
- B. None of the above three statements is correct.
- C. It confirms the immediate end to the Contract unconditionally whenever issued.
- D. It confirms interim settlement of all money due to the Contractor

정답: A

설명:

Discharge under FIDIC Red Book 1999 confirms full and final settlement of all money due to the Contractor.

It signifies the Contractor's acceptance of the Final Payment Certificate and releases the Employer from further financial obligations related to the contract.

Options A and C misrepresent the nature of discharge.

Discharge is not a unilateral immediate termination but a financial closure.

질문 # 40

Which of the following documents form part of a FIDIC Construction Contract ["Red Book" (1999)], hence, to be drafted and included among the Tender Documents? (2 correct answers apply) Choose all of the correct answers (multiple possibilities).

- A. Schedule of Guarantees
- B. Schedule of Baselines
- C. Bill of Quantities
- D. Employer's Requirements
- E. Specifications

정답: C,E

설명:

Under the FIDIC Red Book (1999), the Tender Documents typically include:

The Bill of Quantities (Option B), which provides detailed quantities for priced items and forms a basis for tender pricing.

The Specifications (Option E), which define the technical requirements for the Works.

The Schedule of Guarantees (Option A) is usually provided later, during contract formation, not as part of tender documents.

Employer's Requirements (Option C) are more commonly referenced in design-build contracts such as the Yellow Book, not the Red Book which is traditionally a design-bid-build contract.

Schedule of Baselines (Option D) is not a standard tender document in FIDIC Red Book contracts.

질문 # 41

You are the Contract Manager of the Engineer in a hotel project. In May 2020, the Employer and the Contractor signed a Contract based on the FIDIC Yellow Book (edition 2017), as per which the Contractor will design and build a hotel project with Contract Price of 5,100,000 USD. The Time for Completion for this project is 12 months (May 2021). The Contract also named a nominated Subcontractor (as referred to in Sub- Clause 4.5) who provides mechanical, electrical, and plumbing services for the project (including the fire fighting system), which was accepted by the Contractor without any discussions.

The Project was delayed due to issues with the fire fighting system, and you issued the Taking-Over Certificate in June 2022.

The Employer sent a Notice of Claim to the Contractor on Delay Damages with a maximum value equal to

10% of Contract Price (510,000 USD). The Employer also gave a Notice to the Contractor stating that the Contractor has failed to submit the evidence of payment to the nominated Subcontractor as well as the reason for withholding payment to the nominated Subcontractor. Therefore, the Employer has paid the nominated Subcontractor directly the entire amount due, coming to 100,000 USD. The Employer intends to include this amount as a deduction in the Final Payment to the Contractor.

As Contract Manager of the Engineer, you are tasked to make a fair determination of the Notices of the Employer. In your "Notice of the Engineer's determination", what is your determination for the deduction of the next Interim Payment to the Contractor in relation to the amount directly paid to the nominated Subcontractor?

- A. The Employer is not entitled to deduct the amount directly paid.
- B. The Employer is entitled to deduct the amount directly paid.

정답: B

설명:

Comprehensive and Detailed Explanation:

According to FIDIC Yellow Book 2017, Sub-Clause 4.5, the Employer has the right to pay a nominated Subcontractor directly if the Contractor fails to do so and can deduct the amount from payments due to the Contractor. This provision protects nominated Subcontractors and ensures payment continuity. The Contractor's failure to provide evidence of payment and justification for withholding payment justifies the Employer's direct payment and deduction.

Thus, the Engineer's determination should allow the Employer to deduct the 100,000 USD paid directly to the nominated Subcontractor from the Contractor's next Interim Payment, ensuring fairness and contract compliance.
