Use Palo Alto Networks NetSec-Pro Practice Exam Software (Desktop and Web-Based) For Self Evaluation

Palo Alto NetSec-Pro
Study Guide

PALO ALTO NETSEC-PRO STUDY MATERIALS AND
PRACTICE TESTS
NWEXAM

If you intend to take the Palo Alto Networks NetSec-Pro exam to open doors to high-paying jobs, you need an authentic Palo Alto Networks NetSec-Pro practice exam material to get a passing score on the first attempt. Many people do not find a platform that is credible to purchase updated Palo Alto Networks NetSec-Pro prep material. This leads to a waste of time and money, and ultimately failure in the NetSec-Pro exam.

You must be very surprised to see that our pass rate of the NetSec-Pro study guide is high as 98% to 100%! We can tell you with data that this is completely true. The contents and design of NetSec-Pro learning quiz are very scientific and have passed several official tests. Under the guidance of a professional team, you really find that NetSec-Pro training engine is the most efficient product you have ever used.

Learning NetSec-Pro Mode - NetSec-Pro Reliable Cram Materials

There is no doubt that advanced technologies are playing an important role in boosting the growth of Palo Alto Networks companies. This is the reason why the employees have now started upgrading their skillset with the Palo Alto Networks Network Security Professional (NetSec-Pro) certification exam because they want to work with those latest applications and save their jobs. They attempt the NetSec-Pro exam to validate their skills and try to get their dream job.

Palo Alto Networks Network Security Professional Sample Questions (Q46-Q51):

NEW QUESTION # 46
When configuring Security policies on VM-Series firewalls, which set of actions will ensure the most comprehensive Security policy enforcement?

- A. Configure port-based policies, check threat logs weekly, conduct software updates annually, and enable decryption.
- B. Configure all default policies provided by the firewall, use Policy Optimizer, and adjust security rules after an incident occurs.
- C. Configure policies using User-ID and App-ID, enable decryption, apply appropriate security profiles to rules, and update regularly with dynamic updates.
- D. Configure a block policy for all malicious inbound traffic, configure an allow policy for all outbound traffic, and update regularly with dynamic updates.

Answer: C

Explanation:
A comprehensive security approach uses:
* User-ID for identity-based policies
* App-ID for application-based security
* Decryption to inspect encrypted traffic
* Security profiles to enforce protections
* Dynamic updates to ensure up-to-date threat coverage
"For comprehensive security, combine User-ID, App-ID, decryption, and security profiles. Keep the firewall updated with dynamic content updates to maintain the strongest security posture." (Source: Best Practices for Security Policy) This ensures real-time, identity-aware, and application-centric security enforcement.

NEW QUESTION # 47
During a security incident investigation, which Security profile will have logs of attempted confidential data exfiltration?

- A. Enterprise DLP Profile
- B. Vulnerability Protection Profile
- C. File Blocking Profile
- D. WildFire Analysis Profile

Answer: A

Explanation:
Enterprise DLP Profile is specifically designed to detect and log data exfiltration attempts, including those involving confidential or sensitive data.
"Enterprise DLP logs capture incidents involving potential data exfiltration. They help identify sensitive data transfers, even in seemingly legitimate traffic." (Source: Enterprise DLP Logging and Alerts) File Blocking and Vulnerability Protection handle files or exploit detection, while WildFire focuses on malware analysis-not direct data exfiltration.

NEW QUESTION # 48
Using Prisma Access, which solution provides the most security coverage of network protocols for the mobile workforce?

- A. Explicit proxy
- B. Enterprise browser
- C. Clientless VPN
- D. Client-based VPN

Answer: D

Explanation:
Client-based VPN solutions like GlobalProtect provide full coverage for the mobile workforce by extending the enterprise security stack to remote endpoints. It establishes a secure tunnel, allowing consistent security policies across the enterprise perimeter and the mobile workforce.

"GlobalProtect is a client-based VPN that provides secure, consistent protection for mobile users by extending the security capabilities of Prisma Access to remote endpoints, covering all network protocols." (Source: GlobalProtect Admin Guide)

NEW QUESTION # 49

Which action is only taken during slow path in the NGFW policy?

- **A. SSL/TLS decryption**
- B. Security policy lookup
- C. Session lookup
- D. Layer 2-Layer 4 firewall processing

Answer: A

Explanation:
InPalo Alto Networks' Single-Pass Parallel Processing (SP3)architecture, SSL/TLS decryption occurs only during theslow pathwhen the firewall first encounters a new session.
"SSL/TLS decryption, which requires CPU-intensive cryptographic operations, is performed during the slow path when establishing new sessions. Once decrypted, traffic is processed in the fast path for subsequent packets." (Source: Packet Flow and SP3 Architecture) After the initial decryption in the slow path, decrypted traffic is handled by fast path for efficiency.

NEW QUESTION # 50

Which set of attributes is used by IoT Security to identify and classify appliances on a network when determining Device-ID?

- A. IP address, network traffic patterns, and device type
- B. Device model, firmware version, and user credential
- **C. MAC address, device manufacturer, and operating system**
- D. Hostname, application usage, and encryption method

Answer: C

Explanation:
IoT SecurityusesMAC address,device manufacturer, andOS informationtoidentify and classify devices via Device-ID.
"IoT Security uses passive network traffic analysis to fingerprint devices based on the MAC address, manufacturer, and operating system to ensure accurate classification." (Source: IoT Security Device-ID and Classification) These attributes provide a robust, manufacturer-agnostic method to fingerprint IoT devices.

NEW QUESTION # 51

......

Our NetSec-Pro practice materials enjoy great popularity in this line. We provide our NetSec-Pro practice materials on the superior quality and being confident that they will help you expand your horizon of knowledge of the exam. They are time-tested practice materials, so they are classic. As well as our after-sales services. We can offer further help related with our NetSec-Pro practice materials which win us high admiration. By devoting in this area so many years, we are omnipotent to solve the problems about the NetSec-Pro practice exam with stalwart confidence. Providing services 24/7 with patient and enthusiastic staff, they are willing to make your process more convenient.
