NEW QUESTION # 65

A company uses Dynamics 365 Business Central. The company has two finance managers.

You need to configure approval workflow for purchase orders. Only one manager is required to approve a purchase order.

How should you complete the configuration? To answer, drag the pages to the correct requirements. Each page may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

□ Explanation:

□

When configuring approvals in Dynamics 365 Business Central for purchase orders:

- * Create and enable workflow (Page = Workflow)
- * You begin in the Workflow page, where you create a new workflow based on a template (e.g., Purchase Order Approval Workflow).
- * This defines the process (events, responses, conditions).
- * Set up the relevant sequence for approval managers (Page = Approval User Setup)
- * Use the Approval User Setup page to define the hierarchy of approval users, their limits, and whether escalation rules apply.
- * This defines which users can approve which amounts.
- * Enable parallel approval for two managers (Page = Workflow User Group)
- * A Workflow User Group allows multiple approvers to be set up in parallel.
- * If only one of them needs to approve, you configure the group accordingly.

Not correct:

- * Workflow Category # Used for categorizing workflows, not setting up approval logic or parallel approvals.

Microsoft Learn References

- * Set Up and Use Workflows
- * Set Up Approval Users
- * Workflow User Groups

NEW QUESTION # 66

You create a new item in Microsoft Dynamics 365 Business Central.

You need to configure item settings.

Which item settings should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Graphical user interface, text, application, email Description automatically generated
